

## Programme Specification (Undergraduate)

FOR ENTRY YEAR: 2025/26

Date created: 17/12/2020

Last amended: 02/04/2025

Version no. 1

---

### 1. Programme title(s) and code(s):

BA Archaeology (V400)

BA Archaeology with a Year Abroad^

Archaeology Certificate\*

Archaeology Diploma\*

Notes

\* An award marked with an asterisk is only available as an exit award and is not available for students to register onto.

^ Students may only enter this programme by approved transfer at the end of Year 1 or year 2

#### a) [HECOS Code](#)

HECOS Code	%
100299	100

#### b) UCAS Code (where required)

V400

### 2. Awarding body or institution:

University of Leicester

#### 3. a) Mode of study

Full-time

#### b) Type of study

Campus-based

### 4. Registration periods:

#### BA Archaeology

The normal period of registration is 3 years

The maximum period of registration 5 years

#### BA Archaeology with a Year Abroad

The normal period of registration is 4 years

The maximum period of registration 6 years

### 5. Typical entry requirements

BBB at A-level; International Baccalaureate, pass diploma with 28-30 points

For the aims, learning outcomes and application criteria for the GCSA Year Abroad please see

<https://le.ac.uk/study/undergraduates/courses/abroad>

## **6. Accreditation of Prior Learning**

Direct entry to level 2 is possible, based on level 1 qualifications in a relevant subject or subjects, or equivalent qualifications or experience, and with the approval of the School of Archaeology & Ancient History

## **7. Programme aims**

The programme aims to:

- provide a rigorous, coherent and attractive curriculum that draws on the research expertise and teaching strengths of the School of Archaeology and Ancient History
- provide a stimulating and challenging learning experience for all students
- develop students' knowledge and understanding of the full chronological and geographical range of their discipline
- develop students' abilities to apply archaeological theories, techniques, and concepts to analyse and explain specific periods and themes in archaeology
- enable students to demonstrate a variety of approaches used by archaeologists to understand past societies
- enable students to develop and demonstrate a range of skills necessary for the study of archaeology
- enable students to develop and demonstrate a range of transferable skills necessary for successful career development and a lifetime of effective independent learning.

In addition, the Year Abroad aims to:

- expand and broaden the curriculum through engagement with alternative academic traditions
- further deepen students' understanding of the specific periods and themes in Archaeology through study in a different academic context
- develop and enhance students' independence, confidence and global outlook
- reinforce the importance of internationalisation

## **8. Reference points used to inform the programme specification**

- QAA Benchmarking Statement
- Framework for Higher Education Qualifications (FHEQ)
- UK Quality Code for Higher Education
- [University Education Strategy](#)
- [University Assessment Strategy](#) [Login required]
- University of Leicester Periodic Developmental Review Report
- External Examiners' reports (annual)
- United Nations Education for Sustainable Development Goals
- Student Destinations Data

## **9. Programme Outcomes**

Unless otherwise stated, programme outcomes apply to all awards specified in 1. Programme title(s).

**a) Discipline specific knowledge and competencies**

i) Mastery of an appropriate body of knowledge

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate mastery of an appropriate body of archaeological knowledge.	Lectures, tutorials, seminars, directed reading, independent research, resource-based learning.	Essays; short-answer, multiple choice and essay-based examinations; a dissertation; seminar presentations; posters; wikis; weekly in-class quizzes; computer-based exercises and project work; contributions to discussions; oral presentations; problem-based exercises; laboratory classes.

