

Programme Specification (Undergraduate)

FOR ENTRY YEAR: 2022/23

Date created: 16/11/20 Last amended: 25/06/2025

Version no. 4

1. Programme title(s) and code(s):

BSc Business Economics

BSc Business Economics with a Year Abroad^

BSc Business Economics with a Year in Industry^

HE Diploma in Business Economics*

HE Certificate in Business Economics*

Notes

* An award marked with an asterisk is only available as an exit award and is not available for students to register onto.

^ Students may only enter this programme by approved transfer at the end of Year 1

a) [HECOS Code](#)

HECOS Code	%
100449	100%

b) UCAS Code (where required)

LN11

2. Awarding body or institution:

University of Leicester

3. a) Mode of study

Full-time

b) Type of study

Campus-based

4. Registration periods:

BSc Business Economics

The normal period of registration is 3 years

The maximum period of registration 5 years

BSc Business Economics with a Year Abroad

The normal period of registration is 4 years

The maximum period of registration 6 years

BSc Business Economics with a Year in Industry

The normal period of registration is 4 years

The maximum period of registration 6 years

5. Typical entry requirements

Three A levels normally considered as a minimum. Two AS levels or vocational AS levels will be considered in place of an A level. General Studies and Critical Thinking not accepted.

A/AS Levels: ABB or equivalent including GCSE Maths at grade B or grade 5.

Access to HE course: Pass kite-marked course with a substantial number of level 3 credits at distinction, normally a minimum of 30 with some in Business or Economics. Students should also have GCSE Maths grade B..

European Baccalaureate: Pass with 77% overall.

International Baccalaureate: Pass Diploma with 30 points and 5 in SL maths.

Cypriot Apolytirion: 18.5/20 overall including 17 in Maths, plus grade B in 1 A-level.

French Baccalaureat: 13/20 overall with 13 in Maths. Students taking the international option 12/20 overall with 13 in maths.

Lithuanian Brandos Atestatas: Pass with grade 8.5 overall.

Chinese first year degree course: Normally, Pass with an average of 85% with good grades in relevant subjects.

For those on the year in industry, see [additional programme specification content for Year in Industry programmes](#)

For the aims, learning outcomes and application criteria for the GCSA Year Abroad please see <https://le.ac.uk/study/undergraduates/courses/abroad>

6. Accreditation of Prior Learning

Direct entry into the second year may be possible for those with advanced qualifications strictly comparable with our degree structure.

7. Programme aims

The programme aims to:

- Provide a detailed knowledge, and critical awareness, of the main ideas, concepts, models and principles in economic analysis, and of their relevance to a variety of business and financial decision contexts; to develop quantitative and Communications and Information Technology skills, and the ability to apply these in business contexts.
- Develop skills in quantitative economic analysis through the use of standard mathematical and statistical techniques and their application to economic problems and data.
- Increase a graduate's marketability by: encouraging intellectual development, critical ability, research skills, communication skills and confidence in problem recognition, formulation and solution; and by promoting awareness of the general business and financial environment and current business issues.
- Prepare students for a wide range of careers such as government service, business management, financial services and postgraduate study in economics or a related area.
- Develop skills of written and oral presentation, team working, information handling, use of information technology and skills for lifelong learning.
- Provide students who enter the Year in Industry programme with opportunities to obtain relevant work experience and support them in developing a portfolio to demonstrate

learning outcomes. Also to enable these students to learn directly about business and the professional application of their studies.

For the aims, learning outcomes and application criteria for the GCSA Year Abroad please see link in section 5.

