

1. Programme title(s):

MSc/Postgraduate Diploma*/Postgraduate Certificate* in Management

*Approved as exit awards only

2. Awarding body or institution:

University of Leicester

3. a) Mode of study:

Full-Time

b) Type of study:

Campus-based

4. Registration periods:

The normal period of registration for the MSc Management is 12 months

The maximum period of registration for the MSc Management is 24 months

5. Typical entry requirements:

The programme will follow standard entry requirements: a good UK honours degree or its equivalent or an acceptable professional qualification; or possession of the University of Leicester's Professional Diploma in Management (or its predecessor, the Diploma in Management) will be required. For students whose first language is not English, the English Language requirement is an IELTS 6.5 or TOEFL 90. Students who complete 2+1 undergraduate degrees where the 2 is not taught in English must still meet the University IELTS requirement.

6. Accreditation of Prior Learning:

Will be considered on a case by case basis.

7. Programme aims:

The programme aims to

1. provide students with a rigorous management curriculum covering the main theories, models, frameworks, and techniques of management to prepare them for a career in management or for further study in the area;
2. enable the study of management and organisations in an historical, international and comparative framework recognising the different types, sizes, structures and purposes of organizations and the stakeholders that they serve;
3. critically analyse and evaluate management problems and issues, covering the external economic, political, social, and technological, contexts within which organizations operate and managers work;
4. enable students to critically evaluate the published literature on management and organisations and to synthesise the range of issues and perspectives which inform research and practice in the field;

5. provide students with an appreciation of the importance of information to managers and organizations within a knowledge-based economy. This will include an identification of appropriate methodologies for data acquisition, assessment, analysis and dissemination.
- 6 enable course members to integrate and apply systematically and creatively the knowledge, approaches, and methods that they have learnt to a variety of case studies and a dissertation.
- 7 enable course members to develop their interpersonal, communication, ,and problem-solving skills, and to use these in an imaginative and self-directed way that will allow them to identify problems, evaluate and analyse situations, consider alternative solutions, make choices, and implement solutions.

10. Special features

This programme features a 30 credit dissertation rather than the more traditional 60 credits. This will better align students' learning, skills and goals with those provided on the programme. A typical 30 credit dissertation might involve a student writing a management report or undertaking a desk-based research project. This type of dissertation would be well aligned with a typical task a graduate may have to perform in employment. At the same time it would allow the application of skills learnt during their course (potentially from any and all modules) in a focussed project. The dissertation would involve independent research along with analysis, critical thinking and the application of techniques.

The table below gives details of how we expect the skills involved in a dissertation to be assessed under the 30 dissertation format (listed below as Dissertation) and other modules which further develop these skills.

Skill	Courses
Literature review	Dissertation, Management in Practice, Research Methods for Managers
Define appropriate research questions	Dissertation
Identify the steps necessary to answer questions	Dissertation, Accounting and Finance for Managers
Develop research skills	Dissertation, Management in Practice, Research Methods for Managers, International Business, Strategic Management
Select and apply appropriate analytical techniques	Dissertation, Business Economics, Accounting and Finance for Managers, Strategic Management
Evaluate work and identify possible improvements	Dissertation, Marketing Management, International Business, Strategic Management, Organisational Behaviour
Present results concisely and appropriately	Dissertation, Accounting and Finance for Managers
Structure and develop arguments	Dissertation, Organisational Behaviour, Business Economics, International Business, Management in Practice
Write a formal document (including appropriate referencing)	Dissertation, Management in Practice, Research Methods for Managers

The dissertation will enhance our graduates in the key areas set out by the QAA whilst permitting a wider range of assessments, multiple projects, and more focused. Further it will make our students more attractive to employers.

11. Indicators of programme quality

Academic quality will be maintained by adhering to School practice and University regulations. Programmes are carefully planned and reviewed internally on a yearly basis through the ADR mechanism. External examiners of programme content and marking will provide external validation and comparison to programmes offered by competitors. Coordination and alignment between the programme teaching team and professional services ensures a consistent and high quality academic experience for the students.

12. Scheme of Assessment:

As defined in [Senate Regulation 6](#): Regulations governing taught postgraduate programmes of study.

13. Progression points

As defined in [Senate Regulation 6](#): Regulations governing taught postgraduate programmes of study.

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course and a recommendation will be made to the Board of Examiners for an intermediate award where appropriate.

14. Rules relating to re-sits or re-submissions:

As defined in [Senate Regulation 6](#): Regulations governing taught postgraduate programmes of study.