ii) Understanding and application of key concepts and techniques

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate understanding of the complexity of reconstructing the past, the problematic and varied nature of archaeological evidence.	Lectures, tutorials, seminars, directed reading, independent research, computer-based practical classes, team problem solving exercises.	Essays; short-answer, multiple choice and essay-based examinations; a dissertation; seminar presentations; posters; wikis; weekly in-class quizzes; computer-based exercises and project work; contributions to discussions; oral presentations; problem-based exercises; laboratory classes
Demonstrate a variety of approaches to understanding, constructing and interpreting the past.	Tutorials, seminars, independent research, computer practical classes, team problem solving exercises	Essays; short-answer, multiple choice and essay-based examinations; a dissertation; seminar presentations; posters; wikis; weekly in-class quizzes; computer-based exercises and project work; contributions to discussions; oral presentations; problem-based exercises; laboratory classes
Demonstrate comprehension of and practice in a variety of archaeological practical techniques	Fieldwork, survey and excavation experience	Participation in level 2 and 3 fieldwork and completion of fieldwork reports

iii) Critical analysis of key issues

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Compare and analyse the development of different societies and cultures.	Lectures, tutorials, seminars, directed reading, independent research, team problem solving exercises	Essays; short-answer and essay-based examinations; seminar presentations; posters; wikis; independent research projects; contributions to discussions; problem-based exercises
Analyse past human societies through the assessment of continuity and change over extended time spans	Lectures, tutorials, seminars, directed reading, independent research, team problem solving exercises	Essays; short-answer and essay-based examinations; seminar presentations; posters; wikis; independent research projects; contributions to discussions; problem-based exercises
Reflect critically on the nature and theoretical basis of Archaeology as a discipline	Tutorials, seminars, directed reading, independent research, team problem solving exercises	Essays; short-answer and essay-based examinations; seminar presentations; posters; wikis; independent research projects; contributions to discussions; problem-based exercises

iv) Clear and concise presentation of material

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Present archaeological problems and arguments in a variety of written and oral formats.	Lectures, tutorials, seminars, directed reading, independent research, team problem solving exercises.	Writing tasks (including examinations, essays, wikis, posters); seminar presentations; contributions to discussions; dissertation.

v) Critical appraisal of evidence with appropriate insight

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Develop and sustain archaeological arguments, formulating appropriate questions and utilising evidence	Lectures, tutorials, seminars, directed reading, independent research, team problem solving exercises	Essays; essay-based examinations; seminar presentations; independent research projects; contributions to discussions; problem-based exercises; dissertation.
Read, analyse, and reflect critically archaeological source materials and their contexts, and on the variety of such sources	Tutorials, seminars, directed reading, independent research, computer-aided learning, computer practical classes, team problem solving exercises	Essays; essay-based examinations; seminar presentations; independent research projects; contributions to discussions; problem-based exercises; dissertation.

vi) Other discipline specific competencies

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Design, research, and present a sustained and independently conceived piece of writing about an archaeological problem.	Independent research, hands-on practical classes, vocational fieldwork training, Lectures, Seminars, problem-solving exercises, tutorials	Independent research projects; class-based practical handling sessions; dissertation; fieldwork reports.
Gain direct experience of materials handling and interpretation	Independent research, hands-on practical classes, vocational fieldwork training, Lectures, Seminars, problem-solving exercises, tutorials	Independent research projects; class-based practical handling sessions; dissertation; fieldwork reports.
Develop understanding of relevant disciplinary guidelines, standards, legislative and professional frameworks	Independent research, hands-on practical classes, vocational fieldwork training, Lectures, Seminars, problem-solving exercises, tutorials	Independent research projects; class-based practical handling sessions; dissertation; fieldwork reports.

**b) Transferable skills**

i) Oral communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate clarity, fluency and coherence in oral expression of archaeological issues	Seminars, tutorials, team problem-solving exercises.	Seminar presentations; contributions to discussions; summative and formative oral presentations.
Participate effectively in group discussions	Seminars, tutorials, team problem-solving exercises.	Seminar presentations; contributions to discussions; summative and formative oral presentations.

ii) Written communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Develop and sustain arguments in a variety of literary forms	Seminars, tutorials, team problem-solving exercises, independent research.	Essays; essay-based examinations; seminar presentations; independent research projects (including group projects); posters; contributions to discussions; dissertation.
Demonstrate clarity, fluency and coherence in written expression of archaeological issues	Seminars, tutorials, team problem-solving exercises, independent research.	Essays; essay-based examinations; seminar presentations; independent research projects (including group projects); posters; contributions to discussions; dissertation.

