

# SCITT: Partnership

# Model A: Tommy Flowers, Grand Union Teaching Partnership (GUTP) Model B: Leicestershire Secondary SCITT (LSS)

# 1. Programme Title(s):

a) Postgraduate Certificate in Education (Secondary) (Level 7) (SCITT)

b) There is an exit award available at Level 6:

Professional Graduate Certificate in Education (Secondary) (Level 6) (SCITT)

# 2. Awarding body or institution:

University of Leicester

# 3. a) Mode of study

Full time

# b) Type of study

Campus-based (offsite) with work-based learning

#### 4. Registration Periods:

The normal period of registration is 1 year

The maximum period of registration is 2 years

#### 5. Typical entry requirements

First degree at Honours with a 2:2 (UK equivalent) is the minimum requirement (GPA 3 (US equivalent) or above ). Candidates must also have passed at Grade C or above, English Language and Mathematics at GCSE level or its equivalent, and have passed National College for Teaching and Leadership (NCTL) Skills test in English and Mathematics.

#### 6. Accreditation of Prior Learning:

No accreditation will be available for prior learning

#### 7. Programme aims:

At Postgraduate Certificate level (modules ED7350, ED7351, ED6300, ED6301), the programme aims to

a) prepare students to meet the Professional Standards for Teachers in England (NCTL, 2014), (Appendix 3)

b) support the development of pedagogic skills at the age range in which students specialise;

c) prepare students to conduct school-based studies of education, focusing on the evaluation of teaching, learning and assessment of learning;

d) develop the practice of students so that they show evidence of being reflective and effective classroom practitioners.

e) develop a critical understanding of pedagogic theory and the implications for practice;

f) develop skills of research and analysis to be applied to the study of primary education.

At Professional Graduate Certificate level (modules ED6350, ED6351, ED6300, ED6301) the programme aims a) through d) apply.

#### Students will be enabled to:

- Develop an understanding of educational theories
- Appreciate the relationship between theory and practice in teaching
- Evaluate the use and management of learning resources, including ICT, for learners within their phase of education
- Understand the various elements of the planning, monitoring and evaluation cycle as applied to teaching
- Understand how to carry out and present small-scale research on the topic of effective teaching

#### Generic Learning Outcomes

By the end of each module, students will be able to:

- Select a focus within the area covered by the module and justify their choice in relation to their current or planned professional practice
- Produce for each module an assignment which includes a coherent literature review of the topic which identifies and critically comments on appropriate theoretical, research and practice-based literature
- Draw conclusions from literature reviews and reflection on practice and apply findings to a consideration of teaching, learning or assessment, if and where appropriate.
- Have an understanding of the guiding principles of designing, conducting and disseminating ethical research in educational contexts
- Use a range of presentation modes including written essays and oral presentation.

- University of Leicester Periodic Development Review Report (June 2009)
- University Employability Strategy

#### 9. Programme Outcomes:

The programme must enable all students to achieve the national Professional Standards for Teachers (NCTL, 2014) (level 6), as well as academic skills expected of students at level 7 (or level 6). The Teachers' Standards are appended in Appendix 3. Course handbooks give detailed advice to students on how these should be achieved and demonstrated. The different expectations for the Postgraduate Certificate of Education and the Professional Graduate Certificate of Education (level 6 only) are detailed in the student handbook. Examples are given in the matrix below, but the definitive agenda is set by the national Teachers' Standards, which are subject to continuing review and frequent revisions. The intended learning outcomes in the first column are cross-referred to the Teachers' Standards.

