1. Introduction

1.1 The University of Leicester has a legal and moral duty to safeguard the wellbeing and safety of children and adults at risk involved in any University activities, whether they are conducted in person or online. The University encounters children and adults at risk in a variety of settings, including through its teaching and research activities, as well as through its outreach programmes.

1.2 The University of Leicester is committed to adopting the highest possible standards and taking all reasonable steps to ensure the safety of children and adults at risk, in order to ensure that they are safeguarded whilst enjoying opportunities to realise their full potential.

1.3 All universities have a duty to take reasonable and necessary steps to ensure that children and adults at risk are safe and that reasonably foreseeable harm does not occur as a result of careless acts, deliberate acts or omissions. These measures are in addition to those required under general health and safety requirements and legislation.

1.4 The University is compliant with the Prevent Duty under the Counter-Terrorism and Security Act 2015 which is a statutory duty requiring relevant Higher Education institutions to have due regard to the need to prevent people from being drawn into terrorism.

1.5 The Prevent Duty seeks to protect students from becoming radicalised as it recognises vulnerable people being drawn into terrorism as a form of abuse, therefore the University uses the safeguarding approach to this duty.

1.6 The policy should be read in conjunction with other University of Leicester policies, procedures, and guidelines, as necessary. A list of these policies can be found under Appendix C.

2. Legal Framework

- Working Together to Safeguard Children 2018

2.2 With regard to safeguarding children, this policy is compliant with the recommendations outlined in the Children Act 2004.

2.3 With regard to adults at risk, this policy follows the definition and recommendations outlined in the Care Act 2014.

2.4 The Safeguarding Vulnerable Groups Act 2006 is central to this policy as all decisions made to bar individuals from working with children or adults are made by the Disclosure and Barring Service (DBS) via this legislation.

2.5 For best practice purposes, due regard has been given to the Department for Education's "Keeping Children Safe in Education 2022" guidance.

2.6 With regard to safeguarding students from radicalisation, this policy follows the recommendations by the Counter-Terrorism and Security Act 2015 and the guidance under the Prevent Duty.

3. Definitions

3.1 In this policy, a child is defined as any person under the age of 18 years.

3.2 Under statutory guidance (Care Act, 2014), an Adult at Risk is defined as someone aged 18 years or over and:

- Has needs for care and support due to mental health and/or physical health (whether or not the local authority is meeting any of those needs)
- Is experiencing, or at risk of, abuse or neglect
- Who is or may be unable to take care of themselves, or unable to protect themselves against harm or exploitation

4. Policy Aims

4.1 This policy aims to ensure reasonable and effective steps are taken by the University to safeguard children and adults at risk when they are in contact with University staff, workers, volunteers, apprentices or students.

4.2 This policy aims to follow the Prevent Duty to ensure reasonable and effective steps are taken by the University to safeguard students from becoming radicalised.

4.3 The University will do so by taking the following actions:

- Taking reasonable steps to make the University a safe and welcoming environment for all that is free from harm and all forms of prejudice, harassment, discrimination, and bullying, please see Dignity and Respect Policy.
- Giving all staff information, training, and guidance about how to recognise potential harm when it has occurred, how to respond appropriately and how to report it
- Making sure anyone can raise safeguarding concerns about any child or adult at risk involved in the activities of the University
- Enabling anyone to raise a Prevent concern about any staff, students, volunteers, workers, apprentices
- Ensure everyone understands their roles and responsibilities in respect of safeguarding and Prevent Duty and having staff with designated safeguarding responsibilities who are trained in responding to Safeguarding and Prevent concerns and disclosures
- Put in place proportionate safeguards to prevent the employment of individuals in work with children and/or adults at risk where they have been barred by the DBS or are deemed by the University to pose an unacceptable risk to vulnerable groups
- Ensure that appropriate action is taken in the event of any allegations or suspicions regarding harm to children or adults at risk arising from contact with University staff,

students, apprentices or volunteers, whether the harm has taken place on University premises or not

- Having an appropriate referral system in place for dealing effectively with serious safeguarding and Prevent incidents, including reporting to the relevant statutory services, e.g. Local Authority Safeguarding Board, police, Prevent Channel
- Providing accessible support services for students and staff

