What is Leicester Medical Society?

LMS was founded in 1800 with the purpose of supporting doctors in the local area and encouraging communication between specialities. Today its activities include an opportunity to network and stay connected, bursary provision for students and continued support for local medical professionals and their families. The Society's main events are monthly meetings, where there is an interesting (and often inspiring) lecture, and refreshments. All Leicestershire based medics are welcome to attend, and we encourage you to join the Society if, after your first meeting, you are interested.

FREE membership for all medical students