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
	(a) Subject and Professional skills	
	Knowledge	
Meet and demonstrate the QTS standards in three core areas: 1.Preamble, 2. Teaching and 3. professional and personal conduct. These include the need to: Work within statutory frameworks (T3); Have professional regard for the ethos, policies and practices of the school (T2); Make accurate and productive use of assessment (T6) Know a range of approaches to assessment (T6) including AfL Have and demonstrate a secure knowledge of their subjects/curriculum areas and related pedagogy to enable them to teach effectively across the age range for which they are being trained. (T3, T4, T5). Understand how to manage behaviour	Lectures Tutorials Seminars Directed reading Observations in schools Computer practical classes Demonstrations Computer-aided learning Working with school mentor Example sheets Resource-based learning Induction programmes Independent research School documents Analysis of policy documents	School File(s) inc. Standards Log (level 6): Evidence detailing observations of classroom performance. End of teaching phase assessments by mentors. Modules ED7350/ED7351 (Level 7) or Modules ED6350/ED6351 (Level 6) assignments.
effectively (T7)		
	Concepts	1
Have a knowledge and understanding of a range of teaching, learning, behaviour management strategies and know how to use and adapt them; (T2, T3, T4,T5, T7) Adapt teaching to respond to the strengths and needs of students (T5) Understand and evaluate approaches to teaching (T2, T3, T4) Manage pupil behaviour effectively (T7) Assess pupil learning formatively and summatively, including the provision of constructive feedback (T6, T2). Identify progress and identify emerging learning needs (T2). Provide opportunities for all pupils to achieve their potential (T1). Demonstrate knowledge of diversity in the classroom, and how to cater for individual learning needs e.g. to make effective personalised provision for pupils, including those with EAL or SEN or disabilities.(T5) Establish a safe and purposeful learning environment and establish a clear framework for classroom discipline (T7)	Lectures Tutorials Seminars Directed reading Observations in schools Computer practical classes Demonstrations Computer-aided learning Working with school mentor School documents Analysis of policy documents Example sheets Resource-based learning Induction programmes Independent research	School File(s) inc. Standards Log (level 6): Evidence detailing observations of classroom performance. End of teaching phase assessments by mentors. #### 10. Special features:

This is a professional programme, governed by the requirements of the National College for Teaching and Leadership for Schools (NCTLS), and so the content is subject to frequent change in accordance with nationally-determined policy priorities, and revisions to the National Curriculum for Schools at the relevant age range. The programme is also subject to frequent inspection by OfSTED. Completion of Modules ED6350/ED6351 or ED7350/ED7351 at least at Level 6 is required

It is our expectation that the vast majority of students will attempt Level 7 Module ED7350. As a result, we recommend that all students be entered as Level 7 from the outset. After marking of the ED7350 assignments (mid-February) a review of all students will take place. Some students may opt to submit for Level 6 only. Where there is concern about a student, a review will take place and a recommendation made to an interim Board of Examiners. A definitive list of Level 7 students will be issued to the Graduate Office in the third week of March in each year.

The programme is offered in partnership with local school groups through the School Centred Initial Teacher Training (SCITT) framework laid down by the Department for Education. This programme format is characterised by school-led practical training in partnership with academic development through involvement of higher education institutions. The majority of the taught elements of the programme would be delivered in the SCITT training centres predominantly by SCITT tutors, who would be University of Leicester Associate Tutors. (Applications are approved by the Head of Department and ratified by the departmental Learning and Teaching Committee; details of the process are available at X:\School of Education\SCITTS accessible on request through the Senior Departmental Administrator).

The curriculum provision will be designed jointly by the SCITT and University tutors, although the quality assurance responsibility resides with the University. There is an annual review in which the curriculum and the splitting of the teaching, marking and moderation for the following year are agreed between the SCITT and University tutors (within the parameters of the service level agreement).

#### Model A

Level 7 assignments will be marked by SCITT tutors, with the moderation process overseen by University staff. The University of Leicester deliver taught sessions that relate to regulatory aspects the level 7 assignments, such as ethical approval and plagiarism. This will equate to approximately three taught days.

#### Model B

The University of Leicester is responsible for the marking and moderation of Level 7 assignments. University tutors deliver taught sessions that relate to the academic writing and research of the Level 7 modules. This is undertaken through a combination of bespoke sessions, at the SCITT training centre and/or on campus, with SCITT students joining sessions delivered jointly to Provider Led, School Direct and SCITT students as appropriate. This will equate to approximately 10 taught days and additional tutorial provision.

#### 11. Indications of programme quality:

External Examiner reports Programme Development Plan Internal Consultant Meetings with students/staff /mentors Course Evaluations and Course Annual Reports Student/School-based Tutor evaluations End of Course Evaluation Annual Development Reviews Course Management and Academic Committee Partnership Governing Body OfSTED reports Match to NCTL Teachers' Standards (DfE, 2012)

# 12. Scheme of Assessment

This programme will use continuous assessment against the Teachers' Standards (See Appendix 3); with 60 taught credits (at Level 7 for award of a Postgraduate Certificate and Level 6 for award of a Professional Certificate), as defined in Senate Regulation 6: *Regulations governing taught postgraduate programmes of study*.

