10. Progression points:

Students are required to complete 120 credits of taught modules delivered over two semesters each academic year (a total of 60 credits must be studied in each semester).

The rules governing progression are defined in <u>Senate Regulation 5</u>: Regulations governing undergraduate programmes of study. Legal foundation modules must be passed at 40%.

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the programme.

11. Scheme of Assessment

This programme follows the standard scheme of award and classification set out in <u>Senate</u> <u>Regulation 5</u>, with one exception. The Quality and Standards Sub Committee has approved a dispensation from SR 5.32 for the purposes of this programme. Under this dispensation student are required to achieve 40% in modules to the value of 195 credits or greater.

12. Special features:

The JD Pathway LLB provides an opportunity for graduates of another discipline (i.e. not law) to achieve a degree in law over two years, which constitutes a qualifying law degree for the purpose of exemption from the first stage of professional training in England and Wales. Such a qualification is also exportable. These students will be more mature and have a broader range

of skills and knowledge from their previous educational experience, adding to the quality and diversity of the overall student body. The target market includes international graduates (notably from Canada) wishing to undertake an LLB rather than the one year conversion course. This is a most effective method of conversion of non-law graduates to the equivalent of law graduate status. The programme is condensed to comprise the seven legal foundation subjects plus 2 modules on Canadian Law.

13. Indications of programme quality

- External examiners' reports
- Degree results and career destination statistics
- Annual Development Review reports
