Extract taken from 6m05s – 7m16s

I started (...) like I say I went to (...) my old (...) pro who taught me at Stoke Rochford and I did three and a half years training with him there during the training you have a week's residential course at the Belfry which is over in Sutton Coldfield which any golfer will have heard of from the Ryder Cup and that's the that's the national headquarters for the PGA so you have a week's residential course and you have exams at the end of each year (...) and during the training I realised there's this (...) scheme if you like or/ in place and it was for the trainee of the year so they reward the best pupil over the course of the the studies so that I thought oh actually I quite fancy working hard and see if we can do something they always said at school that if I applied myself I could be quite good [laughs] so I tried and I actually ended up finishing top dog and won the trainee of the year in two thousand so I think there was about three hundred and fifty people took the exams and I finished with the best results so that was nice nice little/ so I ha/ I do have a trophy at the Belfry with my name on but it's for academic rather than playing