# 13. Progression points

There are two progression points within the course.

Progression Point 1 is in February/March (a panel of examiner is convened).

For module ED7350 this requires students to pass the first assignment at either Level 7 (50% and above) or Level 6 (40-49%) (or ED6350 at level 6).

For module ED6300 this requires students to successfully complete the first semester school placement(s).

Progression Point 2 is in June (a panel of examiner is convened).

For module ED7351 this requires students to pass the second assignment at either Level 7 or 6.

For module ED6301 this requires the students to meet the Teachers' Standards. Where a candidate is assessed as not meeting the minimum standards for QTS, the Panel may recommend either:

- The extension of the assessment period of the placement, or;
- The termination of the teaching placement.

#### Failure to meet level 7 criteria.

If the student receives a mark of 40-49% they have the option to accept this mark and pass the first assignment at Level 6, or they may resubmit the assignment and attempt to gain 50%, thereby moving forward with an Level 7 pass.

If a student receives a mark of less than 40%, they will have the choice of resubmitting at Level 7 and attempting to reach 50%, or, if they feel this is not possible, they can resubmit at Level 6, resubmitting a shorter assignment to meet the requirements of this level.

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.

Further details can be found in the SCITT PGCE Assignment Handbook that is available to all students (pages 4 to 7).

#### Rules relating to re-sits or re-submissions:

As defined in Senate Regulation 6: *Regulations governing taught postgraduate programmes of study,* but with additionally subject to the University's Fitness to Practice regulations. Where an assessment element has been failed, students have an automatic right to one resubmission. The maximum mark that can be awarded to a resubmission is 50%.

#### 14. Additional information [e.g. timetable for admissions]

Admissions occur once a year and begin in September subsequent to approval to taking up a place within the Partner SCITT programme.

#### **15. External Examiners:**

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports can be found <u>here</u>.

# Appendix 1: Programme structure (programme regulations)

The Postgraduate Certificate (PGCE level 7) comprises 4 modules, two at intermediate 'H' level (60 credits at Level 6) and two at Masters level (60 credits at Level 7: Postgraduate Certificate). There will be one Level 6 module and one Level 7 module running in each semester.

To be awarded the Professional Graduate Certificate (PGCE H level), students would complete four modules at level 6.

All students are initially enrolled on the Postgraduate Certificate with the Professional Graduate Certificate available as an exit award; the following structures are possible:

	Professional Graduate Certificate in Education x 4 30 credit modules at Level 6 (H level)	Postgraduate Certificate in Education x 2 30 credit modules at Level 6 (H level); 2 x 30 credit modules at Level 7 (M level)

#### The Professional Competences Programme (Modules ED6300/ ED6301)

The following two modules at Level 6 are compulsory to all entrants to the PGCE. During their centre-based teaching blocks and across their teaching placements, students learn about the pedagogy of their chose curriculum subject, how learners develop their skills, knowledge and understanding in aspects of the school curriculum, and the methods used to assess their progress.

#### ED6300: Professional School Experience 1 (30 credits: Level 6):

First practicum ('*Host Placement'*): minimum 28 days of practical teaching experience, including: • guided observation;

- reflective directed tasks/activities related to teaching;
- direct teaching (of whole-class, groups and individuals);
- planning, preparation and assessment of pupils' learning;
- written reflections/evaluations of professional development;
- subject and professional issues support through school-based tutors;
- the development of portfolio providing of evidence towards meeting Teachers' Standards

This module includes teaching input on pedagogy, guidance on lesson planning and evaluation, practical teaching experience with observations (formative and summative), followed by submission

of evidence that demonstrates levels of achievement mapped against the Teachers' Standards. The practicum is the assessed piece of work for this module. Students must submit the evidence in a structured and accessible form so that the match to Teachers' Standards can be demonstrated to internal and external assessors. The practical assessment of teaching is interim at this stage and a formal record of the level achieved is made so that the student is aware of what remains to be achieved in the next professional practice module. Failure to achieve a satisfactory level will be discussed at a Panel of Examiners in January/February, which may lead to requirements being put in place before students can progress to Module ED6301 or termination of studies if serious weaknesses in professional competences are evident. Students deemed to be at risk of not achieving the final Teachers' Standards are given written warning of this at this stage.

