

Programme Specification (Postgraduate) Date amended: 11 July 2018, for 2020/21 entry

1. Programme Title(s):

MSc/Postgraduate Diploma*/Postgraduate Certificate* in Human Resource Management and Training

*Approved as exit awards only

2. Awarding body or institution:

University of Leicester

3. a) Mode of study

Part Time

b) Type of study

Distance Learning

4. Registration periods:

The normal period of registration is 24 months

The maximum period of registration is 48 months

5. Typical entry requirements:

Entrance is open to those who hold a first or second-class honours degree in a relevant field. For non-standard entry 3 years or more suitable professional experience is required plus a statement of 500-1000 words outlining reasons for application to study on the MSc HRMT.

When English is not the first language of the candidate, the successful applicant must have either IELTS 6.5 (7.0 in writing preferred), TOEFL (paper) 575 with TWE 4.0, 90 (IBT), or the University of Leicester English Language Test.

6. Accreditation of Prior Learning:

APL can be claimed for one 30 credit module

7. Programme aims:

The programme aims to meet the learning and professional development needs of human resource (HR) and training practitioners. Students will acquire the latest academic and professional knowledge in the areas of employee development, workplace learning and human resources. There is also an option at Module 3 to enhance this knowledge in the global or national comparative context, or to focus on organisational performance and skills.

A key aim of this course is to develop the 'academically-informed' practitioner-researcher. In particular, this Masters degree places human resource management and training within their national and international context; to study the ways in which employee and organisational development are closely related to human resource topics such as recruitment, performance appraisal, teamwork and motivation; to equip students with the professional knowledge and skills relevant to the management of human resources and training. As part of this, the course equips students with the necessary skills to undertake research work in the broad area of human resources.

8. Reference points used to inform the programme specification:

- QAA Framework for Higher Education Qualifications
- QAA Benchmarking Statement for Business and Management: http://www.qaa.ac.uk/en/Publications/Documents/Subject-benchmark-statement-General-business-and-management.pdf

10. Special features

N/A

11. Indications of programme quality:

The existing MSc programmes consistently receives excellent feedback from the External Examiners. In particular, the quality of the course materials and of the feedback students receive is always commended. CLMS has strong student support systems, and these are recognised across the University. CLMS has been part of numerous University-wide QAA reviews, and the last departmental QAA was in 2004.

The CLMS Masters programmes are well established and based on extensive experience of teaching at postgraduate level via distance learning, with approximately 5000 MSc graduates to date. The MSc in Human Resource Management and Training currently has over 200 active students and is the most popular programme. The course will be our forward for CIPD course accreditation in 2012/2013. The process will involve curriculum change and changes in assessment (e.g. introduction of examinations), so this is a longer-term focus for the programme.

The MSc in Human Resource Management and Training is particularly popular with the armed forces (UK and international). Indeed, we have a special agreement with the British Royal Air Force, which sends a set number of students on the performance course per year and regularly feeds back that it is not just the topic but the quality of the course and the support we provide that makes this an attractive option for the RAF. This updated version of the course will be of great interest to this group.

12. Scheme of Assessment

Senate Regulation 6: Regulations governing taught postgraduate programmes of study applies.

13. Progression points

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course and a recommendation will be made to the Board of Examiners for an intermediate award where appropriate.

There is a progression point at the Module 4 research Methods assignments stage. Students who are not awarded a Pass on the Module 4 research methods assignment will not be allowed to progress onto the dissertation for the award of MSc. Students are not allowed to carry a fail of 30 credits on their Module 4 Research Methods assignment. The pedagogic rationale as to why passing Module 4 is a pre-requisite of the dissertation is that students need to demonstrate that they have gained the required skills to carry out research at Masters level.

14. Rules relating to re-sits or re-submissions:

See 12 above.

15. Additional information [e.g. timetable for admissions]

February, June and October.

16. External Examiners:

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports can be found here.