iii) Information technology

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Use IT effectively to support their studies, including bibliographic and archive searches at national and local level, data analysis and written/visual presentation of evidence.	Induction programme, computer practical classes, independent research.	Coursework; independent research projects; computer-based exercises; problem-based exercises; wikis; effective use of VLE.

iv) Numeracy

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Analyse archaeological data using statistical and graphical techniques.	Seminars, lectures, practical classes; fieldwork exercises.	Research projects; computer-based exercises (e.g. database and spreadsheet); problem-based exercises; fieldwork reports.

v) Team working

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Be able to work collaboratively to explore archaeological issues and arguments and to recognise the value of working closely with others.	Tutorials, seminars, team problem-solving exercises, field school, excavation training.	Seminar presentations; contributions to discussions; contributions to team problem solving exercises; fieldwork reports.

vi) Problem solving

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Address archaeological problems in depth using contemporary text and material sources and advanced secondary literature.	Tutorials, seminars, team problem-solving exercises.	Essays; independent research projects; computer-based exercises; problem-based exercises (group-based and individual).

vii) Information handling

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Gather and deploy evidence and data to find, retrieve, sort and exchange new information.	Tutorials, seminars, directed reading, independent research, computer practical classes, team problem solving exercises.	Essays; independent research projects; wikis; computer-based exercises; posters; problem-based exercises; dissertation.

viii) Skills for lifelong learning

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate intellectual independence through the setting of research tasks and the solving of archaeological problems	All of the above, particularly independent research Tutorials, career development programmes, resource based learning, personal development planning programme	All of the above, particularly first year dedicated academic and transferable skills training; first and second year group project work; curriculum vitae; personal tutor meetings; the dissertation.
Reflect upon own learning and achievements and plan for personal, educational and career development	All of the above, particularly independent research Tutorials, career development programmes, resource based learning, personal development planning programme	All of the above, particularly first year dedicated academic and transferable skills training; first and second year group project work; curriculum vitae; personal tutor meetings; the dissertation.

## 10. Progression points

This programme follows the standard Scheme of Progression set out in [Senate Regulations](#) – see the version of Senate Regulation 5 governing undergraduate programmes relevant to the year of entry.

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course

### a) Course transfers

The course transfers process is set out [here](#) on the University's web pages.

## 11. Criteria for award and classification

This programme follows the standard scheme of undergraduate award and classification set out in [Senate Regulations](#) – see the version of *Senate Regulation 5 governing undergraduate programmes* relevant to the year of entry.

## 12. Special features

- The student learning experience is enhanced by a commitment to synergy between research and teaching.
- Students taking the BA will undertake a fieldwork module in the first year and will undertake compulsory fieldwork in the second year as well as study visits to local sites of archaeological interest.
- Students taking the BA have the option of a Year Abroad. The School participates in two exchange schemes: the first is based on a network of European universities the second involves links with Canadian and Australian Universities (Study Abroad Scheme).

## 12a. Research-inspired Education

Students on this programme will advance through the four quadrants of the University of Leicester Research-inspired Education Framework as follows:

RiE Quadrant	Narrative
<b>Research-briefed</b> Bringing staff research content into the curriculum.	<ul style="list-style-type: none"><li>Research briefed: Throughout the degree students engage with staff research through a variety of teaching types (lectures, seminars etc.). Modules draw on archaeological fieldwork and materials analysis by staff members, work by University of Leicester Archaeological Services and theoretical approaches developed by staff members.</li></ul>
<b>Research-based</b> Framed enquiry for exploring existing knowledge.	<ul style="list-style-type: none"><li>Research-based: Students work to produce their own heritage outputs based on their own work with support from a mentor in the field. Students undertake fieldwork at our summer field school and then analyse that data in the classroom in the following semester. During fieldwork, they actively work with University of Leicester Archaeological Services staff, developing an understanding of the processes of real-world contract archaeology.</li></ul>
<b>Research-oriented</b> Students critique published research content and process.	<ul style="list-style-type: none"><li>Research oriented: Students critique research outputs regularly, and are also provided with opportunities to critique their own approach to research through reflective assignments. They are provided with guidance and training to enable them to do this.</li></ul>
<b>Research-apprenticed</b> Experiencing the research process and methods; building new knowledge.	<ul style="list-style-type: none"><li>Research-apprenticed: The degree is set up to provide students with the opportunity to experience the research process throughout, with appropriate staff support. This is exemplified in the fieldwork modules, which take data gathered by the students themselves through summer fieldwork programmes, which they then work to write up in later fieldwork modules. Additional modules take a similar approach throughout the degree (e.g. through heritage-based research projects and through dissertations)</li></ul>