#### ED6301: Professional School Experience 2 (30 credits: Level 6)

Second practicum ('Main Placement'): minimum 48 days of practicum, including:

- guided observation;
- reflective directed tasks/activities related to teaching;
- direct teaching (of whole-class, groups and individuals);
- planning, preparation and assessment of pupils' learning;
- written reflections/evaluations of professional development;
- subject and professional issues input;
- the development of portfolio providing evidence towards meeting professional Teachers' Standards

This module includes further input on pedagogy, guidance on lesson planning and evaluation, practical teaching with observations (formative and summative), followed by submission of a portfolio of evidence that demonstrates achievement mapped against the Teachers' Standards. In the practical assessment of their teaching in this module, students must achieve the minimum level required for the award of Qualified Teacher Status (assessed against criteria consistent with Teachers' Standards (Appendix 3)). Students submit accompanying evidence in a structured accessible way so that the match with Teachers' Standards can be demonstrated to internal and external assessors at the final Board of Examiners meeting.

An assessment of practical teaching will be made at a Professional Practice Panel of Examiners in May/June which identifies students at risk of not meeting the Standards by the end of School Experience 2, triggering appropriate support action by tutors and partnership schools to review progress and setting targets for development, as appropriate.

Candidates assessed as meeting the minimum standard for Qualified Teacher Status (QTS) at this point will continue their placement for a period of consolidation, with a final decision for the award of QTS being made by the Panel of Examiners which meets before the final Exam Board. Candidates must demonstrate that during this period they have maintained a level of performance in practical teaching that meets the minimum standards for QTS.

Failure to meet the Teachers' Standards in the teaching practice will be referred to external examiners and to the Board of Examiners, following independent scrutiny of teaching practice by an independent University tutor (one not involved in the supervision of the tutee's practicum). If failure is confirmed, QTS cannot be recommended and two possible outcomes will be considered: a) the Board of Examiners may recommend fail b) the Board of Examiners may determine that the candidate should be offered a further period of 8 weeks practical teaching in a different school in a final effort to meet the Teachers' Standards.

Normally candidates will only be allowed one resubmission of any academic assignment *and* one additional teaching placement. Only in exceptional circumstances and with special permission from

the Board of Examiners may a candidate be offered a second resubmission of an academic assignment or second additional teaching placement.

#### Note to Modules ED6300/ED6301

The above modules are at Level 6 (H) and are essential (though not in themselves sufficient) to the award of the PGCE and recommendation for Qualified Teacher Status. For Modules EDED6300/ED6301, students critically reflect on their development in the Standards Log which includes reference to directed tasks carried out in school in addition to core subject and professional taught sessions. In addition, students are required to complete tasks relating to both subject and professional studies sessions and address professional needs identified through subject audits, as they progress through the centre-based sessions and practicum experiences.

The resulting portfolio elaborates on their development of professional knowledge and experience. It includes evidence of critical reflection, observations of their practice, and responses to directed tasks. Summary evidence is recorded in the Standards Log, and is the primary source of evidence for assessment in Modules ED6300/ED6301.

# The Academic Competences Programme (Modules ED 7350/ED7351/ED6350/ED6351)

The following modules can be assessed at both Level 6 & 7. All Level 7 students would have to satisfy the requirements of the professional modules above. In effect, modules ED7350/ED7351 are common to all participants, with Modules ED7350/ED7351/ED6350/ED6351 awarded at either at Level 7 or Level 6. Detailed specifications with Level 7 & Level 6 versions are included in Appendix 2.

#### Modules ED7350/ED6350

Module ED7350 is Level 7 and has a Level 6 'version' (ED6350) for identified students, with more limited expectations (see Appendix 2 below):

# ED7350 Critical Reflections on Classroom Practice: (30 credits: Level 7) or

#### ED6350 Critical Reflections on Classroom Practice (30 credits: Level 6)

As noted above, our expectation is that all students will attempt Module ED7350, and so there would be common subject and professional strands for all students (although a Level 6 specification is provided as there may be exceptional cases made for students who do not achieve this at Level 7). For Module ED7350, Level 7 input on pedagogic theory (teaching and learning) and an introduction to classroom research is offered to all students. In addition, students receive input on the structure and writing of assignments at Level 7 (7.5 hours in total of additional input; some of this offered through VLE).