8. Reference points used to inform the programme specification

- QAA Benchmarking Statement
- Framework for Higher Education Qualifications (FHEQ)
- UK Quality Code for Higher Education
- [University Learning Strategy](#)
- [University Assessment Strategy](#)
- University of Leicester Periodic Developmental Review Report
- External Examiners' reports (annual)
- United Nations Education for Sustainable Development Goals
- Student Destinations Data

9. Programme Outcomes

Unless otherwise stated, programme outcomes apply to all awards specified in 1. Programme title(s).

a) Discipline specific knowledge and competencies

i) Mastery of an appropriate body of knowledge

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate knowledge of the main ideas, concepts, models and principles in underlying economic and business analysis and core issues in micro and macroeconomics.	Lectures and seminars and formative feedback particularly on the core modules EC1000, EC1001, EC2045, EC2046, EC3098, MN3104 and any of the management-related optional modules MN2120, MN2108, MN2110 and MN2116.	Demonstrated through the assignments delivered through the core modules identified.
Demonstrate knowledge of standard mathematical and statistical techniques and their application to economics and business.	Lectures, seminars and formative feedback particularly on modules EC1005, EC1007, EC1008, EC1009	Demonstrated through achieving a pass mark in the mid-term tests and then the final exam on the core mathematics and statistics modules in year 1 and 2.

ii) Understanding and application of key concepts and techniques

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Explain economic and business models and apply them appropriately.	Lectures, seminars and formative assessments across all modules across the programme.	Through exam performance but also in oral presentations and analyses of problem solving sets.

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Employ quantitative economic and business analysis.	Workshops held in computer labs designed to demonstrate to the 'how' in relation to economic quantitative modeling	Through assessment, in particular EC1009, EC2010 and EC2011.
Demonstrate the ability to apply economic/financial/mathematical theories and techniques in a work place setting (Year in Industry variant only).*	Developing the ability to apply economic/financial/mathematical theories and concepts to real world situations within the work environment (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).
*The extent to which a student will have the opportunity to do this will vary according to the type of placement.		

iii) Critical analysis of key issues

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Critically analyse economic and business arguments and relate them to current issues.	All modules across the programme and as part of on-going professional development but specifically on EC1025 and EC3004	Engagement in debates within lectures and seminars as formative assessment but also in summative assessments in particular the on-going reflective development of the Leicester Award and Leicester Award Gold and the Communicating Economics assignment.

iv) Clear and concise presentation of material

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Produce clear and concise economic and business arguments and models.	Years 1, 2 and 3: Lectures, tutorials, seminars, formative & summative feedback.	Assessed through a range of written reports and data analyses problem sets throughout years 1, 2 and 3.
Produce clear and concise quantitative analysis applied to business.	Intensity of the problem solving sets increases over the course of the programme to ensure knowledge is cumulatively developed, retained and operationalized.	Assessed through a range of written reports and data analyses problem sets throughout years 1, 2 and 3.
Write an extended original research report.	Developed through seminar classes and lectures in preparation for the assignment on EC3004	Attainment on EC3004 Communicating Economics assignment which is an extended independent piece of work.

v) Critical appraisal of evidence with appropriate insight

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Critically appraise relevant economic research including business.	Years 1, 2 and 3: Lectures, tutorials, seminars, formative & summative feedback.	Attainment in EC3004 Communicating Economics
Critically appraise the results from quantitative economic and business analysis.	Workshops and computer labs. Maths Support Sessions	

vi) Other discipline specific competencies

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
----------------------------	-------------------------------	-------------------

b) Transferable skills

i) Oral communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Prepare and present concepts, arguments or analysis orally.	Seminar and assessment support across all years of study. Content delivered through the engagement strategy including employability skills. Leicester Award and Leicester Award Gold provision. Scaffold approach to the format of assessment.	Formative: Contribution to tutorials and seminars. Summative assessment on EC1025, EC3004
Produce clear visual aids to accompany an oral presentation	Seminar and assessment support across all years of study. Content delivered through the engagement strategy including employability skills. Leicester Award and Leicester Award Gold provision. Scaffold approach to the format of assessment.	Formative: Contribution to tutorials and seminars. Summative assessment on EC1025, EC3004
Application of oral communication skills within the work environment and in presentation (Year in Industry variant only).	Developing oral communication skills in the work environment (Year in Industry variant only).	Reflective log and final report/presentation (Year in Industry variant only).

