7. Programme aims

The primary aim of our Psychology of Coaching MSc programme is to empower students as active, self-directed learners. The programme aims to foster a thorough understanding of how psychological principles and methodologies are applied to coaching. Through a student-centred approach, the programme aims to cultivate a passion for continuous professional development and reflective practice, enabling students to navigate the complexities of coaching relationships. By providing diverse opportunities for experiential learning, personalised development, and self-assessment, the programme seeks to develop graduates who have a broad understanding of the theories and practices of psychology informed coaching.