During centre-based sessions in Autumn Term and in the first practicum ('Host Placement'), PGCE students learn about pedagogic principles, they have directed tasks to carry out focusing on how to address pupils' misconceptions and build on what they already know. This module enables students to deepen their knowledge and theoretical understanding of the educational process. It provides them with opportunities to evaluate the development of their own teaching skills during the first practicum and directly informs their work in the classroom.

#### Module ED7350 Assessment

Assessment will be through an assignment equivalent to 5000 words, with a focus on two themes: engaging with relevant research, and the understanding of children's learning in school.

The assignment will contain evidence from their school placement and critical reflections and analysis. This will be presented in the form of a written commentary and evidence from classroom activities, which can be collated in an annotated portfolio of evidence or appendices as appropriate. (Written Commentary: critical reflection and analysis.

Portfolio: e.g. examples of lesson plans, teaching resources, short and medium schemes of work and lesson evaluation documents.)

Where an assignment is judged as a fail against Level 7 criteria, it is reassessed and graded against Level 6 criteria (see Appendix 4). Where an assignment is judged to be a pass at Level 6 (broadly equivalent to a 40-49% against Level 7 criteria), the student is allowed to resubmit the assignment in order to attempt to gain a Level 7 pass.

If the original submission is also judged a fail at Level 6, the student will be offered the opportunity to resubmit either at Level 7 again, or to opt for the Level 6 only Module 6350 assignment.

#### Module ED6350 Assessment

Assessment will be through an assignment equivalent to 3000 words, with a focus the understanding of children's learning and experience in school.

The assignment will contain evidence from their school placement and a critical reflections and analysis. This will be presented in the form of a written commentary with evidence collated in a portfolio of evidence as appropriate.

(Written Commentary: evaluation of teaching episodes.

Portfolio: e.g. examples of lesson plans, teaching resources, short and medium schemes of work and lesson evaluation documents.)

#### Module ED7351/ED6351

Module 7351 is offered for assessment at Level 7. There is a alternative Level 6 'version' (ED6351) for identified students, with more limited expectations (see Appendix 2 below)):

#### ED7351: Small Scale Classroom Research Project (30 credits: Level 7)

#### or

#### ED6351: Small Scale Classroom Research Project (30 credits: Level 6)

During their centre-based teaching PGCE students learn about the pedagogy of their specific subjects, how learners develop their skills, knowledge and understanding in aspects of the school curriculum, both within the subject and across the curriculum, and the methods used to assess their progress. All students receive input regarding school based leadership roles and responsibilities for the chosen specialism. In addition, students receive input on research methods in education and on the structure of assignments at Level 7 (7.5 hours; some of which may be offered through VLE).

#### Module ED7351 Assessment

Level 7 students critically reflect on one aspect of teaching and learning in their secondary subject; accessing and engaging with relevant research into their key curriculum area or issue, including the use of education research methods to conduct a school-based study through the submission of a 5000 word Professional Enquiry Project.

Where this assignment is judged to be a fail against Level 7 criteria, as with Module ED7350, the student will have an opportunity to resubmit. However, in these circumstances, the student may choose instead to have the original submission reassessed against Level 6 criteria (see Appendix 4).

If the original submission is judged as a pass at Level 6, the student would then be eligible for the Level 6 exit award (Professional Graduate Certificate of Education with 120 Level 6 credits); there is no exit award for 30 Level 7 credits only.

If the original submission is also judged a fail at Level 6, the student will be offered the opportunity to resubmit either at Level 7 again, or to opt for the Level 6 only Module ED6351 assignment.

# Modules ED6351 Assessment

For Level 6 (ED6351), students reflect on a curriculum or professional related issue, with the focus on the evaluation of pedagogical practice and the understanding of children's learning in their specific curriculum area or in relation to a particular issue.

This will be assessed through submission of a 3000 word equivalent Professional Enquiry Project, consisting of a reflective piece of writing on a curriculum or professional related issue (negotiated with their tutor), a portfolio of supporting materials (e.g. lesson plans, classroom resources, evaluation documents) and, if appropriate, a presentation to a relevant audience.

