1. Programme title(s) and code(s):
   MBiolSci Biological Sciences
   MBiolSci Biological Sciences (Biochemistry)*
   MBiolSci Biological Sciences (Genetics)
   MBiolSci Biological Sciences (Microbiology)
   MBiolSci Biological Sciences (Physiology with Pharmacology)
   MBiolSci Biological Sciences (Neuroscience)
   MBiolSci Medical Biosciences (Biochemistry)
   MBiolSci Medical Biosciences (Genetics)
   MBiolSci Medical Biosciences (Physiology)
   MBiolSci Medical Biosciences (Microbiology)

The MBiolSci programmes are available with or without an optional Year in Industry or Year Abroad

Exit Awards are available (which cannot be applied for) as follows:
   HECert Biological Sciences
   HEDip Biological Sciences
   HECert Medical Biosciences
   HEDip Medical Biosciences
   BSc Biological Sciences*
   BSc Biological Sciences (Biochemistry)*
   BSc Biological Sciences (Genetics)*
   BSc Biological Sciences (Microbiology)*
   BSc Biological Sciences (Physiology with Pharmacology)*
   BSc Biological Sciences (Neuroscience)*
   BSc Medical Biochemistry*
   BSc Medical Genetics*
   BSc Medical Physiology*
   BSc Medical Microbiology*

Notes
* An award marked with an asterisk is only available as an exit award and is not available for students to register onto. Exit awards are available with or without an optional Year in Industry or Year Abroad

a) HECOS Code

<table>
<thead>
<tr>
<th>HECOS Code</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>100948</td>
<td>100%</td>
</tr>
</tbody>
</table>
2. **Awarding body or institution:** University of Leicester

3.  
   a) **Mode of study** Full-time  
   b) **Type of study** Campus-based

4. **Registration periods:**  
The normal period of registration for the MBiolSci is four years (five years for degrees ‘with a year in industry/abroad’)  
The maximum period of registration for the MBiolSci is six years (seven years for degrees ‘with a year in industry/abroad’)

5. **Typical entry requirements**  
   A-levels: typical offer AAB/ABB, normally including at least two relevant science subjects from Biology, Chemistry, Physics or Maths. We may consider two AS-levels in place of one A2-level. General Studies not accepted.  
   EPQ with A-levels: typical offer BBB + EPQ at grade B. A-level subjects to include two relevant science subjects from Biology (preferred), Chemistry, Physics or Maths. General Studies not accepted.  
   GCSE: At least Grade C/4 in both English Language and Maths (if not held at A-level)  
   Access to HE Diploma: Pass Science diploma with 45 credits at level three, 30 of which must be at distinction.  
   International Baccalaureate: Pass Diploma with 32/30 points, with a minimum of 17/16 points at HL to include grade 6 and 5 in at least two relevant science subjects from Biology, Chemistry, Physics or Maths. Minimum of 3 in HL Maths or 4 in SL Mathematics, or 5 in Maths Studies required if grade C/4 not held at GCSE. Minimum of 4 in English Language required if grade C/4 not held at GCSE  
   BTEC Nationals: Pass Applied Science Diploma with DDD plus five GCSEs at B/5 or above including two relevant sciences. Please contact Admissions before applying.

5. **English Language Requirements**  
   IELTS 6.5 or equivalent. If an applicant’s first language is not English, they may need to provide evidence of their English language ability. If they do not yet meet our requirements, the English Language Teaching Unit (ELTU) offers a range of courses to help applicants to improve their English to the necessary standard.

   The aims, learning outcomes and application criteria for the **GCSA Year Abroad** are available online.

6. **Accreditation of Prior Learning**  
   Direct 2nd year entry is considered subject to completion of a level 4 programme of comparable content to those studies in year 1 of this programme, passing all modules and with a year mark of at least 65%.

7. **Programme aims**  
The programme aims to  
At levels 4, 5 and 6:  
   • provide a flexible teaching and learning programme of high quality that is informed by an active research environment in which students develop their own interests  
   • provide a stimulating and supportive working environment  
   • provide an education that will enable graduates to follow a variety of careers including higher degrees and research
• have a broad appreciation of biological sciences or of biomedical and related disciplines with an emphasis on human health and disease, and advanced knowledge of one or more areas including appreciation of aspects of the underpinning research;

• develop a range of subject-specific skills including practical and transferable skills aligned to the Transferable Skills Framework: Interpersonal Skills; Skills associated with Exploration and Implementation and Self-Management Skills;

In addition to the above, at level 7:

• Provide instruction in current concepts and techniques of a specialised area of Biological Sciences as applied in modern research.

• Offer practical instruction in experimental techniques and use of common laboratory equipment.

• Give students direct experience of laboratory-based research during a long- research placement.

• Provide a framework to develop skills to plan research and devise strategies to achieve specific research goals.

• Prepare graduates for employment in molecular, biomedical or biotechnological research and related industries, or for entry to PhD programmes.

In addition, for the “with a Year in Industry” variants:

• To provide students with an experience of the application of Biological and/or Biomedical professional skills in an industrial environment and to reinforce knowledge through its use in different environments.

• To gain an appreciation of the full range of skills required by Biological and Biomedical Scientists in industry.

In addition, for the “with a Year Abroad” variants:

• To provide experience of study of Biological or Medical Biosciences at an overseas University, to reinforce knowledge through use in different environments and when studying abroad develop communication skills in a foreign language.

