

1. Programme title(s) and code(s):

MSci Nursing with Leadership Single Field (Mental Health Nursing)

* Certificate of Higher Education in Healthcare

* Diploma of Higher Education in Healthcare

* BSc (Hons) in Healthcare

Notes

* An award marked with an asterisk is only available as an exit award and is not available for students to register onto.

a) [HECOS Code](#)

HECOS Code	%
100287 Mental Health Nursing	100

b) UCAS Code (where required)

B760

2. Awarding body or institution:

University of Leicester

3. a) Mode of study

Full-time

b) Type of study

Campus-based

4. Registration periods:

MSci Nursing with Leadership Single Field (Mental Health Nursing)

The normal period of registration is 4 years

The maximum period of registration 6 years

5. Typical entry requirements

- A2 Level Grades : BBB, including a science
- BTEC Extended Diploma : Health and Social Care DDD
- BTEC Diploma : Health and Social Care DD plus A2 Level Grade B
- International Baccalaureate : 28 points including
 - Minimum Grade 6 in a Higher Level Science
 - Minimum Grade 4 in English
 - Minimum Grade 3 in Higher Level Maths or Grade 4 in Standard Level Maths or Grade 5 in Standard Level Maths Studies

- Access to Higher Education Diploma : Science based Access to Higher Education Diploma with 60 credits overall at Level 3 including
 - 15 credits in topics relating to Human Biology or Anatomy and Physiology
 - 45 credits passed at Distinction
 - 15 credits passed at Merit
- English Language : IELTS 7.0 with a minimum score of 7.0 in Listening, Reading and Speaking and a minimum score of 6.5 in Writing.
- Normal GCSE Requirements : Mathematics : A*-C or 9-4, English Language : A*-C or 9-4, Science subject : A*-C or 9-4

a) Additional Requirements

All students must be 18 years of age at the commencement of the programme.

Evidence of recent study (within the last five years).

Successful competency and values based multiple mini interview. (Including literacy / numeracy / digital and technological literacy capability)

Demonstrate potential to lead and a commitment to provide safe and compassionate nursing care.

Satisfactory Occupational Health Clearance to meet the professional activities of the nurse.

Disclosure and Barring Service (DBS) screening: caring for vulnerable adults and children.

6. Accreditation of Prior Learning

The programme adheres to the University and Nursing and Midwifery Council (NMC) Standards for Accreditation of Prior Learning.

The NMC Standards for Pre-registration nursing programmes (2018) state that pre-registration nursing programmes must :

1.5 Permit recognition of prior learning that is capable of being mapped to the Standards of proficiency for registered nurses and programme outcomes, up to a maximum of fifty percent of the programme and comply with Article 31(3) of Directive 2005/36/EC (included in Annexe 1 of this document).

1.6 For NMC registered nurses permit recognition of prior learning that is capable of being mapped to the Standards of proficiency for registered nurses and programme outcomes that may be more than 50 percent of the programme.

This level of APL is beyond what is acceptable in the University regulations and a dispensation from the regulations has been agreed which states:

The Quality and Standards Sub-Committee has approved a derogation from the University policy and process for the Accreditation of Prior Learning in accordance with the Standards for Pre-registration Nursing Education (1.6). Applicants to the MSci Nursing with Leadership programme who are annotated as a registered nurse on the Nursing and Midwifery Council register can apply for Accreditation of Prior Learning for up to a total of 75% of the whole programme. Accreditation of Prior Learning will be considered on the basis of completion of all intended learning outcomes for any year of study in the programme and not on a module by module or individual credit award basis. The maximum amount of Accreditation of Prior Learning will recognise exceptional cases only and will normally not exceed 50%. The application must follow the procedure set out in the University Policy and Procedures for the Accreditation of Prior Learning.

The University Policy and Process for the Accreditation of Prior Learning will be followed for all APL applications and is available here: <https://www2.le.ac.uk/offices/sas2/quality/apl>

