

- Programme Title(s) and UCAS code(s): BA (Hons) Human Geography L720 BA (Hons) Human Geography with a year abroad* BA Human Geography with a Year in Industry*
- * Selected when on course

2. Awarding body or institution:

University of Leicester

3. a) Mode of study:

Full time

b) Type of study:

Campus-based

4. Registration periods:

The normal period of registration is three years

The maximum period of registration is five years

BA (Hons) Human Geography with a year abroad and BA (Hons) Human Geography with a Year in

Industry)

The normal period of registration is four years

The maximum period of registration is six years

5. Typical entry requirements:

ABB A level. Any three A levels usually required; Geography is not required. Two AS levels can be considered in place of one A level towards the total. General Studies accepted. BBB + EPQ at grade B, two AS-levels considered in place of one A-level. Key Skills also welcome.

International Baccalaureate: Pass Diploma with 32 points

6. Accreditation of Prior Learning:

APL will not be accepted for exemptions from individual modules, however may be considered for direct entry to year 2, on a case by case and subject to the general provisions of the University APL policy.

7. Programme aims:

The BA in Human Geography aims to:

 present a contemporary view of the world drawing on the breadth of the many geographical traditions with an emphasis on Human Geography but also to include some consideration of Human/Environment interaction;

- place geography at the core of modern discourses about the world and the events which are taking place in it;
- provide an intellectually challenging and stimulating curriculum that draws on the research expertise of staff in the department and enables students to develop in-depth knowledge and understanding of specialised areas of human geography;
- develop students' awareness of space and the world, and formulate geographical explanations for the phenomena they encounter;
- develop students' abilities to explore varied modes of geographical theories, techniques and concepts to analyse and explain the modern world;
- develop students' abilities to use and apply appropriate field, statistical and social survey methods to analyse issues from a geographical perspective; and
- provide a learning experience in which students can develop and demonstrate a range of transferable skills necessary for effective independent learning; career and personal development.
- provide opportunities to develop employability skills, and career and personal development planning.

The BA in Human Geography with a Year Abroad aims, additionally, to:

- Widen students' experiences of worldwide Geography, the physical experience of social society and environmental place
- Expose students to specialist elements of Geography that may not be taught at Leicester;
- Deepen students' understanding of Geography through exposure to its ideas at a senior level for an additional year.

The BA Human Geography with a Year in Industry aims, additionally, to:

• Provide experience of applications of geography and other professional skills in Industry and to reinforce knowledge through their use in different environments

8. Reference points used to inform the programme specification:

• QAA Frameworks for Higher Education Qualifications in England Wales and Northern Ireland

- QAA Benchmark statement for Geography 2014
- PDR report (May 2015)
- University Learning Strategy
- University Employability Strategy
- University of Leicester Academic Audit Evaluation
- NSS (2016)
- First Destination Survey
- External Examiner's Reports

9. Programme Outcomes:

Intended Learning Outcomes (a) Dis	Teaching and Learning Methods cipline specific knowledge and co	How Demonstrated?
	Nastery of an appropriate body of kr	-
Demonstrate an appropriate body of geographical knowledge including patterns and processes of human and environmental interactions.	Lectures, tutorials, seminars, computer-aided learning and computer-based practicals, laboratory based practicals, directed readings, independent research, student centered learning, presentations and discussion.	Essays, essay-based examinations, dissertations, presentations, contributions to discussion, practical reports, objective testing, problem- based exercises, field & lab notebooks, review papers, bibliographies

source materials.					

Intended Learning	Teaching and Learning	How Demonstrated?
Outcomes	Methods	
-	vi) Other discipline specific compete	
Conduct an independent piece of geographical research from problem formulation to evidence collection, result presentation and discussion.	Dissertations; group and independent research. Field courses, computer practicals, laboratory practicals, lectures.	Dissertations; group and independent research.
Use specialised techniques and approaches for the collection, interpretation and explanation of geographical processes and information.	Dissertations; group and independent research. Field courses, computer practicals, laboratory practicals, lectures.	Field reports, group and independent research; dissertations; tutorials; objective testing; laboratory reports.
Use specialised techniques and approaches for the presentation of geographical information.	Dissertations; group and independent research. Field courses, computer practicals, laboratory practicals, lectures.	Field reports, group and independent research; dissertations; design, mapping and visualization tasks.
	(b) Transferable skills	
	(i) Oral communication	
Demonstrate clear, fluent and coherent oral expressions of geographical issues.	Seminars, tutorials, field courses.	Seminar and tutorial presentations, contributions to discussions.
Participate effectively in group discussions of geographical issues.	Seminars, tutorials, field courses.	
	(ii) Written communication	
Present coherent and fluent geographical arguments in a variety of written formats.	Seminars, tutorials, group working.	Essays, essay-based examinations, dissertations, practical reports.
	(iii) Information technology	
Use information technology in general, and geographical information systems in particular to explore and analyse geographical concepts and information.	Induction programme, computer practical classes and independent research.	Computer-based exercises. Independent research, dissertation, problem solving exercises, essays, web pages, posters, group reports.
Use IT to effectively support geographical studies, including the use of IT for bibliographic research, and written and visual presentation of information.	Computer practical classes, group and independent research.	
	(iv) Numeracy	
Use statistical and graphic techniques to explore, analyse and visualise geographical concepts.	Lectures; computer practical classes, independent research	Computer-based exercises. Independent research, dissertation,
	(v) Team working	
Work effectively and collaboratively in teams to collectively explore geographical concepts and tasks.	Tutorials, seminars, team problem solving, field courses.	Seminar and tutorial working, problem solving exercises.

Intended Learning	Teaching and Learning	How Demonstrated?
Outcomes	Methods	
	(vi) Problem solving

	directed study.	independent research.