8. Reference points used to inform the programme specification

• QAA Benchmarking Statement
• Framework for Higher Education Qualifications (FHEQ)
• UK Quality Code for Higher Education
• Education Strategy
• University Assessment Strategy
• University of Leicester Periodic Developmental Review Report
• External Examiners’ reports (annual)
• United Nations Education for Sustainable Development Goals
• Student Destinations Data
9. Programme Outcomes

Unless otherwise stated, programme outcomes apply to all awards specified in 1. Programme title(s).

</tbody>
</table>
10. Progression points:

Progression from levels 4 to 5 and 5 to 6

The programme follows the scheme of progression set out in Senate Regulation 5 with the following additional requirements:

In order to remain on the MBiolSci programme students are required to achieve a CWA of at least 50% at the end of level 5 and have no resits. Students whose CWA is between 45-50% (or who have a resit) will be individually considered for progression by the exam board in light of mitigating or other circumstances. Students who fail to meet these criteria at the end of the second year are required to transfer to the relevant BSc programme.

The Board of Examiners reserves the right to determine the progression of students who carry failed credits but have the right to a further resit: where these credits are in modules that are pre-requisite for subsequent modules or where the student has a low overall level of attainment, the Board can require the student to repeat level 4 or resit the failed modules without residence rather than proceed to the next year carrying failed modules to be resat alongside the current modules. In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.

Progression from level 6 to 7

To progress to level 7, students will need a level 6 CWA of 50% or higher, if students do not pass the level 6 (y3) 30 credit project module, they will be at high risk of not achieving the necessary credit weighted average for progression to level 7. Those failing to achieve this will be considered by the Board of Examiners for the appropriate BSc with or without industry. In exceptional circumstances a student may fail credits in year 3. If only 15 credits are failed then students may proceed to level 7 and re-sit the failed assessments or alternatively graduate with a BSc; levels 4, 5 and 6 of the MBiolSci programme meet the intended learning outcomes of the equivalent BSc programme.

Progression to Year Abroad

Students will have the opportunity to take a Year Abroad either between levels 5 and 6 OR levels 6 and 7. Student can only take a Year Abroad on one occasion and cannot take both a Year Abroad AND a Year in Industry.

To take a Year Abroad after level 5, students would need a CWA of 55.00% or higher at both level 4 and 5 and be carrying no failed modules.

To take a Year Abroad after level 6, students would need a CWA of 55.00% or higher at levels 4, 5 and 6 and no failed modules.

Progression to Year in Industry

Students will have the opportunity to take a Year in Industry either between levels 5 and 6 OR levels 6 and 7. Student can only take a Year in Industry on one occasion and cannot take both a Year in Industry AND a Year Abroad.
To take a Year in Industry after level 5, students would need to meet standard University eligibility requirements to progress to the next level of study. Students who obtain a level 5 CWA of less than 50.00% will be permitted to take a Year in Industry but will not be eligible for progression to level 7, and therefore would revert to a BSc (with a Year in Industry). See ‘Progression from levels 4 to 5 and 5 to 6’ for more information.

To take a Year in Industry after level 6, students would need a level 5 CWA of 50.00% or higher and a level 6 CWA of 50.00% or higher. Students who do not meet the eligibility criteria, but who meet the requirements to graduate with a BSc, would graduate that year with a BSc. See ‘Progression from level 6 to 7’ for more information.

Exit awards
Students who fail to complete level 5 study, level 6 study or level 7 study will be eligible for the exit awards: HECert Biological Sciences; HEDip Biological Sciences and BSc (hons) Biological Sciences respectively. Students are not permitted to register purely for this HECert or HE Dip.

Exit Awards are available (which cannot be applied for) as follows:

- HECert Biological Sciences
- HEDip Biological Sciences
- HECert Medical Biosciences
- HEDip Medical Biosciences
- BSc Biological Sciences*
- BSc Biological Sciences (Biochemistry)*
- BSc Biological Sciences (Genetics)*
- BSc Biological Sciences (Microbiology)*
- BSc Biological Sciences (Physiology with Pharmacology)*
- BSc Biological Sciences (Neuroscience)*
- BSc Medical Biochemistry*
- BSc Medical Genetics*
- BSc Medical Physiology*
- BSc Medical Microbiology*

*with or without an optional Year in Industry or Year Abroad

For the Year in Industry variant, the additional programme outcomes apply
11. Criteria for award and classification
This programme follows the standard scheme of postgraduate award and classification set out in Senate Regulations – see the version of Senate Regulation governing postgraduate programmes relevant to the year of entry.

12. Special features
Students receive a broad level 4 education in biological sciences, Medical Biosciences and related disciplines along with training in key skills including the Leicester Award. As the course progresses into level 5 and 6, students have the option to specialise progressively within the specified subject streams or to retain a broader perspective. Opportunities are available to take placements within related industries, or to study at universities abroad.

The School of Biological Sciences has a strong reputation for research and the range of staff expertise enables provision of research-led, level 6 and 7 programmes that offer breadth and depth. In the fourth year, the students move on to a level 7, 60 credit taught programme that mirrors one of the School’s laboratory-based MSc programmes; they then follow this up with a 60 credit research project.

For the Year Industry variant the additional Special Features apply

13. Indications of programme quality
External examiner evaluations.
Annual Developmental Review
Periodic Development Review
Module Review
Destinations of Leavers from Higher Education (DLHE) and Longitudinal Educational Outcomes survey (LEO).
National Student Survey
Student Feedback

For the Year Industry variant the additional indications of programme quality apply

14. External Examiner(s) reports
The details of the External Examiner(s) for this programme and the most recent External Examiners’ reports for this programme can be found at exampapers@Leicester [log-in required].
Appendix 1: Programme structure (programme regulations)

The University regularly reviews its programmes and modules to ensure that they reflect the current status of the discipline and offer the best learning experience to students. On occasion, it may be necessary to alter particular aspects of a course or module.