As part of studying at a research-intensive university, students on this programme have the following extra or co-curricular opportunities available to them to gain exposure to research culture:

Students are welcomed at the School's Wednesday Research seminars, which are promoted by email, in the foyer TV screens of the Kathleen Kenyon building and on the DL Forum Blackboard site for Distance Learners. These run weekly during term time: each week a researcher from the University of Leicester or an outside speaker gives a talk about their current research, followed by Q&A. The seminars use a hybrid format to maximise accessibility, taking place in person and on Teams. Talks are also uploaded to our YouTube channel.

**Teaching on this programme will be research-informed (it draws consciously on systematic inquiry into the teaching and learning process itself) in the following way:**

The School supports all staff involved in teaching to gain an accredited Higher Education teaching qualification, in which they demonstrate their use of teaching theory to support their own practice and reflect on their current teaching and continuing professional development.

The School holds teaching Open Fora through the year. These are two-hour meetings on a particular topic (usually different each time), which all staff are invited to. The Open Fora are used to develop ideas around best practice, which can then be implemented within the curriculum.

### **13. Indications of programme quality**

Our research is regularly classed as 'world-leading' or 'internationally excellent', placing us in the top half-dozen Ancient History and Archaeology departments in the UK. We deliver undergraduate and master's teaching to the highest standards with National Student Survey feedback indicating outstanding student satisfaction. Graduates of this degree programme take postgraduate taught courses and pursue research degrees at Leicester and many other universities. Many take Master's courses at Leicester or elsewhere; many have entered teaching or archaeological careers; and many enter graduate employment soon after graduation.

### **14. External Examiner(s) reports**

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports for this programme can be found at [exampapers@Leicester](mailto:exampapers@Leicester) [log-in required]

## Programme Specification (Undergraduate)

FOR ENTRY YEAR: 2025/26

Date created: 17/12/2020

Last amended: 02/04/2025

Version no. 1

### Appendix 1: Programme structure (programme regulations)

The University regularly reviews its programmes and modules to ensure that they reflect the current status of the discipline and offer the best learning experience to students. On occasion, it may be necessary to alter particular aspects of a course or module.

BA Archaeology

**Level 4/Year 1      2025/26**

Credit breakdown

Status	Year long	Semester 1	Semester 2
Core	n/a	60 credits	60 credits
Optional	n/a	n/a	n/a

120 credits in total

Core modules

Delivery period	Code	Title	Credits
Sem 1	AR1004	An Introduction to World Archaeology BC	15 credits
Sem 1	AR1007	Archaeology: The Essentials	15 credits
Sem 1	AR1009	Practical Aims and Methods in Archaeology	15 credits
Sem 1	AR1012	Thinking through Things	15 credits
Sem 2	AR1005	An Introduction to World Archaeology AD	15 credits
Sem 2	AR1008	Using Archaeological Evidence	15 credits
Sem 2	AR1010	Making Sense of the Past (Critical Thinking in Archaeology)	15 credits

Delivery period	Code	Title	Credits
Sem 2	AR1013	Debates in Archaeological Heritage	15 credits

#### Notes

N/A

### Level 5/Year 2      2026/27

#### Credit breakdown

Status	Year long	Semester 1	Semester 2
Core	n/a	30 credits	15 credits
Optional	n/a	30 credits	45 credits

