Students on the four-year variant of this degree programme must have no more than 30 credits of year two modules outstanding before entering their final year. A student who does not achieve the threshold level will normally be required to transfer to the three-year variant of this programme, but will be considered by a progression board on a case-by-case basis prior to entering the final year of their studies.

The contributing departments have both been rated ‘excellent’ in their teaching by the last subject-specific QAA inspection. In the 2014 REF both departments had 98% of their research judged to be of international excellence or significance.
