UNIVERSITY OF LEICESTER

Programme Specification (Undergraduate)

Date amended: 13/02/2019, for students entering in 2017/18

1. Programme Title(s) and UCAS code(s):

BA Economics L100

BA Economics with a Year Abroad*

BA Economics with a Year in Industry*

*Students may only enter these degree programmes by transferring after the end of year 1

2. Awarding body or institution:

University of Leicester

3. a) Mode of study:

Full Time

b) Type of study:

Campus based

4. Registration periods:

BA Economics:

The normal period of registration is three years

The maximum period is five years

BA Economics with a Year Abroad /Year in Industry:

The normal period of registration is four years.

The maximum period of registration is six years.

5. Typical entry requirements:

Three A levels normally considered as a minimum. Two AS levels or vocational AS levels will be considered in place of an A level. General Studies and Critical Thinking not accepted.

A/AS Levels: For BA degrees, ABB or equivalent including Maths GCSE level grade B. For BSc degrees ABB or equivalent including Maths A-Level grade B.

Access to HE course: Pass kite-marked course with a substantial number of level 3 credits at distinction, normally a minimum of 30 with some in Business or Economics. Students should also have GCSE Maths grade B for the BA or A-level Maths Grade B for the BSc.

European Baccalaureate: Pass with 77% overall for BA. Pass with 77% overall including 80% in Maths for BSc.

International Baccalaureate: Pass Diploma with 30 points and 5 in SL maths for BA. Pass with 30 points and 5 in HL Maths for BSc.

Cypriot Apolytirion: 18.5/20 overall including 17 in Maths, plus grade B in 1 A-level. For BSc, additional A-level needs to be in Maths.

French Baccalaureat: 13/20 overall with 13 in Maths for the BA only. Students taking the international option 12/20 overall with 13 in maths for the BA and 13 in Advanced maths for the BSc.

Lithuanian Brandos Atestatas: Pass with grade 8.5 overall, 75% on maths state exam is also required for the BSc.

Chinese first year degree course: Normally, Pass with an average of 85% with good grades in relevant subjects plus mathematics equivalent to A level grade B for BSc.

6. Accreditation of Prior Learning:

Direct entry into the second year (including the Year Abroad and Year in Industry programmes) may be possible for those with advanced qualifications strictly comparable with our degree structure.

7. Programme aims:

The programme aims to:

- Provide a detailed knowledge, and critical awareness, of the main ideas, concepts, models and principles in economic analysis, and their application to contemporary economic policy issues through the study of core microeconomic and macroeconomic theory, and numerous optional modules.
- Develop skills in quantitative economic analysis through the use of standard mathematical and statistical techniques and their application to economic problems and data.
- Prepare students for a wide range of careers such as government service, business management, financial services and postgraduate study in economics or a related area.
- Develop skills of written and oral presentation, team working, information handing, use of information technology and skills for lifelong learning.
- Provide students following the BA in Economics with a Year Abroad programme the experience of learning in a different cultural environment.
- To provide students following the BA Economics with a Year in Industry programme with
 opportunities to obtain relevant work experience and support them in developing a portfolio to
 demonstrate learning outcomes. Also to enable these students to learn directly about business
 and the professional application of their studies.

8. Reference points used to inform the programme specification:

Application of a variety of employability and transferable skills (some outlined already above) within the work environment (Year in Industry variant only).		
Demonstrate the ability to think reflectively about personal and professional development (Year in Industry variant only).		
Demonstrate professional behaviour in the work environment (Year in Industry variant only).		

10. Progression points:

Senate Regulation 5: Regulations governing undergraduate programmes of study:

http://www2.le.ac.uk/offices/sas2/regulations/documents/senatereg5-undergraduates

In order to proceed to the second year of their studies, students must have passed, with a mark of at least 35% (and an overall credit weighted average of 40% during the year), all core modules. It should be noted that no first year students can proceed and resit.

In order to proceed to the third year of their studies, students must have passed, with a mark of at least 35% (and an overall credit weighted average of 40% during the year), all core modules. It should be noted that no second year student can proceed and resit any of the following modules: EC2012, EC2013.

