10. Special features

The MA in Applied Linguistics and TESOL programme is designed around five core modules delivered in semesters 1 and 2 that equip students with substantial knowledge and skills in key areas of Applied Linguistics and TESOL theory and practice. Prior to the first written assessment, students complete a formative writing task. This allows for the practice of academic writing skills and opportunities to gain valuable feedback from a personal tutor. The programme also allows students to specialise through the selection of three optional modules (one in Semester 1 and two in Semester 2) and a dissertation on a topic area of choice. This level of choice means that students have opportunities to progress through the programme in a manner that reflects their own priorities and developing interests. Prior to work on the dissertation in Semester 2, a series of research methods seminars are organised which aim to develop core research knowledge and skills.

- The MA is campus-based. Occasionally it may draw on parallel courses on the similar distance learning degree.
- MA Applied Linguistics students pursuing their degree by DL can switch to the campus-based mode, or vice versa, only by agreement with the programme leaders. Each case will be treated on its own merits.
- The MA combines a theoretical grounding in Applied Linguistics with pedagogical application to English Language Teaching, rather than concentrating solely on one or the other.
- The wide range of option modules enables students with two years of teaching experience to specialise in a chosen area.
- A student who takes *Language Testing and Assessment* 1 and 2, and also does their dissertation on a language testing related topic may be awarded an MA in Applied Linguistics and TESOL with Language Testing.

11. Indicators of programme quality

The external examiners for both distance and campus versions of the current MA Applied Linguistics and TESOL programme have expressed their satisfaction and complimented the team on a number of points, including the quality of written feedback on students' assignments and the quality of dissertation projects undertaken by students

14. Rules relating to re-sits or re-submissions

As defined in [Senate Regulations](#) - refer to the version of *Senate Regulation 6 governing taught postgraduate programmes of study* relevant to year of entry.