#### Awards

Students who have successfully completed all requirements of the course will be recommended for the award of QTS and awarded:

#### <u>EITHER</u>

• the Postgraduate Certificate of Education with 60 Level 7 credits and 60 Level 6 credits OR

• the Professional Graduate Certificate of Education with 120 Level 6 credits

#### **Appendix 2: Module Specifications**

See module specification database http://www.le.ac.uk/sas/courses/documentation

# Appendix 3

# **Teachers' Standards**

#### Preamble

Teachers make the education of their pupils their first concern, and are accountable for achieving the highest possible standards in work and conduct. Teachers act with honesty and integrity; have strong subject knowledge, keep their knowledge and skills as teachers up-to-date and are self-critical; forge positive professional relationships; and work with parents in the best interests of their pupils.

#### Part one: Teaching

#### A teacher must:

#### T1 Set high expectations which inspire, motivate and challenge pupils

- establish a safe and stimulating environment for pupils, rooted in mutual respect
- set goals that stretch and challenge pupils of all backgrounds, abilities and dispositions
- demonstrate consistently the positive attitudes, values and behaviour which are expected of pupils

#### T2 Promote good progress and outcomes by pupils

- be accountable for pupils' attainment, progress and outcomes
- be aware of pupils' capabilities and their prior knowledge, and plan teaching to build on these
- guide pupils to reflect on the progress they have made and their emerging needs
- demonstrate knowledge and understanding of how pupils learn and how this impacts on teaching
- encourage pupils to take a responsible and conscientious attitude to their own work and study

#### T3 Demonstrate good subject and curriculum knowledge

- have a secure knowledge of the relevant subject(s) and curriculum areas, foster and maintain pupils' interest in the subject, and address misunderstandings
- demonstrate a critical understanding of developments in the subject and curriculum areas, and promote the value of scholarship
- demonstrate an understanding of and take responsibility for promoting high standards of literacy, articulacy and the correct use of Standard English, whatever the teacher's specialist subject
- if teaching early reading, demonstrate a clear understanding of systematic synthetic phonics
- if teaching early mathematics, demonstrate a clear understanding of appropriate teaching strategies.

#### T4 Plan and teach well-structured lessons

- impart knowledge and develop understanding through effective use of lesson time
- promote a love of learning and children's intellectual curiosity
- set homework and plan other out-of-class activities to consolidate and extend the knowledge and understanding pupils have acquired
- reflect systematically on the effectiveness of lessons and approaches to teaching
- contribute to the design and provision of an engaging curriculum within the relevant subject area(s)

#### T5 Adapt teaching to respond to the strengths and needs of all pupils

- know when and how to differentiate appropriately, using approaches which enable pupils to be taught effectively
- have a secure understanding of how a range of factors can inhibit pupils' ability to learn, and how best to overcome these
- demonstrate an awareness of the physical, social and intellectual development of children, and know how to adapt teaching to support pupils' education at different stages of development
- have a clear understanding of the needs of all pupils, including those with special educational needs; those of high ability; those with English as an additional language; those with disabilities; and be able to use and evaluate distinctive teaching approaches to engage and support them

#### T6 Make accurate and productive use of assessment

- know and understand how to assess the relevant subject and curriculum areas, including statutory assessment requirements
- make use of formative and summative assessment to secure pupils' progress
- use relevant data to monitor progress, set targets, and plan subsequent lessons
- give pupils regular feedback, both orally and through accurate marking, and encourage pupils to respond to the feedback

#### T7 Manage behaviour effectively to ensure a good and safe learning environment

- have clear rules and routines for behaviour in classrooms, and take responsibility for promoting good and courteous behaviour both in classrooms and around the school, in accordance with the school's behaviour policy
- have high expectations of behaviour, and establish a framework for discipline with a range of strategies, using praise, sanctions and rewards consistently and fairly
- manage classes effectively, using approaches which are appropriate to pupils' needs in order to involve and motivate them
- maintain good relationships with pupils, exercise appropriate authority, and act decisively when necessary