ii) Written communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Produce clearly written material with appropriate use of evidence	Year 1: Induction Programme and Study Skills Support material. Years 1, 2 and 3: Lectures, tutorials, seminars, formative & summative feedback, module handbooks.	Formative assessment, coursework, exams, Communicating Economics (EC3004).
Application of written communication skills within the work environment and in report writing (Year in Industry variant only).	Developing written communication skills in the work environment (Year in Industry variant only).	Reflective log and final report/presentation (Year in Industry variant only).

iii) Information technology

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Use word processing in the preparation of written work.	Year 1: Induction Programme and Study Skills Support material. Years 1 and 2: Computer classes Year 3: Communicating Economics Project	Formative: Contribution to computer classes. Summative: written reports and data analysis skills in relation to problem sets.
Use the internet to access appropriate information.	Year 1: Induction Programme and Study Skills Support material. Years 1 and 2: Computer classes Year 3: Communicating Economics Project	Formative: Contribution to computer classes. Summative: written reports and data analysis skills in relation to problem sets.
Use spreadsheets for data presentation and analysis.	Year 1: Induction Programme and Study Skills Support material. Years 1 and 2: Computer classes Year 3: Communicating Economics Project	Formative: Contribution to computer classes. Summative: written reports and data analysis skills in relation to problem sets.
Use specialist packages for statistical analysis.	Year 1: Induction Programme and Study Skills Support material. Years 1 and 2: Computer classes Year 3: Communicating Economics Project	Formative: Contribution to computer classes. Summative: written reports and data analysis skills in relation to problem sets.

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Application of information technology skills within the work environment and in presentation (Year in Industry variant only).	Developing IT skills in the work environment through project work and student portfolio (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).

iv) Numeracy

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Employ general numerical, mathematical and statistical skills.	Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes, formative & summative feedback.	Formative assessment, coursework, exams, Communicating Economics (EC3004)
Application of numeracy skills within the work environment (Year in Industry variant only).	Developing numeracy skills in the work environment through project work (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).

v) Team working

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate basic team working skills.	Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes.	Group-based coursework on EC1025, EC2011, EC2120 and in relation to the reflections as part of the Leicester Award and Leicester Award Gold.
Application of team building skills within the work environment (Year in Industry variant only).	Developing team building skills in the work environment through project work (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).

vi) Problem solving

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstrate problem formulation and solution.	Years 1, 2 and 3: Lectures, tutorials, seminars, formative & summative feedback. Maths Support Sessions	Formative assessment, coursework, exams and mid-term tests. In particular, problem sets and data analysis assignments are relevant.
Application of problem-solving skills within the work environment (Year in Industry variant only).	Developing problem solving skills in the work environment through project work and applying theories and concepts to real world situations (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).

vii) Information handling

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Find and use appropriate information from a variety of sources.	Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes, formative & summative feedback. Developed specifically through the on-line academic misconduct course embedded in EC1000.	Formative assessment, coursework, exams, Communicating Economics assignment.
Application of information handling skills within the work environment (Year in Industry variant only).	Developing data handling in the work environment through project work (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).

viii) Skills for lifelong learning

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Collect and apply new ideas and concepts.	Year 1: Induction Programme and Study Skills Support material. Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes, formative & summative feedback, module handbooks.	Formative assessment, coursework, exams, Communicating Economics assignment. Ability to hand-in work on time, arrive at exams prepared and anticipating challenge.
Combine new knowledge and techniques with prior understanding.	Year 1: Induction Programme and Study Skills Support material. Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes, formative & summative feedback, module handbooks.	Formative assessment, coursework, exams, Communicating Economics assignment. Ability to hand-in work on time, arrive at exams prepared and anticipating challenge.
Demonstrate and produce independent work.	Year 1: Induction Programme and Study Skills Support material. Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes, formative & summative feedback, module handbooks.	Formative assessment, coursework, exams, Communicating Economics assignment. Ability to hand-in work on time, arrive at exams prepared and anticipating challenge.
Demonstrate time management skills through adhering to deadlines.	Year 1: Induction Programme and Study Skills Support material. Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes, formative & summative feedback, module handbooks.	Formative assessment, coursework, exams, Communicating Economics assignment. Ability to hand-in work on time, arrive at exams prepared and anticipating challenge.