Appendix 1a: Level 4, 5 and 6 programme structure

Level 7 programme structure appears in Appendix 1b.

Semester total: 60 credits

MBiolSci  Biological Sciences with a Year in Industry (option)

Core module:
- BS3400  Year in Industry Research Placement (0) (Year-long)

Year 3

Semester 1

Core modules

Research Project: 30/45 credits.
Choose ONE from the following five options:

i) BS3101 Experimental Research Project A (15) and BS3102 Experimental Research Project B (30) (Year-long module)
   OR

ii) BS3201 Analytical Research Project (30)
   OR

iii) BS3301 Education Research Project A (15) and BS3302 Education Research Project B (30) (Year-long module)
    OR

iv) BS3401 Steered Experimental Research Project (30)
   OR

v) BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)

For semester 1, make the credits add up to 60 by choosing from the modules listed below: ¹

BS3000 Evolutionary Genetics (15)
BS3010 Gene Expression: Molecular Basis & Medical Relevance (15)
BS3015 Molecular and Cellular Immunology (15)
BS3031 Human Genetics (15)
BS3054 Molecular & Cellular Pharmacology (15)
BS3055 Molecular & Cellular Neuroscience (15)
BS3064 Comparative Neurobiology (15)
BS3068 Microbial Biotechnology (15)
BS3070 Structural Biology (15)

Semester total: 60 credits

Semester 2

For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹

BS3003 Cancer Cell & Molecular Biology (15)
BS3011 Microbial Pathogenesis and Genomics (15)
BS3013 Human and Environmental Microbiomics (15)
BS3016 Neuroscience Futures (15)
BS3033 Physiology, Pharmacology and Behaviour (15)
BS3056 Cellular Physiology of the Cardiovascular System (15)
BS3073 Conservation and Ecological Genetics (15)
BS3080 Behavioural Ecology (15)

**Semester total: 60 credits**

1 Module selection subject to timetable restrictions

**MBiolSci Biological Sciences with a Year in Industry (option)**

*Core module:*

MB2020 Medical Microbiology (15)

Semester total: 60 credits

Semester 2

Core module:
BS2091 Biochemistry of Nucleic Acids (15)

Choose ONE or TWO modules from:
BS2040 Bioinformatics (15)
BS2093 Protein Control in Cellular Regulation (15)
For semester 2, make the credits add up to 60 by choosing from the modules listed below:

- BS2004 Contemporary Techniques in Biological Data Analysis (15)
- BS2014 Exercise Physiology and Pharmacology (15)
- BS2026 Genes, Development & Inheritance (15)
- BS2032 Immunology and Eukaryotic Microbiology (15)
- BS2033 Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
- BS2066 Behavioural Neurobiology (15)
- BS2077 Neurobiology & Animal Behaviour (15)
- BS2078 A Field Guide to Evolution (15)

**Semester total: 60 credits**

MBiolSci Biological Sciences (Biochemistry) with a Year in Industry

**Core module:**
- BS3400 Year in Industry Research Placement (0) (Year-long)

### Year 3

#### Semester 1

**Core modules**

Research Project: 30/45 credits.

Choose ONE from the following five options:

1. BS3101 Experimental Research Project A (15) and BS3102 Experimental Research Project B (30) (Year-long module)
   or
2. BS3201 Analytical Research Project (30)
   or
3. BS3301 Education Research Project A (15) and BS3302 Education Research Project B (30) (Year-long module)
   or
4. BS3401 Steered Experimental Research Project (30)
   or
5. BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)
Plus core module:
BS3070      Structural Biology (15)
BS3010      Gene Expression: Molecular Basis & Medical Relevance (15)

Semester total: 60 credits
Semester 2
Core module:
BS3003      Cancer Cell & Molecular Biology (15)

Semester 2
For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹
BS3011      Microbial Pathogenesis and Genomics (15)
BS3013      Human and Environmental Microbiomics (15)
BS3016      Neuroscience Futures (15)
BS3033      Physiology, Pharmacology and Behaviour (15)
BS3056      Cellular Physiology of the Cardiovascular System (15)
BS3073      Conservation and Ecological Genetics (15)
BS3080      Behavioural Ecology (15)

Semester total: 60 credits
¹ Module selection subject to timetable restrictions.

MBiolSci    Biological Sciences (Biochemistry) with a Year in Industry
Core module:
BS4400      Year in Industry Research Placement (0) (Year-long)

Year 4
Level 7 Programme structure (programme regulations) appear in Appendix 2
MBiolSci level 4, 5 and 6  BSc Exit award – Biological Sciences (Genetics)

Year 1

Semester 1
BS1030  The Molecules of Life – An Introduction to Biochemistry and Molecular Biology (30)
BS1040  The Cell - An Introduction to Microbiology & Cell Biology (30)

Semester 2
BS1050  From Individuals to Populations - An Introduction to Genetics (15)
BS1060  Multicellular Organisation - An Introduction to Physiology, Pharmacology and Neuroscience (30)
BS1070  Biodiversity & Behaviour - An Introduction to Zoology (15)

Year 2

Semester 1
Core modules:
BS2000  Research Topic (15)
BS2009  Genomes (15)