Year Abroad variant: Students may only enter this degree programme by transferring after the end of their first-year. The condition for admission to the scheme will be an average mark of no less than 55% in year one. Students who meet these conditions will be invited to apply at the end of their first year of studies, following the Department's June Exam Board. Students will then be expected to maintain average marks of no less than 60% in the first semester of their second year, and that they do not have any failed modules across the second year as a whole. Progression decisions made at

the end of semester one should be treated as 'provisional' (as with assessments) and subject to confirmation by the Exam Board in the summer. This will include exceptional cases too.

Year in Industry variant: Students may only enter this variant by transferring at the end of the first-year. The condition for admission to the scheme will be an average mark of no less than 55% in year one, with no failures. Students who meet these conditions will be invited to apply at the end of their first year of studies, following the Department's June Exam Board.

11. Scheme of Assessment:

The programme follows the standard scheme of award and classification set out in Senate Regulation 5.

12. Special features:

- A four-day induction programme in the first week of Year 1.
- A formal employability skills development programme in year 1
- Study of core microeconomic and macroeconomic theory and applications at progressively rising levels of analytical and technical complexity.
- Provision of a broad range of optional modules that apply economic analysis, in diverse ways, to a variety of specialist subjects enabling students to focus on areas of interest.
- Academic supervision of an extended research project, in an economics-related topic of the students' own choosing, resulting in a professional-style written dissertation.
- The option of a four-year 'with a Year Abroad' degree programme, with a third year spent studying at an overseas partner University either in a foreign language or in English (see below).
- The option of a four-year 'with a Year in Industry' degree programme (see below).

13. Indications of programme quality:

- University Academic Review
- External examiners reports
- First Destination careers statistics
- Exemptions from professional exams (subject to satisfactory completion of certain core or optional modules):
- Association of Chartered Certified Accountants (ACCA)
- Chartered Institute of Management Accountants (CIMA)
- Institute of Chartered Accountants
- Chartered Institute of Public Finance & Accountancy (CIPFA)
- Institute of Actuaries
- Chartered Insurance Institute

14. External Examiners:

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports can be found here.

BA Economics with a Year Abroad

Students may only enter this course by meeting the criteria outlined above in section 10.

FIRST AND SECOND YEAR MODULES

As for the first and second year of BA Economics.

THIRD YEAR MODULES

- 1) Students will spend one academic year studying at one of our overseas partner Institutions between the second and final years of their degree programme.
- 2) During their placement students are expected to undertake modules worth the equivalent of 120 credits at the University of Leicester. For European Institutions this is normally equal to at least 40 ECTS credits, and for Universities elsewhere in the world this is normally equivalent to eight academic modules.
- 3) Modules selected during the year abroad must be approved by the School of Business and must be in subject areas relevant to a students' degree programme. The selected modules cannot be identical to those that have already been studied, or will be studied upon returning to Leicester for the final year.
- 4) Students who do not satisfactorily complete their year studying abroad will be transferred to the non-Year Abroad degree path for their final year.
- 5) Students will have up until the end of the second week of the first term of their third year to transfer to the non-Year Abroad degree voluntarily. After this point students who are not able to complete their year abroad will re-join the non-Year Abroad degree in the following year.

FOURTH YEAR MODULES

As for the third year of BA Economics.

BA Economics with a Year in Industry

Students may only enter this course by meeting the criteria outlined above in section 10.

FIRST AND SECOND YEAR MODULES

As for the first and second year of BA Economics.

THIRD YEAR MODULES

- 1) Students will work within a sponsoring company for a minimum of 9 months between 1 July of the second year of their course and the start of the following academic year.
- 2) During their placement students will undertake a programme of training and practical experience which will be agreed by the sponsoring company and the University.
- 3) During the placement students' progress will be monitored through a variety of activities including the maintenance of a regular log. Students will complete a report and will be expected to make a presentation towards the end of their placement. The report and presentation are requirements for the awarding of the degree but are not part of the formal assessment for the degree.
- 4) Students who do not satisfactorily complete their industrial placement year will be transferred to the non-Industry degree path.
- 5) Students will have up until the end of the second week of the first term to transfer to the non-Industry degree voluntarily. After this point students who are not able to complete their year in industry will re-join the non-Industry degree in the following year.

FOURTH YEAR MODULES

As for the third year of BA Economics.