5. Scope of Policy

5.1 This policy applies to all staff (employees), volunteers, workers, apprentices and students.

5.2 In terms of activities and recruitment this policy applies to:

- Recruitment to new or existing posts which involves working directly with children and/or adults at risk
- Teaching, supervision and support of students including use of libraries
- Summer schools, school visits, and other activities
- Outreach or widening participation activities taking place on or off campus

- Placements and other professional activities
- Field trips and other volunteering activities

5.3 The Policy is relevant to all staff and student regardless of where they are based.

5.4 Academic Schools or Departments that have professional body requirements in relation to safeguarding will need to have their own additional policy and protocols that are specific to their work/activities, for example the Medical School and School of Education. This will cover volunteers and any other associated roles.

5.5 It is expected that external organisations utilising the University's premises or facilities for external events will have their own safeguarding policies and procedures in place and will take full responsibility for the safeguarding of individuals involved in any related activities. In addition, whilst on University premises, external bodies are also expected to read and comply with the relevant parts of this policy.

5.6 The University will carry out checks to ensure external organisations utilising the University's premises or facilities for external events are compliant to this Policy and the Prevent Duty.

6. Responding to Safeguarding and Prevent concerns

6.1 All staff are expected to appropriately raise safeguarding and Prevent concerns please see Appendices B and E for detail.

6.2 It is not always easy to recognise a situation where abuse may occur or has taken place. University staff are not expected to be experts at such recognition, only to raise concerns and disclosures they receive.

6.3 It is important that the recipient of any complaint or disclosure that a child or adult at risk has been or is being abused listens carefully without making or implying any judgment as to the truth of the complaint.

6.4 There are a few ways in which abuse or exploitation may become apparent:

- Disclosure of the abuse – self disclosure or disclosure by a third party. This might be full disclosure or that which raises suspicions of abuse
- Signs of abuse, including physical injury for which there appears to be no satisfactory explanation
- Particular behaviour that leads to suspicion that someone is being or has been abused or exploited

6.5 Where any member of the University becomes aware of a possible safeguarding or Prevent concern or receives a disclosure or an allegation they should:

- Write a report of all the relevant details (see Appendix B)
- If urgent i.e. there is a risk to life then staff should call 999. After calling emergency services, they should flag it up to Security Services
- If non-urgent then the written report should be sent to Concerned@le.ac.uk for the attention of the Designated Safeguarding Lead who will coordinate safeguarding actions and flag up any Prevent cases to the Prevent Lead for them to action

This is the same process if it is a current or historical occurrence or concern.

6.6 Where a non-urgent safeguarding concern is regarding a child or adult at risk who is not a member of the university, the concern should be raised with the organisation they are part of, e.g. their school or care agency/hospital.

7. Roles and Responsibilities

7.1 The University is responsible for ensuring that the vital process of safeguarding children and adults at risk is clearly communicated through its policy, procedures, guidance and training. In order for the safeguarding process to function, necessary actions outlined in procedures and training such as reporting safeguarding concerns need to take place.

7.2 It is not a staff member's responsibility to decide whether a child or adult at risk has been abused or harmed or subjected to abuse or harm, only to raise concerns that they may have.

7.3 Students starting university when they are under the age of 18 years, must adhere to the Under 18s Admissions Policy. Please see Under 18s Admissions Policy for further detail.

7.4 As stated in the Under 18s Admissions Policy, the University of Leicester is an adult environment and therefore it is the responsibility of the student and their parent/guardian to ensure they are prepared for living independently and being treated as adults. However, the university recognises that students under the age of 18 may have different support and wellbeing needs and acknowledges its responsibility to provide that support through the collaborative work between student support services, accommodation, and academic departments.

8.2 To ensure the safety and welfare of all children and adults at risk, information is shared with organisations who will be involved in addressing the safeguarding concern (this may include other educational organisations, the local authority, NHS services, the police). Every effort will be made to gain the consent of the individual prior to sharing information but information may be shared without consent where there is a vital interest to do so. The child or adult at risk should be advised that the information will be shared with those who will address the concern. The University's record will include who has been given the information and why.

8.3 If a Prevent related concern is raised, following a discussion at the relevant support point (Cause for Concern for students and HR for staff) it may be necessary to make a referral under Prevent.