7. Programme aims

The programme aims to

- Provide you with the comprehensive detailed knowledge and skills necessary to equip you for a career in nursing, progress to leadership roles within practice, education and research.
- Enhance your existing knowledge and develop your understanding, skills and attitudes to enable you to become an independent lifelong learner and a safe, competent, reflective, ethical and autonomous, accountable professional nurse.
- Provide opportunities for you to develop your knowledge and personal qualities to become a leader in health and social care by effective role modelling of leaders in the profession.
- Develop your ability to analyse and develop your own beliefs and values in order to demonstrate the attitudes consistent with the provision of holistic evidence-based nursing practice.
- Develop your critical and analytical competence to enable you to appraise practice from a local, national and international perspective, generating research / project proposals and evaluating the efficacy of your practice to improve care and outcomes for people in your care, particularly those at risk of health inequalities.
- Develop your ability to work within a diverse and challenging health and social care environment, responsive to demographic, lifestyle and complex scientific challenges, acknowledging the population within Leicester, Leicestershire and Rutland.
- Provide you with opportunities to learn with, and from, other healthcare professionals in order to develop proficiency in inter-professional and trans-disciplinary practice to meet the holistic needs and complexities that those in your care may present with.
- Develop your awareness and understanding of patient journeys through health and social care services and environments.
- Extend key, transferable skills in employment, enabling you as a graduate nurse to become a colleague, leader and innovator of quality nursing care.

9. Programme Outcomes

Unless otherwise stated, programme outcomes apply to all awards specified in 1. Programme title(s).

b) Discipline specific knowledge and competencies

i) Mastery of an appropriate body of knowledge

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate an understanding of research methods, ethics and governance in order to critically analyse, safely use, share and apply research findings to promote and inform best nursing practice.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD.	Written assignments, examinations, OSCE, Presentations, ePAD.
Demonstrate knowledge of epidemiology, demography, genomics and the wider determinants of health, illness and wellbeing and apply this to an understanding of global patterns of health and wellbeing outcomes	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD.	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate and apply knowledge of human development from conception to death, knowledge of body systems and homeostasis, human anatomy and physiology, biology, genomics, pharmacology and social and behavioural sciences.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD.	Written assignments, examinations, OSCE, Presentations, ePAD.
Demonstrate and apply knowledge of all commonly encountered mental, physical, behavioural and cognitive health conditions, medication usage and treatments.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

ii) Understanding and application of key concepts and techniques

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Understand and apply the aims and principles of health promotion, protection and improvement and the prevention of ill health and understand the factors that may lead to inequalities in health outcomes.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Understand the importance of early years and childhood experiences upon wellbeing and understand and explain the contribution of social influences, health literacy, individual circumstances, behaviours and lifestyle choices.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate the knowledge and skills required to support people with commonly encountered mental health, behavioural, cognitive and learning challenges.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate the knowledge and skills required to support people with commonly encountered physical health conditions, their medication usage and treatments.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

iii) Critical analysis of key issues

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate the knowledge, skills and ability to think critically when applying evidence and drawing on experience to make evidence informed decisions in all situations.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Understand and act in accordance with the Code: Professional standards of practice and behaviour for nurses, midwives and nursing associates, and fulfil all registration requirements	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Understand and apply relevant legal, regulatory and governance requirements, policies, and ethical frameworks, including any mandatory reporting duties, to all areas of practice	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

iv) Clear and concise presentation of material

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate the numeracy, literacy, digital and technological skills required to meet the needs of people in your care to ensure safe and effective nursing practice.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

v) Critical appraisal of evidence with appropriate insight

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Promote and improve mental, physical, behavioural and other health related outcomes by understanding and explaining the principles, practice and evidence-base for patients.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

vi) Other discipline specific competencies

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Understand the demands of professional practice and demonstrate how to recognise signs of vulnerability in yourself or your colleagues and the action required to minimise risks to health.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Understand and apply a professional responsibility to adopt a healthy lifestyle to maintain the level of personal fitness and wellbeing required to meet people's needs for mental and physical care.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Act as an ambassador, upholding the reputation of your profession and promoting public confidence in nursing, health and care services.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate the ability to work in partnership with people, families and carers to continuously monitor, evaluate and reassess the effectiveness of all agreed nursing care plans and care, sharing decision making and readjusting agreed goals, documenting progress and decisions made.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

c) Transferable skills

i) Oral communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Communicate effectively using a range of skills and strategies with colleagues and people at all stages of life and with a range of mental, physical, cognitive and behavioural health challenges.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate the skills and abilities required to develop, manage and maintain appropriate relationships with people, their families, carers and colleagues.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Use appropriate communication skills and strength based approaches to support and enable people to make informed choices about their care to manage health challenges in order to have satisfying and fulfilling lives within the limitations caused by reduced capability, ill health and disability.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

ii) Written communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Communicate effectively using a range of skills and strategies with colleagues and people at all stages of life and with a range of mental, physical, cognitive and behavioural health challenges.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate the ability to keep complete, clear, accurate and timely records.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

iii) Information technology

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Communicate effectively using a range of skills and strategies with colleagues and people at all stages of life and with a range of mental, physical, cognitive and behavioural health challenges.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate the numeracy, literacy, digital and technological skills required to meet the needs of people in your care to ensure safe and effective nursing practice. (P1)	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