Choose ONE or TWO modules from:

Semester 1
BS2092  Molecular and Cell Biology (15)

Semester 2
BS2026  Genes, Development & Inheritance (15)

Semester 1
For semester 1, make the credits add up to 60 by choosing from the modules listed below: ¹
BS2013  Physiology and Pharmacology (15)
BS2015  Physiology of Excitable Cells (15)
BS2030  Principles of Microbiology (15)
MB2020  Medical Microbiology (15)
BS2059  Global Change Biology and Conservation (15)

Semester total: 60 credits
**Semester 2**

*Core modules:*

BS2040 Bioinformatics (15)

**Semester 2**

*For semester 2, make the credits add up to 60 by choosing from the modules listed below:*

1. BS2004 Contemporary Techniques in Biological Data Analysis (15)
2. BS2014 Exercise Physiology and Pharmacology (15)
3. BS2032 Immunology and Eukaryotic Microbiology (15)
4. BS2033 Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
5. BS2066 Behavioural Neurobiology (15)
6. BS2077 Neurobiology & Animal Behaviour (15)
7. BS2078 A Field Guide to Evolution (15)
8. BS2091 Biochemistry of Nucleic Acids (15)
9. BS2093 Protein Control in Cellular Regulation (15)

**Semester total: 60 credits**

MBiolSci Biological Sciences (Genetics) with a Year in Industry

*Core module:*

BS3400 Year in Industry Research Placement (0) (Year-long)

**Year 3**

*Semester 1*

*Core modules*

Research Project: 30/45 credits.

Choose ONE from the following five options:

1. BS3101 Experimental Research Project A (15) **and**
2. BS3102 Experimental Research Project B (30) (Year-long module)
3. OR
4. BS3201 Analytical Research Project (30)
5. OR
iii) BS3301 Education Research Project A (15) and BS3302 Education Research Project B (30) (Year-long module)
OR
iv) BS3401 Steered Experimental Research Project (30)
OR
v) BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)

Plus core modules:
BS3000 Evolutionary Genetics (15)
BS3031 Human Genetics (15)

Semester total: 60 credits

Semester 2

Choose ONE or TWO modules from:
BS3011 Microbial Pathogenesis and Genomics (15)
BS3073 Conservation and Ecological Genetics (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹
BS3003 Cancer Cell & Molecular Biology (15)
BS3013 Human and Environmental Microbiomics (15)
BS3016 Neuroscience Futures (15)
BS3033 Physiology, Pharmacology and Behaviour (15)
BS3056 Cellular Physiology of the Cardiovascular System (15)
BS3080 Behavioural Ecology (15)

Semester total: 60 credits

¹ Module selection subject to timetable restrictions.

M BiolSci Biological Sciences (Genetics) with a Year in Industry

Core module:
BS4400 Year in Industry Research Placement (0) (Year-long)

Year 4

Level 7 Programme structure (programme regulations) appear in Appendix 2
MBiolSci level 4, 5 and 6  BSc Exit award – Biological Sciences (Microbiology)

Year 1

Semester 1
BS1030  The Molecules of Life – An Introduction to Biochemistry and Molecular Biology (30)
BS1040  The Cell - An Introduction to Microbiology & Cell Biology (30)

Semester 2
BS1050  From Individuals to Populations - An Introduction to Genetics (15)
BS1060  Multicellular Organisation - An Introduction to Physiology, Pharmacology and Neuroscience (30)
BS1070  Biodiversity & Behaviour - An Introduction to Zoology (15)

Year 2

Semester 1
Core modules:
BS2000  Research Topic (15)
BS2030  Principles of Microbiology (15)
MB2020  Medical Microbiology (15)

For semester 1, make the credits add up to 60 by choosing from the modules listed below: ¹
BS2009  Genomes (15)
BS2013  Physiology and Pharmacology (15)
BS2015  Physiology of Excitable Cells (15)
BS2092  Molecular and Cell Biology (15)
BS2059  Global Change Biology and Conservation (15)

Semester total: 60 credits

Semester 2
Core modules:
BS2032  Immunology and Eukaryotic Microbiology(15)

OR

BS2033  Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
For semester 2, make the credits add up to 60 by choosing from the modules listed below:  

BS2004 Contemporary Techniques in Biological Data Analysis (15)  
BS2014 Exercise Physiology and Pharmacology (15)  
BS2026 Genes, Development & Inheritance (15)  
BS2040 Bioinformatics (15)  
BS2066 Behavioural Neurobiology (15)  
BS2077 Neurobiology & Animal Behaviour (15)  
BS2078 A Field Guide to Evolution (15)  
BS2091 Biochemistry of Nucleic Acids (15)  
BS2093 Protein Control in Cellular Regulation (15)

Semester total: 60 credits

MBiolSci Biological Sciences (Microbiology) with a Year in Industry

Core module:
BS3400 Year in Industry Research Placement (0) (Year-long)

Year 3

Semester 1

Core modules

Research Project: 30/45 credits.