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Use a variety of sources of knowledge appropriately.	Year 1: Induction Programme and Study Skills Support material. Years 1, 2 and 3: Lectures, tutorials, seminars, computer classes, formative & summative feedback, module handbooks.	Formative assessment, coursework, exams, Communicating Economics assignment. Ability to hand-in work on time, arrive at exams prepared and anticipating challenge.
Demonstrate ability to learn in a different cultural environment (Year Abroad variant only).	Year Abroad variant only: Lectures, seminars, tutorials, feedback while studying in the host institution.	Year Abroad variant only: Exams and coursework in the host institution.
Application of a variety of employability and transferable skills (some outlined already above) within the work environment (Year in Industry variant only).	Developing a variety of employability and transferable skills through responsibilities associated with their work placement (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).
Demonstrate the ability to think reflectively about personal and professional development (Year in Industry variant only).	Developing a variety of employability and transferable skills through responsibilities associated with their work placement (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).
Demonstrate professional behaviour in the work environment (Year in Industry variant only).	Developing a variety of employability and transferable skills through responsibilities associated with their work placement (Year in Industry variant only).	Reflective log, skills audit, employer feedback and final report/presentation (Year in Industry variant only).

10. Progression points

This programme follows the standard Scheme of Progression set out in [Senate Regulations](#) – see the version of Senate Regulation 5 governing undergraduate programmes relevant to the year of entry.

For the aims, learning outcomes and application criteria for the GCSA Year Abroad please see link in section 5

For those on the year in industry, see [additional programme specification content for Year in Industry programmes](#)

In cases where a student has failed to meet a requirement to progress, he or she will be required to withdraw from the course

a) Course transfers

n/a

11. Criteria for award and classification

This programme follows the standard scheme of undergraduate award and classification set out in [Senate Regulations](#) – see the version of *Senate Regulation 5 governing undergraduate programmes* relevant to the year of entry.

12. Special features

- A four-day induction programme in the first week of Year 1.
- A formal employability skills development programme in year 1
- Study of core microeconomic and macroeconomic theory and applications at progressively rising levels of analytical and technical complexity.
- Provision of a broad range of optional modules that apply economic analysis, in diverse ways, to a variety of specialist subjects enabling students to focus on areas of interest.
- Academic supervision of an extended research project, in an economics-related topic of the students' own choosing, resulting in a professional-style written dissertation.
- The option of a four-year 'with a Year in Industry' degree programme (see below).

For the aims, learning outcomes and application criteria for the GCSA Year Abroad please see link in section 5.

13. Indications of programme quality

- University Academic Review
- External examiners reports
- First Destination careers statistics
- Exemptions from Business Economics professional exams with the Chartered Institute of Management Accountants (CIMA)

14. External Examiner(s) reports

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports for this programme can be found at exampapers@Leicester [log-in required]

Programme Specification (Undergraduate)

FOR ENTRY YEAR: 2022/23

Date created: 16/11/20 Last amended: 25/06/2025 Version no. 4

Appendix 1: Programme structure (programme regulations)

The University regularly reviews its programmes and modules to ensure that they reflect the current status of the discipline and offer the best learning experience to students. On occasion, it may be necessary to alter particular aspects of a course or module.

BSc Business Economics including with Year Abroad and Year in Industry

Level 4/Year 1 2022/23

Credit breakdown

Status	Year long	Semester 1	Semester 2
Core	30 credits	45 credits	45 credits
Optional	n/a	n/a	n/a

120 credits in total

Core modules

Delivery period	Code	Title	Credits