iv) Numeracy

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate the numeracy, literacy, digital and technological skills required to meet the needs of people in your care to ensure safe and effective nursing practice.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

v) Team working

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Understand the principles of effective team working and leadership, management, group and organisational dynamics and culture and apply these to team working and decision-making.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Understand and apply the principles of human factors, environmental factors and strength-based approaches when working in teams.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Safely and effectively lead and manage the nursing care of a group of people, demonstrating appropriate prioritisation, delegation and assignment of care responsibilities to others involved in providing care.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

vi) Problem solving

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Understand and apply the principles of courage, transparency and the professional duty of candour, recognising and reporting any situations, behaviours or errors that could result in poor care outcomes. (P1)	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate an understanding of the principles of improvement methodologies, participate in all stages of audit activity and identify appropriate quality improvement strategies.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

vii) Information handling

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Provide information in accessible ways to help people understand and make decisions about their health, life choices, illness and care.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

viii) Skills for lifelong learning

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate resilience and emotional intelligence and be capable of explaining the rationale that influences their judgments and decisions in routine, complex and challenging situations.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Take responsibility for continuous self-reflection, seeking and responding to support and feedback to develop your professional knowledge and skills.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD
Demonstrate an understanding of the importance of exercising political awareness throughout their career, to maximise the influence and effect of registered nursing on quality of care, patient safety and cost effectiveness.	Lectures, tutorials, seminars, online learning, patient scenarios / simulation, ePAD	Written assignments, examinations, OSCE, Presentations, ePAD

10. Progression points

This programme follows the standard Scheme of Progression set out in [Senate Regulations](#) – see the version of Senate Regulation 5 governing undergraduate programmes relevant to the year of entry.

The following additional progression requirements for this programme have been approved:

- All modules are classified as core, and there is no compensation allowed between modules.
- Progression to Year 2 – Students must achieve 120 credits at Level 4 with 40% pass grade
- Progression to Year 3 – Students must achieve 120 credits at Level 5 with 40% pass grade
- Progression to Year 4 – Students must achieve 120 credits at Level 6 with 40% pass grade
- A dispensation to Senate Regulation 5.23b: a student who has passed at least 90 credits in years 1 to 3 will be permitted to proceed to the next level of their programme, repeating the assessments for the failed module alongside the standard 120 credits for the next level. In order to be permitted to proceed and re-sit/re-submit, students should have failed no more than 30 credits and have a credit weighted average for the level of at least 40.00% in years 1-3.
- The Practice Assessment Document (ePAD) must be completed for each part of the programme and awarded as Pass mark, which will include achievement of the relevant NMC [Standards of Proficiency](#).
- At each progression point you will be expected to have formatively achieved the clinical practice hours for that period and opportunities for making up any missed hours will be

negotiated with the Course Leader. At the end of the programme you must have achieved all of the required theory and clinical practice hours.

- Progression and Award Boards are typically held in August and September each year.
- The Medicines Management Assessment (SafeMedicate) must be passed as per the mark listed in the below table:

Year	Content	Pass Mark
1	Tablets and liquids	80%
2	Tablets, liquids and injections	90%
3	Tablets, liquids, injections and infusions	90%
4	Consolidation and achievement of NHS partner organisations numeracy test	100%

In cases where a student has failed to meet a requirement to progress they will be required to withdraw from the course

a) Course transfers

If you decide wish to transfer to either the MSci Nursing with Leadership Single Field (Adult Nursing), or the MSci Nursing with Leadership Dual Field, you may do so no later than the end of Year 1. This would be subject to approval by the course lead and dependent upon placement capacity.

11. Criteria for award and classification

This programme follows the standard scheme of undergraduate award and classification set out in [Senate Regulations](#) – see the version of *Senate Regulation 5 governing undergraduate programmes* relevant to the year of entry.