Choose ONE from the following five options:

i) BS3101 Experimental Research Project A (15) and BS3102 Experimental Research Project B (30) (Year-long module)

OR

ii) BS3201 Analytical Research Project (30)

OR

iii) BS3301 Education Research Project A (15) and BS3302 Education Research Project B (30) (Year-long module)

OR

iv) BS3401 Steered Experimental Research Project (30)

OR

v) BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)
Choose THREE OR FOUR modules from:

**Semester 1**
- BS3015 Molecular and Cellular Immunology (15)
- BS3068 Microbial Biotechnology (15)

**Semester 2**
- BS3011 Microbial Pathogenesis and Genomics (15)
- BS3013 Human and Environmental Microbiomics (15)

**Semester 1**
For semester 1, make the credits add up to 60 by choosing from the modules listed below:
- BS3000 Evolutionary Genetics (15)
- BS3010 Gene Expression: Molecular Basis & Medical Relevance (15)
- BS3031 Human Genetics (15)
- BS3054 Molecular & Cellular Pharmacology (15)
- BS3055 Molecular & Cellular Neuroscience (15)
- BS3064 Comparative Neurobiology (15)

**Semester total: 60 credits**

**Semester 2**
For semester 2, make the credits add up to 60 by choosing from the modules listed below:
- BS3003 Cancer Cell & Molecular Biology (15)
- BS3016 Neuroscience Futures (15)
- BS3033 Physiology, Pharmacology and Behaviour (15)
- BS3056 Cellular Physiology of the Cardiovascular System (15)
- BS3073 Conservation and Ecological Genetics (15)
- BS3080 Behavioural Ecology (15)

**Semester total: 60 credits**

1 Module selection subject to timetable restrictions.

**MBiolSci Biological Sciences (Microbiology) with a Year in Industry**

**Core module:**
- BS4400 Year in Industry Research Placement (0) (Year-long)

**Year 4**
Level 7 Programme structure (programme regulations) appear in Appendix 2
MBiolSci level 4, 5 and 6  BSc Exit award – Biological Sciences (Physiology with Pharmacology)

Year 1

Semester 1
BS1030  The Molecules of Life – An Introduction to Biochemistry and Molecular Biology (30)
BS1040  The Cell - An Introduction to Microbiology & Cell Biology (30)

Semester 2
BS1050  From Individuals to Populations - An Introduction to Genetics (15)
BS1060  Multicellular Organisation - An Introduction to Physiology, Pharmacology and Neuroscience (30)
BS1070  Biodiversity & Behaviour - An Introduction to Zoology (15)

Year 2

Semester 1
Core modules:
BS2000  Research Topic (15)
BS2013  Physiology and Pharmacology (15)

Choose ONE or TWO modules from:

Semester 1
BS2015  Physiology of Excitable Cells (15)

Semester 2
BS2093  Protein Control in Cellular Regulation (15)

Semester 1
For semester 1, make the credits add up to 60 by choosing from the modules listed below: ^1
BS2009  Genomes (15)
BS2030  Principles of Microbiology (15)
BS2092  Molecular and Cell Biology (15)
MB2020  Medical Microbiology (15)
BS2059  Global Change Biology and Conservation (15)

Semester total: 60 credits

Semester 2
Core module:
BS2014  Exercise Physiology and Pharmacology (15)
For semester 2, make the credits add up to 60 by choosing from the modules listed below:

1. BS2004  Contemporary Techniques in Biological Data Analysis (15)
2. BS2026  Genes, Development & Inheritance (15)
3. BS2032  Immunology and Eukaryotic Microbiology (15)
4. BS2033  Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
5. BS2040  Bioinformatics (15)
6. BS2077  Neurobiology & Animal Behaviour (15)
7. BS2078  A Field Guide to Evolution (15)
8. BS2091  Biochemistry of Nucleic Acids (15)

**Semester total: 60 credits**

**MBiolSci Biological Sciences (Physiology with Pharmacology) with a Year in Industry (option)**

**Core module:**

BS3400  Year in Industry Research Placement (0) (Year-long)

**Year 3**

**Semester 1**

**Core modules**

Research Project: 30/45 credits.

Choose ONE from the following five options:

i) BS3101  Experimental Research Project A (15) and
    BS3102  Experimental Research Project B (30) (Year-long module)

OR

ii) BS3201  Analytical Research Project (30)

OR

iii) BS3301  Education Research Project A (15) and
    BS3302  Education Research Project B (30) (Year-long module)

OR

iv) BS3401  Steered Experimental Research Project (30) (TO START IN 2020/21)

OR

v) BS3501  Field Research Project A (Operation Wallacea) (15) and
    BS3102  Experimental Research Project B (30) (Year-long module)
Core module:
BS3054 Molecular and Cellular Pharmacology (15)
BS3055 Molecular and Cellular Neuroscience (15)

Semester total: 60 credits

Semester 2

Core module:
BS3056 Cellular Physiology of the Cardiovascular System (15)
BS3033 Physiology, Pharmacology and Behaviour (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹
BS3003 Cancer Cell & Molecular Biology (15)
BS3011 Microbial Pathogenesis and Genomics (15)
BS3013 Human and Environmental Microbiomics (15)
BS3073 Conservation and Ecological Genetics (15)
BS3080 Behavioural Ecology (15)

Semester total: 60 credits

¹ Module selection subject to timetable restrictions.

