1. **Programme title(s) and UCAS code(s):**

   BSc Medical Microbiology C521

   With optional Year in Industry or Year Abroad (in Europe, USA or Japan)

2. **Awarding body or institution:**

   University of Leicester

3. **a) Mode of study:** Full time  
   **b) Type of study:** Campus-based

4. **Registration periods:**

   The normal period of registration is three years (four years for degrees ‘with a year in industry/abroad’)

   The maximum period of registration is five years (six years for degrees ‘with a year in industry/abroad’)

5. **Typical entry requirements:**

   A-levels: typical offer AAB/ABB, normally including at least two relevant science subjects from Biology (preferred), Chemistry, Physics or Maths.

   EPQ with A-levels: typical offer BBB + EPQ at grade B. A-level subjects to include two relevant science subjects from Biology (preferred), Chemistry, Physics or Maths. General Studies not accepted.

   GCSE: At least Grade C in both English Language and Maths (if not held at A-level)

   Access to HE Diploma: Pass relevant diploma with 45 credits at level three, with distinctions in some subjects.

   International Baccalaureate: Pass Diploma with 32/30 points, including at least two relevant science subjects at Grade 6 at higher level.

   BTEC Nationals: Pass relevant Diploma with DDD plus five GCSEs at B or above including two relevant sciences.

6. **Accreditation of Prior Learning:**
Direct 2nd year entry is considered subject to completion of a level 4 programme of comparable content to those studies in year 1 of this programme, passing all modules and with a year mark of at least 65%.

7. **Programme aims:**

The programme aims to provide:

- a flexible teaching and learning programme of high quality that is informed by an active research environment in which students develop their own interests

- a stimulating and supportive working environment;

- an education that will enable graduates to follow a variety of careers including higher degrees and research;

and to enable students to:

- have a broad appreciation of microbiology and related disciplines with an emphasis on human health and disease, and advanced knowledge of one or more areas including appreciation of aspects of the underpinning research;

- develop a range of skills including practical and transferable skills;

- gain experience, within the 4 year Industry/abroad options, work in an external research laboratory or an American, Japanese or another European University.

8. **Reference points used to inform the programme specification:**

- QAA Benchmarking Statement
- University of Leicester Learning and Teaching Strategy 2016-2020
- University of Leicester Periodic Developmental Review Report
- External Examiners’ reports (annual)

9. **Programme Outcomes:**
<table>
<thead>
<tr>
<th>Intended Learning Outcomes</th>
<th>Teaching and Learning Methods</th>
<th>How Demonstrated?</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Discipline specific knowledge and competencies</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(i) Mastery of an appropriate body of knowledge</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Demonstrate an awareness of main principles of biological sciences, biomedical sciences and related disciplines and explain core concepts of their chosen discipline. Describe current areas of advance in their chosen specialisation(s) within medical microbiology.</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
<td>Examination, coursework (e.g. practical reports, written reports, data analysis, oral presentations, group reports, video production, poster production, dissertation)</td>
</tr>
<tr>
<td>(ii) Understanding and application of key concepts and techniques</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Describe and apply safely appropriate experimental procedures in medical microbiology and associated Biological Sciences disciplines. Apply a scientific approach to the solution of problems in medical microbiology and appreciate the rationale of experimental design. Explain core concepts of their chosen discipline.</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
<td>Examination and coursework</td>
</tr>
<tr>
<td>(iii) Critical analysis of key issues</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Demonstrate a capacity for critical scientific analysis of issues in context of medical microbiology and associated Biological Sciences disciplines</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
<td>Examination and coursework</td>
</tr>
<tr>
<td>(iv) Clear and concise presentation of material</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Communicate orally and in writing concepts and arguments in medical microbiology and associated Biological Sciences disciplines</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
<td>Examination and coursework</td>
</tr>
<tr>
<td>Intended Learning Outcomes</td>
<td>Teaching and Learning Methods</td>
<td>How Demonstrated?</td>
</tr>
<tr>
<td>---------------------------</td>
<td>------------------------------</td>
<td>------------------</td>
</tr>
<tr>
<td><strong>(v) Critical appraisal of evidence with appropriate insight</strong></td>
<td>Demonstrates the capacity to analyse and criticise evidence from both experimental procedures and the literature.</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
</tr>
<tr>
<td><strong>(vi) Other discipline specific competencies</strong></td>
<td>In the year in industry/abroad programmes, demonstrates the capacity to work in an industrial or other research laboratory or study in another European, American or Japanese University.</td>
<td>Laboratory work, research project</td>
</tr>
<tr>
<td><strong>(b) Transferable skills</strong></td>
<td>Communicate orally, with clarity and coherence, concepts and arguments in medical microbiology and associated biological sciences disciplines</td>
<td>Tutorials, seminars, practical classes, computer classes, discussions, research projects, group work.</td>
</tr>
<tr>
<td><strong>(i) Oral communication</strong></td>
<td>Communicate in writing, with clarity and coherence, concepts and arguments in medical microbiology and associated biological sciences disciplines</td>
<td>Tutorials, seminars, practical classes, computer classes, discussions, research projects, group work.</td>
</tr>
<tr>
<td><strong>(ii) Written communication</strong></td>
<td>Demonstrate the effective use of IT for accessing databases and scientific literature; manipulating, processing and presenting data; presenting written assignments.</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
</tr>
<tr>
<td>Intended Learning Outcomes</td>
<td>Teaching and Learning Methods</td>
<td>How Demonstrated?</td>
</tr>
<tr>
<td>---------------------------</td>
<td>-------------------------------</td>
<td>-------------------</td>
</tr>
<tr>
<td>(iv) Numeracy</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
<td>Examination and coursework</td>
</tr>
<tr>
<td>(v) Team working</td>
<td>Tutorials, group work, research projects.</td>
<td>Group reports, use of class data to generate practical reports</td>
</tr>
<tr>
<td>(vi) Problem solving</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
<td>Examination and coursework</td>
</tr>
<tr>
<td>(vii) Information handling</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, and private study.</td>
<td>Examination and coursework</td>
</tr>
<tr>
<td>(viii) Skills for lifelong learning</td>
<td>Lectures, tutorials, seminars, practical classes, computer classes, discussions, research projects, group work, directed reading, resource-based learning, private study, career development programme.</td>
<td>Examination, coursework, personal development planning.</td>
</tr>

</table>

10. **Progression points:**

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.
The programme follows the standard scheme of progression set out in Senate Regulation 5 with the following additional requirements.

