# Appendix 1: Programme structure (programme regulations)

There are two main pathways through the language modules on this programme: One for students with welldeveloped abilities in a language other than English and their native language, and one for students without such abilities. The former group of students take the programme with advanced language skills; the latter group of students take the programme *ab initio*. For example, an advanced French student will take FR1010 Advanced French Language in year 1, followed by FR2010 Post-Advanced French Language in year 2. A beginners level student will take FR1020 French Beginners and FR1021 French Beginners in year 1 followed by FR2018 French Post-Beginners in year 2. These students will be taught together in final year language groups. The same pattern applies to other languages. Please see the diagrams below.

**Note:** Modern Languages optional modules are listed below each year. Optional modules may be subject to change from year to year.

Students may study one or two languages in year 1, only one of which may be at Beginners level In Year 2 students may opt to continue with their two languages, or may choose to study one only.
