Year in Industry

[In addition, for the Year in Industry' variants the additional programme outcomes apply](#)

#### 10. Progression points:

[Senate Regulation 5: Regulations governing undergraduate programmes of study.](#)

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.

#### Year Abroad

##### Application to Transfer from BA International Relations to BA International Relations with a Year Abroad

Students are invited to apply at the end of their first or second year to transfer to the BA International Relations with a Year Abroad.

##### Progression from 2<sup>nd</sup> year to year abroad

Students may progress to the year abroad with no more than 30 credits of failed modules in year 2. Good attendance and observation of academic obligations must continue to be maintained throughout year 2. Failure to do so may result in the opportunity to study abroad being withdrawn and the student being transferred to the BA International Relations (without year abroad) or withdrawn from the course entirely.

For the year abroad year students are required to complete the equivalent of 60 ECTS if studying at a European partner institution.

For a student to progress to the final year of the BA with a Year Abroad programme the following will apply:

i) If the student is studying and being assessed in a foreign language he/she has to pass at least half of his/her second semester modules in the partner institution. This requirement emphasises that the year abroad is to be taken seriously as a period of study but is not so onerous as to negatively impact students on this programme. If a student has failed to pass half the credits in his/her second semester during the year abroad, including resit options as per the partner institution's rules, by the September Board of Examiners, the Board will consider whether the student should have to transfer on to the BA International Relations (without year abroad) for their final year, taking their overall attendance and observation of academic obligations into consideration.

ii) If the student is studying and being assessed in English he/she has to achieve an average of 50% for the whole year. If a student has failed to achieve an average of 50% for the year, including resit options as per the partner institution's rules, by the September Board of Examiners, the Board will consider whether the student should have to transfer on to the BA International Relations (without year abroad) for their final year, taking their overall attendance and observation of academic obligations into consideration.

iii) If the student is studying and being assessed in a combination of English and a Foreign Language the progression rules used will be based on the language used to teach the majority of modules. Therefore, if the majority of modules are taught in English the rules described in ii) above will apply, and if the majority of modules are taught in a Foreign Language the rules described in i) above will apply.

The year abroad will not contribute towards the overall classification, and will therefore be assessed on a pass or fail basis.

### **Year in Industry**

For the Year in Industry variant, the [additional progression points apply](#)

## **11. Scheme of Assessment**

Scheme of Assessment: This programme follows the standard scheme of award and classification set out in [Senate Regulation 5](#).

## **12. Key/extra features:**

Students' learning experience is enhanced by the School's strong commitment to developing synergy between its research and teaching activities.

Students may apply to transfer to the BA International Relations with a Year Abroad after successful completion of the first year and subsequent successful completion of the second year.

The BA International Relations with a Year Abroad provides for students spending their third year at one of our partner institutions and then returning to Leicester for their final year.

For the Year in Industry variant, [the additional Special Features apply](#)

## **13. Indications of programme quality**

External Examiners' reports have consistently praised the programme, highlighting the range of modules and variety of assessment methods.

## **14. External Examiner(s) reports**

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports can be found [here](#). For the major/minor variant of this programme, these are to be included following receipt of first report.

### **THIRD YEAR (YEAR ABROAD)**

The third year will be spent abroad either taking approved courses amounting to 120 Leicester credits in an institution associated with the School of History, Politics and International Relations under the Erasmus framework student mobility programme, (European institutions), or under the University's Study Abroad programme (institutions outside the European Union). Students will be required to complete the approved courses satisfactorily. Passing examinations in those courses shall be regarded as evidence of the students having completed them satisfactorily. Students who, in the opinion of the Board of Examiners, have not satisfactorily followed the approved courses at the overseas institution will not normally be allowed to proceed to the final year of the course, but may be permitted to transfer to the final year of BA International Relations without year abroad.

The year abroad will not contribute towards the overall classification, and will therefore be assessed on a pass or fail basis.