120 credits in total

#### Core modules

Delivery period	Code	Title	Credits
Sem 1	AR2044	Fieldwork I	15 credits
Sem 1	AR2036	Heritage Skills	15 credits
Sem 2	AR2029	Theory in Archaeology	15 credits

N/A

#### Option modules

#### SEMESTER 1

Delivery period	Code	Title	Credits
Sem 1	AR2008	Environmental Archaeology	15 credits
Sem 1	AR2031	Artefact Analysis	15 credits

Delivery period	Code	Title	Credits
Sem 1	AR2032	Neolithic, Bronze and Iron Age Britain and Ireland	15 credits

## SEMESTER 2

Delivery period	Code	Title	Credits
Sem 2	AR2028	Archaeological Survey & Geomatics	15 credits
Sem 2	AR2034	Living in Towns: Medieval and Post Medieval Archaeology	15 credits
Sem 2	AR2043	The Medieval Mediterranean World	15 credits
Sem 2	AR2046	Archaeology of the Roman Empire	15 credits

## Notes

This is an indicative list of option modules and not definitive of what will be available. Option module choice is also subject to availability, timetabling, student number restrictions and, where appropriate, students having taken appropriate pre-requisite modules.

## Level 6/Year Final 2027/28

### Credit breakdown

Status	Year long	Semester 1	Semester 2
Core	n/a	30 credits	30 credits
Optional	n/a	30 credits	30 credits

120 credits in total

### Core modules

Delivery period	Code	Title	Credits
Sem 1	AR3044	Fieldwork II (Summer Fieldwork)	15 credits

Delivery period	Code	Title	Credits
Sem 1	AR3059	Dissertation part 1 (BA and BSc Archaeology, BA Ancient History and Archaeology, BA History and Archaeology)	15 credits
Sem 2	AR3060	Dissertation part 2 (BA and BSc Archaeology, BA Ancient History and Archaeology, BA History and Archaeology)	30 credits

#### Notes

N/A

Option modules

#### SEMESTER 1

Delivery period	Code	Title	Credits
Sem 1	AR3076	Human Skeletal Analysis	30 credits
Sem 1	AR3085	The Archaeology of Colonialism in the Americas	15 credits
Sem 1	AR3092	Bodies and Beings of the Viking World	15 credits
Sem 1	AR3093	The Archaeology of Human Evolution	15 credits

#### SEMESTER 2

Delivery period	Code	Title	Credits
Sem 2	AR3070	Archaeology/Ancient History in Education	15 credits
Sem 2	AR3083	Conflict, Heritage and archaeology	15 credits
Sem 2	AR3094	Archaeology and Materials	15 credits
Sem 2	AR3095	Lived Experience in Imperial Rome	15 credits

#### Notes

This is an indicative list of option modules and not definitive of what will be available. Option module choice is also subject to availability, timetabling, student number restrictions and, where appropriate, students having taken appropriate pre-requisite modules.

## **Appendix 2: Module specifications**

See undergraduate [module specification database](#) [Login required] (Note - modules are organized by year of delivery).

## Appendix 3: Skills matrix

Programme specification appendix 3													
Skills matrix: BA Archaeology V400													
Date amended: January 2019													
Programme learning outcomes	AR1004-5 Introduction to world archaeology	AR1007 Archaeology the essentials	AR1008 Using Archaeological Evidence	AR1009 Practical Aims and Methods	AR1010 Making Sense of the Past	AR10XX Thinking Through Things	AR10XX Debates in Contemporary Archaeological Research	AR20XX(1) & AR3044 Fieldwork I and II	AR2029 Theory in Archaeology	AR2036 Heritage Skills	AR options level 2	Dissertation	AR options level 3
<b>(a) Discipline specific knowledge and competencies</b>													
(i) Mastery of an appropriate body of knowledge													
Demonstrate mastery of an appropriate body of archaeological knowledge	X	X	X	X	X	X	X	X	X	X	X	X	X
(ii) Understanding and application of key concepts and techniques													
Demonstrate understanding of the complexity of reconstructing the past, the problematic and varied nature of archaeological evidence.		X	X	X	X	X			X		X	X	X