MBiolSci Biological Sciences (Physiology with Pharmacology) with a Year in Industry (option)

Core module:
BS4400 Year in Industry Research Placement (0) (Year-long)

Year 4

Level 7 Programme structure (programme regulations) appear in Appendix 2
MBiolSci level 4, 5 and 6  BSc Exit award – Biological Sciences (Neuroscience)

**Year 1**

**Semester 1**
- BS1030  The Molecules of Life – An Introduction to Biochemistry and Molecular Biology (30)
- BS1040  The Cell - An Introduction to Microbiology & Cell Biology (30)

**Semester 2**
- BS1050  From Individuals to Populations - An Introduction to Genetics (15)
- BS1060  Multicellular Organisation - An Introduction to Physiology, Pharmacology and Neuroscience (30)
- BS1070  Biodiversity & Behaviour - An Introduction to Zoology (15)

**Year 2**

**Semester 1**

*Core modules:*
- BS2000  Research Topic (15)
- BS2015  Physiology of Excitable Cells (15)

*Choose ONE or TWO modules from:*

**Semester 1**
- BS2013  Physiology and Pharmacology (15)

**Semester 2**
- BS2040  Bioinformatics (15)

**Semester 1**

*For semester 1, make the credits add up to 60 by choosing from the modules listed below:*  
- BS2009  Genomes (15)
- BS2030  Principles of Microbiology (15)
- BS2092  Molecular and Cell Biology (15)
- MB2020  Medical Microbiology (15)
- BS2059  Global Change Biology and Conservation (15)

**Semester total: 60 credits**
**Semester 2**

*Core module:*

BS2066 Behavioural Neurobiology (15)

*For semester 2, make the credits add up to 60 by choosing from the modules listed below:*

BS2004 Contemporary Techniques in Biological Data Analysis (15)
BS2026 Genes, Development & Inheritance (15)
BS2032 Immunology and Eukaryotic Microbiology (15)
BS2033 Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
BS2078 A Field Guide to Evolution (15)
BS2091 Biochemistry of Nucleic Acids (15)
BS2093 Protein Control in Cellular Regulation (15)

**Semester total: 60 credits**

**MBiolSci Biological Sciences (Neuroscience) with a Year in Industry (option)**

*Core module:*

BS3400 Year in Industry Research Placement (0) (Year-long)

**Year 3**

**Semester 1**

*Core modules*

Research Project: 30/45 credits.

Choose ONE from the following five options:

i) BS3101 Experimental Research Project A (15) and BS3102 Experimental Research Project B (30) (Year-long module)
   OR
ii) BS3201 Analytical Research Project (30)
    OR
iii) BS3301 Education Research Project A (15) and BS3302 Education Research Project B (30) (Year-long module)
    OR
iv) BS3401 Steered Experimental Research Project (30)
v) BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)

Core module:
BS3055 Molecular & Cellular Neuroscience (15)

Choose TWO OR THREE modules from:

Semester 1
BS3064 Comparative Neurobiology (15)
BS3054 Molecular and Cellular Pharmacology (15)

Semester 2
BS3033 Physiology, Pharmacology and Behaviour (15)

Semester total: 60 credits

Semester 2
Core module:
BS3016 Neuroscience Futures (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹
BS3003 Cancer Cell & Molecular Biology (15)
BS3011 Microbial Pathogenesis and Genomics (15)
BS3013 Human and Environmental Microbiomics (15)
BS3073 Conservation and Ecological Genetics (15)
BS3080 Behavioural Ecology (15)

Semester total: 60 credits

¹ Module selection subject to timetable restrictions.

MBiolSci Biological Sciences (Neuroscience) with a Year in Industry (option)

Core module:
BS4400 Year in Industry Research Placement (0) (Year-long)

Year 4
Level 7 Programme structure (programme regulations) appear in Appendix 2
MBiolSci level 4, 5 and 6  BSc Exit award – Medical Biosciences (Biochemistry)

Year 1

Semester 1
- BS1030  The Molecules of Life – An Introduction to Biochemistry and Molecular Biology (30)
- BS1040  The Cell - An Introduction to Microbiology & Cell Biology (30)

Semester 2
- BS1050  From Individuals to Populations - An Introduction to Genetics (15)
- BS1060  Multicellular Organisation - An Introduction to Physiology, Pharmacology and Neuroscience (30)
- MB1080  An Introduction to Medical Bioscience (15)

Year 2

Semester 1
Core modules
- BS2000  Research Topic (15)
- MB2050  Medical Biochemistry (15)

Choose TWO OR THREE modules from:

Semester 1
- BS2092  Molecular and Cell Biology

Semester 2
- BS2093  Protein Control in Cellular Regulation (15)
- BS2040  Bioinformatics (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹
- BS2009  Genomes (15)
- BS2013  Physiology and Pharmacology (15)
- BS2015  Physiology of Excitable Cells (15)
- BS2030  Principles of Microbiology (15)
- MB2020  Medical Microbiology (15)

Semester total: 60 credits
**Semester 2**

*Core module*

- BS2091 Biochemistry of Nucleic Acids (15)

*For semester 2, make the credits add up to 60 by choosing from the modules listed below:*

- BS2004 Contemporary Techniques in Biological Data Analysis (15)
- BS2014 Exercise Physiology and Pharmacology (15)
- BS2026 Genes, Development & Inheritance (15)
- BS2032 Immunology and Eukaryotic Microbiology (15)
- BS2033 Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
- BS2066 Behavioural Neurobiology (15)

**MBiolSci  Medical Biosciences (Biochemistry) with a Year in Industry (option)**

*Core module:*

- BS3400 Year in Industry Research Placement (0) (Year-long)

**Year 3**

*Semester 1*

Research Project: 30/45 credits.