10. Progression points:

A key progression point is the requirement to pass the dissertation proposal for GY2414 before progression to GY3420 can be considered. An opportunity to resit is allowed in July; a further fail at this point will result in a resit without residence, with no immediate progression to Year 3. Further failure will trigger a withdrawal from the course. In all other respects, progression follows Senate Regulation 5.

For Year in Industry Variant:

Progression onto the Year in Industry placement preparation module will require a 1st year CWA of 50%. Students who undertake the placement preparation module, but do not obtain a placement or do not satisfactorily complete (attendance, participation and completion of set tasks) the placement year will be transferred to the standard degree programme.

11. Scheme of Assessment

The programme follows the standard scheme of award and classification set out in <u>Senate Regulation</u> <u>5</u>.

12. Special features:

Study in the field remains an integral part of the geography curriculum and the department runs field

courses to a number of destinations around the world. Staff are engaged in internationally recognised research in the three principal areas of geography: Human Geography, Physical Geography, and Earth Observation and Geographical Information Science, specialising in Environment and Social Justice, Everyday Geopolitical Lives, Planetary Urban and Rural Transformations, forests and Peatlands and Environmental Processes and Change.

<u>Placements</u>

Students undertake a year in industry between the second and third years of their programme. Progression onto the Year in Industry placement preparation module will require a 1st year CWA of 50%. Students who undertake the placement preparation module, but do not obtain a placement or do not satisfactorily complete (attendance, participation and completion of set tasks) the placement year will be transferred to the standard degree programme.

As a condition of the 'with Industry' programme, students are required to undertake preparatory training during the second year of their degree.

Students are responsible for securing their own placement but will receive support in this from the Career Development Service. .

Once in placement, students will need to register their University 'attendance' by logging on to a dedicated Blackboard site once a week. In the course of the placement the student will receive one or two visits from a member of staff. The second 'visit' can be in the form of a Skype call. Should a student secure an overseas placement both visits will typically be delivered via a Skype call.

While in placement, students will be required to complete an online log. The placement log requires students to undertake reflective activities which are marked on a pass/fail basis. This, together with the final summative reflective report, constitutes the assessment for the placement year. Students have to submit the final report within one month of finishing the placement, and are allowed to resubmit once if required.

If a student fails to secure a placement or does not meet the academic progression requirements at the end of year 2, they will be transferred to the non-industry variant of their degree programme.

13. Indications of programme quality

External Examiner's reports have repeatedly praised the breadth of the education, the range of assessment types and the dedication of the staff.

14. External Examiners

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports can be found <u>here</u>.

BA HUMAN GEOGRAPHY

FIRST YEAR MODULES

SEMESTER 1

Core Modules

Modules		Credits
GY1411	HUMAN GEOGRAPHY FOR A GLOBALIZED WORLD	15
GY1423	EXPLORING OUR DIGITAL PLANET	15
GY1422	STUDY SKILLS FOR PROFESSIONAL GEOGRAPHERS (BA Human and BSc Physical)	15

Optional Modules

Up to 15 CREDITS OF APPROVED OPTIONAL MODULES SELECTED FROM

SPANISH LANGUAGE (BEGINNERS) (TBC)	15
FRENCH LANGUAGE FOR BEGINNERS 1 (TBC)	15
SOCIOLOGY: A BEGINNERS GUIDE	15
POWER, PRIVILEGE AND DIVERSITY	15
COLD WAR, CRISIS AND CONFRONTATION: International Relations 1945-89	15
	FRENCH LANGUAGE FOR BEGINNERS 1 (TBC) SOCIOLOGY: A BEGINNERS GUIDE POWER, PRIVILEGE AND DIVERSITY

Semester Total 60

Credits

SEMESTER 2

Core Modules

GY1413	HUMAN GEOGRAPHY FIELD COURSE: THE DYNAMICS OR PEOPLE AND PLACE	15
GY1412	ENVIRONMENT/NATURE/SOCIETY	15
GY1421	WORKING WITH GEOGRAPHICAL INFORMATION	15

Optional Modules

Up to 15 CREDITS OF APPROVED OPTIONAL MODULES SELECTED FROM

	Semester Total	60
PL1016	ORDER AND DISORDER: INTERNATIONAL RELATIONS FROM 1989 TO THE PRESENT	15
SY1019	WE ARE WHAT WE BUY, CONSUMPTION, SELF AND IDENTITY	15

BA HUMAN GEOGRAPHY WITH A YEAR ABROAD

MIGRATION, PLACE AND DIVERSITY

GEOGRAPHICAL INFORMATION SCIENCE

DISSERTATION: PREPARING FOR PUBLICATION

FIRST, SECOND AND FOURTH YEAR MODULES

Regulations for the first and second year are the same as for BA degree in Human Geography. Regulations for the fourth year of the course are the same as for the third year of the BA degree in Human Geography.

Approved institutions for Geography include those listed at http://www2.le.ac.uk/offices/international/overseas-

THIRD YEAR MODULES

GY3415

GY3422

GY3426

The third year will be spent abroad in the USA, Canada, Finland, Spain, Germany and the Netherlands taking approved courses in one of the institutions associated with the Department of Geography. Level 3 modules from the Geography and Environmental Sciences Departments of the host Institution, plus introductory language modules, to the same overall credit value per year as Leicester. A small proportion of modules in other subjects may be taken by prior agreement of the International Officer in the Department of Geography, University of Leicester. Students will be required to reach a prescribed level of attainment in the work done abroad (a pass in Leicester terms according to the mark translation). Any student failing the year abroad component will revert back to the standard Leicester variant of their degree.

Appendix 2: Module specifications