The Board of Examiners reserves the right to determine the progression of students who carry failed credits but have the right to a further resit: where these credits are in modules that are pre-requisite for subsequent modules or where the student has a low overall level of attainment, the Board can require the student to resit the failed modules without residence rather than proceed to the next year carrying failed modules to be resat alongside the current modules.

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.

11. Scheme of Assessment
The programme follows the standard scheme of award and classification set out in Senate Regulation 5.

12. Special features:

In year 1, students receive a broad education in core bioscience disciplines with a focus on microbiology, along with specific teaching in medical biosciences and key skills. In years 2 and 3, the core programme, including Medical Microbiology modules specific to them, is supplemented with options from the Biological Sciences programme. Opportunities are available to take placements within related industries, or to study in other European, American or Japanese universities.

The School has a strong reputation for research and the range of staff expertise enables provision of research-led programmes that offer breadth and depth.

13. Indications of programme quality
External examiner evaluations.

14. External Examiner(s) reports
The details of the External Examiner(s) for this programme and the most recent External Examiners’ reports for this programme can be found at exampapers@Leicester [log-in required]

Appendix 3: Skills matrix
Appendix 1: Programme structure (programme regulations)

BSc Medical Microbiology C531

With optional Year in Industry or Year Abroad (in Europe, USA or Japan)

BSc Medical (Microbiology)

Year 1

Semester 1

BS1030 The Molecules of Life – An Introduction to Biochemistry and Molecular Biology (30)
BS1040 The Cell - An Introduction to Microbiology & Cell Biology (30)

Semester 2

BS1050 From Individuals to Populations - An Introduction to Genetics (15)
BS1060 Multicellular Organisation - An Introduction to Physiology, Pharmacology and Neuroscience (30)
MB1080 An Introduction to Medical Bioscience (15)

Year 2

Semester 1

Core modules:

MB2020 Medical Microbiology (15)
BS2000 Research Topic (15)

For semester 1, make the credits add up to 60 by choosing from the modules listed below: ¹

BS2009 Genomes (15)
BS2013 Physiology and Pharmacology (15)
BS2015 Physiology of Excitable Cells (15)
BS2030 Principles of Microbiology (15) (Recommended module)
BS2092 Molecular and Cell Biology (15)
BS2059 Conservation Biology (15)
Semester total: 60 credits

Semester 2

Core module:

BS2032  Immunology and Eukaryotic Microbiology (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below:¹

BS2014  Exercise Physiology and Pharmacology (15)
BS2026  Genes, Development & Inheritance (15)
BS2040  Bioinformatics (15)
BS2066  Behavioural Neurobiology (15)
BS2077  Neurobiology & Animal Behaviour (15)
BS2091  Biochemistry of Nucleic Acids (15)
BS2093  Protein Control in Cellular Regulation (15)

Semester total: 60 credits

With a Year in Industry (option)

Core module:

BS3400  Year in Industry Research Placement (0) (Year-long)

Year 3

Semester 1

Research Project: 30/45 credits.

Choose ONE from the following five options:

i)  BS3101  Experimental Research Project A (15) and
    BS3102  Experimental Research Project B (30) (Year-long module)
    OR

ii) BS3201  Analytical Research Project (30)
    OR
iii) BS3301 Education Research Project A (15) and
    BS3302 Education Research Project B (30) (Year-long module)
    OR
iv) BS3401 Steered Experimental Research Project (30)
    OR
v) BS3501 Field Research Project A (Operation Wallacea) (15) and
    BS3102 Experimental Research Project B (30) (Year-long module)

Plus core module:
BS3015 Molecular and Cellular Immunology (15)

Choose TWO OR THREE modules from:

Semester 1
BS3068 Microbial Biotechnology (15)

Semester 2
BS3013 Human and Environmental Microbiomics (15)
BS3011 Microbial Pathogenesis and Genomics (15)

Semester 1

For semester 1, make the credits add up to 60 by choosing from the modules listed below:

BS3000 Evolutionary Genetics (15)
BS3010 Gene Expression: Molecular Basis & Medical Relevance (15)
BS3031 Human Genetics (15)
BS3054 Molecular & Cellular Pharmacology (15)
BS3055 Molecular & Cellular Neuroscience (15)
BS3064 Comparative Neurobiology (15)
BS3070 Structural Biology (15)

Semester total: 60 credits
Semester 2

Core module:

MB3020       Advanced Topics in Medical Microbiology (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹

BS3003       Cancer Cell & Molecular Biology (15)
BS3016       Neuroscience Futures (15)
BS3018       Genes & Development (15)
BS3033       Physiology, Pharmacology and Behaviour (15)
BS3056       Cellular Physiology of the Cardiovascular System (15)
BS3059       Current and Future Therapeutics (15)

Semester total: 60 credits

¹ Module selection subject to timetable restrictions.