Choose ONE from the following five options:

- **i)** BS3101 Experimental Research Project A (15) and BS3102 Experimental Research Project B (30) (Year-long module)
- **OR**
- **ii)** BS3201 Analytical Research Project (30)
- **OR**
- **iii)** BS3301 Education Research Project A (15) and BS3302 Education Research Project B (30) (Year-long module)
- **OR**
- **iv)** BS3401 Steered Experimental Research Project (30)
- **OR**
v) BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)

Plus core module:
BS3010 Gene Expression: Molecular Basis & Medical Relevance (15)

Choose ONE OR TWO modules from:

Semester 1
BS3070 Structural Biology (15)

Semester 2
BS3003 Cancer Cell & Molecular Biology (15)

Semester 1
For semester 1, make the credits add up to 60 by choosing from the modules listed below: 1
BS3000 Evolutionary Genetics (15)
BS3015 Molecular and Cellular Immunology (15)
BS3031 Human Genetics (15)
BS3054 Molecular & Cellular Pharmacology (15)
BS3055 Molecular and Cellular Neuroscience
BS3064 Comparative Neurobiology (15)
BS3068 Microbial Biotechnology (15)

Semester total: 60 credits

Semester 2
Core module
MB3001 Biochemical Mechanisms of Human Disease (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below: 1
BS3011 Microbial Pathogenesis and Genomics (15)
BS3013 Human and Environmental Microbiomics (15)
BS3016 Neuroscience Futures (15)
BS3033 Physiology, Pharmacology and Behaviour (15)
BS3056 Cellular Physiology of the Cardiovascular System (15)

Semester total: 60 credits

1 Module selection subject to timetable restrictions.

- BS2030  Principles of Microbiology (15)

*For semester 1, make the credits add up to 60 by choosing from the modules listed below:*
- BS2009  Genomes (15)
- BS2013  Physiology and Pharmacology (15)
- BS2015  Physiology of Excitable Cells (15)
- BS2092  Molecular and Cell Biology (15)
- BS2059  Global Change Biology and Conservation (15)

**Semester total: 60 credits**

*Semester 2*

*Core module:*
- BS2032  Immunology and Eukaryotic Microbiology (15)

OR
- BS2033  Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
For semester 2, make the credits add up to 60 by choosing from the modules listed below:

1 BS2004 Contemporary Techniques in Biological Data Analysis (15)
1 BS2014 Exercise Physiology and Pharmacology (15)
1 BS2026 Genes, Development & Inheritance (15)
1 BS2040 Bioinformatics (15)
1 BS2066 Behavioural Neurobiology (15)
1 BS2077 Neurobiology & Animal Behaviour (15)
1 BS2091 Biochemistry of Nucleic Acids (15)
1 BS2093 Protein Control in Cellular Regulation (15)

Semester total: 60 credits

MBiolSci Medical Sciences (Microbiology) with a Year in Industry (option)

Core module:
1 BS3400 Year in Industry Research Placement (0) (Year-long)

Year 3

Semester 1

Research Project: 30/45 credits.

Choose ONE from the following five options:

i) BS3101 Experimental Research Project A (15) and BS3102 Experimental Research Project B (30) (Year-long module)

OR

ii) BS3201 Analytical Research Project (30)

OR

iii) BS3301 Education Research Project A (15) and BS3302 Education Research Project B (30) (Year-long module)

OR

iv) BS3401 Steered Experimental Research Project (30) (TO START IN 2020/21)

OR

v) BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)
Choose THREE OR FOUR modules from:

**Semester 1**
- BS3015 Molecular and Cellular Immunology (15)
- BS3068 Microbial Biotechnology (15)

**Semester 2**
- BS3013 Human and Environmental Microbiomics (15)
- BS3011 Microbial Pathogenesis and Genomics (15)

**Semester 1**
For semester 1, make the credits add up to 60 by choosing from the modules listed below: ¹
- BS3000 Evolutionary Genetics (15)
- BS3010 Gene Expression: Molecular Basis & Medical Relevance (15)
- BS3031 Human Genetics (15)
- BS3054 Molecular & Cellular Pharmacology (15)
- BS3055 Molecular & Cellular Neuroscience (15)
- BS3064 Comparative Neurobiology (15)
- BS3070 Structural Biology (15)

**Semester total: 60 credits**

**Semester 2**
Core module:
- MB3020 Advanced Topics in Medical Microbiology (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below: ¹
- BS3003 Cancer Cell & Molecular Biology (15)
- BS3016 Neuroscience Futures (15)
- BS3033 Physiology, Pharmacology and Behaviour (15)
- BS3056 Cellular Physiology of the Cardiovascular System (15)

**Semester total: 60 credits**

¹ Module selection subject to timetable restrictions.
MBiolSci Medical Sciences (Microbiology) with a Year in Industry (option)

Core module:
BS4400 Year in Industry Research Placement (0) (Year-long)

Year 4
Level 7 Programme structure (programme regulations) appear in Appendix 2
MBiolSci level 4, 5 and 7  BSc Exit award – Medical Biosciences (Physiology)

Year 1

Semester 1
BS1030  The Molecules of Life – An Introduction to Biochemistry and Molecular Biology (30)
BS1040  The Cell - An Introduction to Microbiology & Cell Biology (30)

Semester 2
BS1050  From Individuals to Populations - An Introduction to Genetics (15)
BS1060  Multicellular Organisation - An Introduction to Physiology, Pharmacology and Neuroscience (30)
MB1080  An Introduction to Medical Bioscience (15)

Year 2

Semester 1
Core modules:
BS2000  Research Topic (15)

Choose TWO OR THREE modules from:

Semester 1
BS2013  Physiology and Pharmacology (15)
BS2015  Physiology of Excitable Cells (15)

Semester 2
BS2014  Exercise Physiology and Pharmacology (15)

