

Sustainability in your course

What is sustainability?

Sustainability focuses on meeting the needs of the present without compromising the ability of future generations to meet their needs. The concept of sustainability is composed of three pillars: economic, environmental, and social. The University of Leicester incorporates sustainability into our courses through both core and optional modules.

Above: Highlighted [Sustainable Development Goals](#) (SDGs) available in your

course

SDGs		3, 8	3	3	13, 14, 15	3	3	3
Core	Optional	BS1040	MB2020	MB2050	BS2059	BS3068	BS3059	MB2051
Medical Biosciences (Undergrad and Integrated)		The Cell - An Introduction to Cell Biology and Microbiology	Medical Microbiology	Applications of Medical Biochemistry	Global Change Biology and Conservation	Microbial Biotechnology	Current and Future Therapeutics	Current Issues in Medical Genetics
Medical Biochemistry BSc					N/A			N/A
Medical Genetics BSc			N/A		N/A			
Medical Microbiology BSc			N/A					N/A
Medical Physiology BSc			N/A					N/A
Medical Biochemistry MBiolSci					N/A			N/A
Medical Genetics MBiolSci			N/A		N/A			
Medical Microbiology MBiolSci			N/A					N/A
Medical Physiology MBiolSci			N/A					N/A