#### T8 Fulfil wider professional responsibilities

- make a positive contribution to the wider life and ethos of the school
- develop effective professional relationships with colleagues, knowing how and when to draw on advice and specialist support
- deploy support staff effectively
- take responsibility for improving teaching through appropriate professional development, responding to advice and feedback from colleagues
- communicate effectively with parents with regard to pupils' achievements and well-being

# Part two: Personal and professional conduct (PPC)

A teacher is expected to demonstrate consistently high standards of personal and professional conduct. The following statements define the behaviour and attitudes which set the required standard for conduct throughout a teacher's career. Teachers uphold public trust in the profession and maintain high standards of ethics and behaviour, within and outside school, by:

- treating pupils with dignity, building relationships rooted in mutual respect, and at all times observing proper boundaries appropriate to a teacher's professional position
- having regard for the need to safeguard pupils' well-being, in accordance with statutory provisions
- showing tolerance of and respect for the rights of others
- not undermining fundamental British values, including democracy, the rule of law, individual liberty and mutual respect, and tolerance of those with different faiths and beliefs
- ensuring that personal beliefs are not expressed in ways which exploit pupils' vulnerability or might lead them to break the law.
- Teachers must have proper and professional regard for the ethos, policies and practices of the school in which they teach, and maintain high standards in their own attendance and punctuality.
- Teachers must have an understanding of, and always act within, the statutory frameworks which set out their professional duties and responsibilities

# **Appendix 4 Draft Level Descriptors**

# Grade Descriptors for PGCE modules: PG Cert in Education

These grade descriptors include a Level 6 pass for those falling below the Level 7 threshold, but submitting work that would pass at Level 6 (40-49% below).

In module ED7350, successful students will:

- Clearly summarise and discuss, in written form, the progression they have made in developing their ability within the classroom with regards to some or all of: planning for learning, the use of assessment, the integration of ICT into learning, or another agreed area of pedagogy
- Demonstrate an ability to handle data in the form of a professional portfolio, selecting appropriate information, to support a clearly written commentary
- Demonstrate the ability to apply the evaluation of developing classroom pedagogy to an academic written format, based on a critical application of relevant research literature

In module ED7351, successful students will:

- Clearly summarise and discuss, in written form, a small-scale classroom research project focusing on an agreed element of pedagogic practice
- Demonstrate an ability to collect and handle data as supporting evidence in empiricallydriven professional reflection and development
- Demonstrate the ability to apply the evaluation of developing classroom pedagogy to an academic written format, based on a critical application of relevant research literature
- Show ability in applying theoretical understanding developed from engagement with the literature by developing and reflecting on new practice in a professional setting

#### **70% Distinction**

- 1. Very well-structured, with accurate and appropriate handling of references and sources, conforming to the highest standards at Level 7. The generic structure follows standard academic conventions (e.g. an article: abstract, literature review, research outline, findings and conclusions or a research report). Spelling, grammar and punctuation are correct throughout, with only one or two errors.
- 2. Demonstrates excellent command of subject matter. Understands the relevant pedagogic theories and concepts fully and applies them skilfully to the assignment topic. The literature used (where appropriate) is comprehensive and demonstrates a sophisticated grasp of issues and is used in an incisive way.
- 3. Excellent ability to critically evaluate relationship between planning, teaching and evaluation processes and critique relevant arguments, debates etc. The links to schools and the classroom are integrated throughout the structure of the assignment, critically and reflectively.
- Presents and analyses data very clearly and accurately. Critically appraises strengths and weaknesses of investigative strategies. The work considers alternative interpretations. Effectively synthesizes relevant material from a range of sources. Fully discusses and justifies methods used to investigate practice.

#### 60% Merit

1. Generally well-structured, with proper handling of references and sources. Spelling, grammar and punctuation are largely correct, but a few errors are identified. One of referencing, bibliography or length is not of the highest standard, but of a satisfactory standard. The work

follows a logical structure e.g. reflective essay on planning, teaching and evaluation processes.

- 2. Demonstrates good command of the subject matter. Understands relevant pedagogic models and concepts, and applies them competently to the assignment topic. The literature used (where appropriate) is drawn from a range of sources and is reviewed analytically.
- 3. The assignment shows clear evidence of critical reflection on the issues, both academically and professionally, though this may not be systematically maintained throughout the assignment. Shows ability to analyse relationships between planning, teaching and evaluation processes and critique relevant arguments, debates etc. Good commentary on relationship between theory and practice. References to schools and classrooms are explicit and the implications discussed in a thorough way.
- 4. Evidence of systematic enquiry. Discusses and justifies research methods used. Presents and analyses data quite clearly and accurately. There is some awareness of possible limitations to the study and of alternative interpretations.

