In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.

#### 11. Criteria for award and classification

This programme follows the standard scheme of undergraduate award and classification set out in [Senate Regulations](#) – see the version of *Senate Regulation 5 governing undergraduate programmes* relevant to the year of entry. Note: legal foundation modules must be passed at 40%.

#### 12. Special features

The LLB Graduate Entry provides an opportunity for graduates of another discipline (i.e. not law) to achieve a degree in law over two years, which constitutes a qualifying law degree for the purpose of exemption from the first stage of professional training in England and Wales. Such a qualification is also exportable. These students will be more mature and have a broader range of skills and knowledge from their previous educational experience, adding to the quality and diversity of the overall student body. The target market includes Home/EU graduates and international graduates wishing to undertake an LLB rather than the one year conversion course. This is a most effective method of conversion of non-law graduates to the equivalent of law graduate status.

##### 12a. Research-inspired Education

**Students on this programme will advance through the four quadrants of the University of Leicester Research-inspired Education Framework as follows:**

RiE Quadrant	Narrative
<b>Research-briefed</b>  Bringing staff research content into the curriculum.	<p>The programme provides students with a comprehensive and academically rigorous legal education. It provides students with the necessary legal knowledge and transferable skills (legal reasoning, critical thinking, writing, research, and problem solving) to pursue a career as a legal professional or in a variety of other professions. The programme is research-informed in the following ways:</p> <ul style="list-style-type: none"> <li>Research briefed: Students will be exposed to thought-provoking and challenging learning, informed by and drawing upon seminal and contemporary legal research, including research conducted by experts at Leicester Law School.</li> </ul>

**As part of studying at a research-intensive university, students on this programme have the following extra or co-curricular opportunities available to them to gain exposure to research culture:**

Students are exposed to the research culture of the Law School within the curriculum; many academic staff produce internationally-leading and world-leading research that is embedded within the curriculum. Extra-curricularly, students are able to attend inaugural lectures, and final year students are invited to talks and events, by internal and external speakers, relevant to their optional modules.

**Teaching on this programme will be research-informed (it draws consciously on systematic inquiry into the teaching and learning process itself) in the following way:**

The School supports all staff involved in teaching to gain an accredited Higher Education teaching qualification, in which they demonstrate their use of teaching theory to support their own practice and reflect on their current teaching and continuing professional development.

Teaching on this programme is research-informed in two ways. First, a proportion of academic staff are involved in the production of internationally-leading and world-leading pedagogical research, which is shared with colleagues and, where relevant and appropriate, incorporated into the learning and teaching methods employed throughout the curriculum. Secondly, the Law School hosts away-days and workshops to support the pedagogical development of academic staff and their teaching and learning materials. These events include a legal education research cluster, a 'teaching club' where staff discuss and share best pedagogical practices and recent developments, and talks from external educational leaders.