The following additional award requirements for this programme have been approved:

- To require all students to pass, at a minimum of 40% (levels 4-6) and 50% (level 7), all components and all modules in order to qualify for the final award. Therefore, when calculating student’s final award and classification, the failed credit allowance set out in SR5.43 shall not apply. For the purposes of clarity, no student may be awarded a degree with any failed modules, or assessment components.
- The standard schemes of award and classification for the exit awards available on this programme also follow those set out for the appropriate awards in Senate Regulation 5 but, as above, SR5.43 does not apply and so that there is no allowance for failed credit within the modules that make up any award within this programme. For clarity, exit awards of Certificate of Higher Education, Diploma of Higher Education and Bachelor of Science (Hons) in Healthcare may be awarded on successful completion of years 1, 2 and 3, respectively, with no failed credits. Note: these exit awards will not offer registration as a nurse/midwife with the NMC.
- The Practice Assessment Document (ePAD) must be completed for each part of the programme and awarded as Pass mark, which will include achievement of the relevant NMC Standards of Proficiency.
- Students are required to undertake a minimum of 3067 hours of clinical practice education during the programme, as required by the NMC (2.9).
- There is no intermediate exit point that equates to professional practice with NMC registration. You may be eligible for an exit award depending on the number of credits you have completed as follows:

Qualification	Minimum overall credits
Certificate of Higher Education in Healthcare*	120 level 4 credits
Diploma of Higher Education in Healthcare*	120 level 5 credits
Bachelor of Science in Healthcare * (with honours)	120 level 6 credits

- When you successfully complete all the requirements to be awarded the MSci Nursing with Leadership Single Field (Mental Health Nursing) you will be recommended to the NMC to be placed on the appropriate parts of the nursing register. You will be informed that you have five-years in which you can apply to the NMC for a mark on the Nursing and Midwifery Council Register (5.2) and that if you fail to register your qualification within five years you will have to undertake additional education and training or gain such experience as specified in our standards.
- You will be informed of the requirement to meet the NMC standards for good health and good conduct at the commencement of each year of the programme and upon completion of the programme (1.2) as detailed in the University of Leicester process for the declaration of good health and good character.
- Progression and Award Boards are typically held in August and September each year.

12. Special features

The programme is being led at professorial level by an internationally renowned nursing educationalist with a credible portfolio of scholarly publishing and conference presentation who is registered with the NMC as a nurse educator.

- You have the opportunity to learn in a leading research-intensive University with an outstanding international reputation.
- The development of a new School of Allied Health Professions within the highly respected College of Life Sciences provides you with opportunities to develop a good understanding and working relationship with other health professionals from the outset in preparation for employment as graduates.
- The focus on leadership throughout the programme is distinctive and is currently unique to pre-registration nursing curricula. The acquisition of an undergraduate Masters (MSci) degree is distinctive in Leicestershire, which, combined with the focus on leadership will enhance your employability potential, upon successful completion.
- You will be mentored by experienced NHS clinicians and nursing experts / leaders within the profession as part of a learning set during the programme.
- There will be a short elective placement / internship that embraces all aspects of nursing leadership roles; e.g. in clinical practice, education and research departments where you will work alongside effective role models and are nurtured in developing your leadership potential.
- Inter-professional education that occurs in the College of Life Sciences is a feature of this programme, providing you with opportunity to learn and work alongside medical students and other allied health professionals and gain an appreciation of each other's roles that will prepare you for the realities of multidisciplinary team working as graduates. This will occur in small group teaching and simulated clinical practice sessions and in year 1 is embedded in module NU1020.
- Successful completion of the programme at masters' level and with a focus on leadership will be enhanced graduate employability prospects as the shortage of nurses is well documented.
- When you complete the programme you will be offered jobs in the local NHS as per the NHS Plan (2019) and as leadership graduates you will have the opportunity to be fast-tracked through your nursing careers, facilitated by a purposefully constructed leadership framework.

- Progression and Award Boards are typically held in August and September each year.

13. Indications of programme quality

The programme will in the first instance, be jointly approved by the Nursing and Midwifery Council (NMC) and the University of Leicester, followed by annual monitoring by the NMC and the standard process of External Examiner scrutiny as specified in the University's Senate Regulations. The programme will also be subject to University of Leicester Annual Development Review and Periodic Development Review (six yearly) to monitor the quality of teaching, learning and assessment. A good account of the programme in the National Student Survey will be an indication of its quality as will be the first destination data (employability rates) captured for graduates from this programme.

14. External Examiner(s) reports

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports for this programme can be found at exampapers@Leicester [log-in required]

Programme Specification (Undergraduate)

FOR ENTRY YEAR: 2023/24

Date created: n/a Last amended: 14/07/2023 Version no. 3

Appendix 1: Programme structure (programme regulations)

The University regularly reviews its programmes and modules to ensure that they reflect the current status of the discipline and offer the best learning experience to students. On occasion, it may be necessary to alter particular aspects of a course or module.

MSci Nursing with Leadership Single Field (Mental Health Nursing)

Updates to the programme

Academic year affected	Module	Change
2024/25	NU2018 Management of complex and long term conditions in mental health	Deleted core module
