

Adding the PARCA-R questionnaire as a survey in a REDCap project: User guide

1. In your REDCap project, Select “Designer” from the left hand menu

2. From the options in the centre of the screen, click on “Upload”. This will open a pop-up window:

3. Select “Choose File”. This will open an Explorer window allowing you to select the PARCAR_Redcap.zip file (it is important to select the .zip file, and not either of the .csv files inside it).

This should return you to something looking like this:

Upload instrument ZIP
✕

Select a REDCap instrument ZIP file on your computer that you downloaded from an [external instrument library](#) or from another project/user, and then click the Upload button below. Once it has been successfully uploaded, it will be added as the last data collection instrument in the project.

Choose File PARCAR_Redcap.zip

DISCLAIMER: By uploading your instrument ZIP file here, you hereby represent and warrant that to the best of your knowledge, you are not uploading any copyrighted material of a third party to which you do not have an expressed written license or consent from the owner of the said copyright.

Upload instrument ZIP
Close

4. You will (hopefully), get a success message and will then be able to see the PARCA-R questionnaire added to the end of your list of REDCap forms:

CDASH V 1.1 - Adverse Events	23	Off	Enable	Choose action ▾
CDASH V 1.1 - Protocol Deviations	7	Off	Enable	Choose action ▾
Parcar	157	Off	✔ ↓	Choose action ▾

Permissions for use: The PARCA-R is freely available for use non-commercially for clinical and research purposes. The PARCA-R questionnaire and associated resources must not be adapted in any way and must not be used for profit. If you have any queries about the use of the PARCA-R, please email the team at parca-r@leicester.ac.uk