Semester 1
For semester 1, make the credits add up to 60 by choosing from the modules listed below: ¹
BS2009  Genomes (15)
BS2030  Principles of Microbiology (15)
BS2092  Molecular and Cell Biology (15)
BS2059  Global Change Biology and Conservation (15)
MB2020  Medical Microbiology (15)

Semester total: 60 credits

¹ Refer to the academic regulations for further details on credit allocation.
Semester 2

Core module:
MB2080 Pathophysiology of Disease (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below:

BS2004 Contemporary Techniques in Biological Data Analysis (15)
BS2026 Genes, Development & Inheritance (15)
BS2032 Immunology and Eukaryotic Microbiology (15)
BS2033 Immunology and Eukaryotic Microbiology (with Science Enterprise Trip) (15)
BS2040 Bioinformatics (15)
BS2077 Neurobiology & Animal Behaviour (15)
BS2091 Biochemistry of Nucleic Acids (15)
BS2093 Protein Control in Cellular Regulation (15)
BS2066 Behavioural Neurobiology

Semester total: 60 credits

MBiolSci  Medical Biosciences (Physiology) with a Year in Industry (option)

Core module:
BS3400 Year in Industry Research Placement (0) (Year-long)

Year 3

Semester 1
Research Project: 30/45 credits.

Choose ONE from the following five options:

i) BS3101 Experimental Research Project A (15) and
   BS3102 Experimental Research Project B (30) (Year-long module)
   OR

ii) BS3201 Analytical Research Project (30)
   OR

iii) BS3301 Education Research Project A (15) and
    BS3302 Education Research Project B (30) (Year-long module)
    OR

iv) BS3401 Steered Experimental Research Project (30)
OR

v) BS3501 Field Research Project A (Operation Wallacea) (15) and BS3102 Experimental Research Project B (30) (Year-long module)

Choose THREE OR FOUR modules from:

**Semester 1**
- BS3054 Molecular and Cellular Pharmacology (15)
- BS3055 Molecular and Cellular Neuroscience (15)

**Semester 2**
- BS3056 Cellular Physiology of the Cardiovascular System (15)
- BS3033 Physiology, Pharmacology and Behaviour (15)

**Semester 1**
For semester 1, make the credits add up to 60 by choosing from the modules listed below:
- BS3064 Comparative Neurobiology (15)
- BS3000 Evolutionary Genetics (15)
- BS3010 Gene Expression: Molecular Basis & Medical Relevance (15)
- BS3015 Molecular & Cellular Immunology (15)
- BS3031 Human Genetics (15)
- BS3068 Microbial Biotechnology (15)
- BS3070 Structural Biology (15)

**Semester total: 60 credits**

**Semester 2**
Core module:
- MB3057 Understanding Disease – an Integrated Approach (15)

For semester 2, make the credits add up to 60 by choosing from the modules listed below:
- BS3003 Cancer Cell & Molecular Biology (15)
- BS3011 Microbial Pathogenesis and Genomics (15)
- BS3013 Human and Environmental Microbiomics (15)
- BS3016 Neuroscience Futures (15)
- BS3073 Conservation and Ecological Genetics (15)
- BS3080 Behavioural Ecology (15)

**Semester total: 60 credits**

1 Module selection subject to timetable restrictions.
MBiolSci Medical Biosciences (Physiology) with a Year in Industry (option)

Core module:
BS4400 Year in Industry Research Placement (0) (Year-long)

Year 4
Level 7 Programme structure (programme regulations) appear in Appendix 1b
Appendix 1b Routes through the MBiolSci fourth year at Level 7
Fourth year programmes can only be taken in single 120 credit blocks as follows
There are six year 4 options available. Students will make decisions based on their interests and background in consultation with their Personal Tutor and the Programme Directors

Year 4 Option 1
Semester 1 core modules
BS4008     Core Laboratory Techniques (30)
BS4003     Research Methods in Cancer Biology (15)
BS4004     Advanced Topics in Cancer Biology (15)

Semester 2 core modules
BS4009     MBiolSci research project (60)

Year 4 Option 2
Semester 1 core modules
BS4008     Core Laboratory Techniques (30)
BS4212     Experimental Design and Applications of Molecular Genetic Techniques in Research (30)

Semester 2 core modules
BS4009     MBiolSci Research Project (60)

Year 4 Option 3
Semester 1 core modules
BS4008     Core Laboratory Techniques (30)
BS4402     Molecular Methods in Experimental Design (15)

Semester 2 core modules
BS4403     Cancer Therapeutics (15)
BS4009     MBiolSci Research Project (60)

N.B. To balance credits, the project submission deadline for Option 3 is a month later than the deadline for project modules in other MBiolSci options.
Year 4 Option 4

Semester 1 core modules
BS4008 Core Laboratory Techniques (30)
BS4309 Immunity, Infection & Chronic Disease (30)

Semester 2 core modules
BS4009 MBiolSci Research Project (60)

Year 4 Option 5

Semester 1 core modules
BS4601 Advanced research methods; Evaluating, Planning and Analysing Research (30)
BS4602 Professional Research Skills: Finding Your Path in the World of Research (30)

Semester 2 core modules
BS4009 MBiolSci Research Project (60)

Year 4 Option 6

Semester 1 core modules
BS4101 Gene and Genome Analysis (15)
BS4102 Proteins (15)
BS4105 Bioinformatics Programming and Advanced Topics in Bioinformatics (30)

Semester 2 core modules
BS4130 MBiolSci Research Project (Bioinformatics) (60)

Appendix 2: Module specifications
See module specification database (Note - modules are organized by year of delivery) [login-required]