#### 50% Pass (M)

- 1. Satisfactory structure and organization. There is proper referencing and handling of sources though these might be limited in number to and focusing on professional rather than research-based literature, for example, exclusive use of guidance documents.
- 2. Demonstrates a clear professional command of the pedagogic subject matter and a satisfactory understanding and/or application of relevant pedagogic theories, concepts etc.
- 3. There is some critical commentary on relevant arguments, debates, but with reliance on accepted professional knowledge rather than own enquiry based discoveries.
- 4. There is a tendency towards description and/or paraphrase, rather than analysis but research questions are generally appropriate and reasonably well defined. There is a systematic approach to enquiry in schools and classrooms but may be deficient in discussion and/or justification or investigative strategies used. Data presented and analysed with reasonable clarity and accuracy.

#### 40%-49% Pass (Level 6)

- 1. For Module 7350, the assignment discusses and evaluates teaching, learning and assessment in relation to both the National Strategy and the curriculum of their chosen subject and reflects on the planning, teaching and evaluation processes used by themselves in their own classroom practice.
- 2. For Module 7351, the assignments demonstrate an understanding of theoretical and pedagogic frameworks that underpin an aspect of subject teaching and give evidence of reflection on a critical issue in the teaching of their chosen subject.

In both cases, the following may be found:

Clear evidence of professional expertise in the skills associated with the module, possibly
with examples of useful classroom materials and records of general observations conducted
The submission has an appropriate structure, for example a portfolio of evidence, a series of
structured observations and an accompanying professional rationale. Referencing,
bibliography and length are acceptable but possibly limited to professional publications.
Spelling, grammar and punctuation are satisfactory for conveying meaning, although there
may be some avoidance of conventions e.g. overuse of bullet point approaches to presenting
the argument.

- Reference to appropriate pieces of relevant literature, but these focus on professional competences rather than research-based approaches e.g. references are principally to National Curriculum and good practice guidelines. While there may be evidence of professional competence e.g. lists of sensible points about teaching, the writing does not focus on demonstrating detailed understanding of relevant theories, concepts etc. Evidence of practical competence is informed by reference to policy documents but with limited reference to theory or research. There is some evidence of a critical and reflective approach to the issues, perhaps contained within a conclusion or a segment of the assignment.
- Reference to schools and classrooms, but the focus of the work is on the practical demonstration of classroom competences and skills. It concentrates on demonstrating competences through the collection of evidence of activity undertaken in school. The candidate may have chosen to rely on received knowledge rather than engage in enquiry-based activities in the school or classroom to support claims.
- The candidate choosing not to engage in detailed empirical research, preferring the submission of practice-based materials to provide evidence of achievement against Teachers' Standards. Or, research questions are presented in general rather than focused terms e.g. investigate the organisation of group work, but with professional reflection on this issue rather than detailed analysis or evaluation of some approaches to group work in real time.

# 35-39% Potential pass (H) subject to minor amendments/additions

The assignment has the four qualities of a pass (professional) submission presented above but has omitted some items critical to the demonstration of teaching-related competences. These could, for example, include omission of an evaluative statement at the end of the submission or failure to provide a list of references or failure to include some documents known to be available to the candidate e.g. teaching materials that have been the subject of evaluation. The Level 6 pass would be confirmed once the minor amendments had been completed.

#### 20-34% Fail (one re-submission allowed)

The assignment is weak in all or most of the categories and cannot be awarded a pass at Level 7 nor at professional level. It has not adequately addressed the topic to demonstrate professional or academic skills. The assignment has little logical structure and the argument is difficult to follow, with inadequate referencing and handling of both professional and academic sources. There is inadequate reference to practice in schools and classrooms, with little evidence of a critical and reflective approach to the professional issues.

# **Re-sitting**

Students have a right to re-sit. If a student fails to achieve at Level 7, they have the right to re-submit at Level 7, but if they achieve a mark of 40-49 they may choose not to re-submit but claim a pass at Level 6 only.
