## **7. Programme aims**

The programme aims to:

- Provide a detailed knowledge, and critical awareness, of the main ideas, concepts, models and principles in economic analysis, and their application to the study of accounting through a number of specialised financial modules.
- Develop skills in quantitative economic analysis through the use of standard mathematical and statistical techniques and their application to economic problems and data.
- Increase a graduate's marketability by: encouraging intellectual development, critical ability, research skills, communication skills and confidence in problem recognition, formulation and solution; and by promoting awareness of the general economic and financial environment and current financial issues.
- Prepare students for a wide range of careers such as chartered accountancy, business management, financial services and postgraduate study in economics or a related area.

- Develop skills of written and oral presentation, team working, information handling, use of information technology and skills for lifelong learning.
- Develop in students a detailed knowledge of core areas in economics and accounting at progressively rising levels of analytical and technical complexity.
- Introduce students to techniques of accounting (such as financial reporting, management accounting, auditing and taxation).
- Develop in students an ability to use financial software and data sources.

## 10. Progression points

This programme follows the standard Scheme of Progression set out in [Senate Regulations](#) – see the version of Senate Regulation 5 governing undergraduate programmes relevant to the year of entry.

In order to proceed to the second year of their studies, students must have passed, with a mark of at least 35% (and an overall credit weighted average of 40% during the year), all core modules. It should be noted that no first year students can proceed and resit.

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.

For the Year Abroad variants, students will not be admitted directly to these programmes but will be able to transfer to the programme on application for a year abroad during the second year of the BA Economics and Accounting programme under the following conditions:

- Have an overall average of 55 or higher in the first year
- Must obtain at least an overall average of 60 or higher in semester one of the second year.
- Must not be carrying any failed modules at the end of the summer examination period of the second year
- Must be able to attend the full year abroad (at the host institution until August and may be required to start there mid-September the previous year)
- Accept responsibility as an ambassador of the University.

For the Year in Industry variants, students will not be admitted directly to these programmes but will be able to transfer to the programme during the second year BA Economics and Accounting programme under the following conditions:

- Have an overall average of 55 or higher in the first year
- Must not carry any failed modules forward into year 2
- Must have secured a role and the required due diligence has been completed by ULSB to formally confirm that the placement is suitable

## 11. Criteria for award and classification

This programme follows the standard scheme of undergraduate award and classification set out in [Senate Regulations](#) – see the version of *Senate Regulation 5 governing undergraduate programmes* relevant to the year of entry.

## 12. Special features

This programme is delivered through a blended learning mode of delivery which can be accessed either on campus or online. All taught content and autonomous independent learning activities can be accessed through on-line learning platforms, whilst seminar discussions and dialogic activity will be delivered either on-line through interactive synchronous learning opportunities or in person on campus. Students are able to switch between on-campus learning or on-line learning on a semester-by-semester basis.

In addition:

- A four-day induction programme in the first week of Year 1.
- Study of core economics and accounting modules in Years 2 and 3 with progressively rising levels of analytical and technical complexity, as well as microeconomic and macroeconomic analysis.
- Provision of a broad range of optional modules, diverse in their subject areas and modes of analysis, to enable students to pursue their chosen specialist interests.
- Development of learning and communication skills in groups of various sizes.
- Academic supervision of an extended research project, in an economics-related topic of the students' own choosing, resulting in a professional-style written dissertation.
- Accreditation has been granted from two major accounting bodies ACCA and CIMA. Further accreditation from ICAEW is possible, subject to achieving the criteria set out on the ICAEW website: <https://apps.icaew.com/cpldirectory>

### **13. Indications of programme quality**
