Programme Specification (Undergraduate) FOR ENTRY YEAR: 2025/26

Date created: 02/03/2017 **Last amended:** 04/04/2025 **Version no.** 1

1. Programme title(s) and code(s):

BA Sociology

BA Sociology with a Year Abroad^

^ Students may only enter this programme by approved transfer at the end of Year 1

a) HECOS Code

HECOS Code	%
100505	100%

b) UCAS Code (where required)

L300

2. Awarding body or institution:

University of Leicester

3. a) Mode of study

Full-time

b) Type of study

Campus-based

4. Registration periods:

BA Sociology

The normal period of registration is 3 years

The maximum period of registration 5 years

BA Sociology with a Year Abroad

The normal period of registration is 4 years

The maximum period of registration 6 years

5. Typical entry requirements

A/AS-levels: BBB or equivalents

6. Accreditation of Prior Learning

There are no specific pre-requisites here; however, the following guidelines set out by the University Policy and Procedure for the Accreditation of Prior Learning (APL) (August 2015) apply in the case of requested transfers:

Decisions regarding the accreditation of prior learning are an academic judgement and departments will determine whether the prior learning is at the required level and broadly equivalent to the learning outcomes which would have been assessed during a module.

Departments will determine the currency of prior learning on a case by case basis within an overall requirement that, at the time of application, any prior learning which is more than five years old will not normally be considered current for this purposed

7.   Programme aims

The BA Sociology aims to deliver an undergraduate degree that will provide a challenging and high quality academic grounding for graduates moving into an increasingly challenging world of work. It seeks to do this by encouraging students to develop a critical understanding of society, informed by theoretical debates and research at the forefront of the discipline. It aims to facilitate opportunities for students to develop their conceptual understanding in order that they are able to critically evaluate research, scholarship, and different policies and practices that impact upon contemporary society, and apply the knowledge gained from this to their own future practice.

The **programme** aims to:
- Develop an understanding of the key concepts and theoretical approaches that have developed and are developing in relation to areas such as the relationship between
- individuals and groups, social action and social structure, biography and history, social institutions and culture, the underpinnings of social order, social inequality and conflict, diverse cultural practices, and the causes and consequences of social change.
- An understanding of the distinctively social standpoint of sociology and the explanatory value of social analysis. This necessarily includes familiarity with the analysis of a variety of forms of human interaction, from micro to macro, their interconnections and their dynamics.
- An understanding of the nature and appropriate use of research strategies and methods in relation to social issues.
- Provide a rigorous, coherent and attractive sociology curriculum that draws on the Department's research expertise and teaching strengths;
- Provide a stimulating and challenging learning experience for all students;
- Provide students with the skills required for independent learning and develop their capacity to work both with others and autonomously.
- Provide students with a range of both subject specific and transferable skills relevant to life- long learning and employment in a range of occupations;
- Prepare students for progression to Masters' courses and Ph. D. programme

In addition, for the 'with a Year abroad' variants:

Global Citizen Study Abroad (GCSA)

For the aims, learning outcomes and application criteria for the GCSA Year Abroad please see https://le.ac.uk/study/undergraduates/courses/abroad

8.   Reference points used to inform the programme specification

- QAA Frameworks for Higher Education Qualifications
- QAA Benchmarking statement for Sociology
- UK Quality Code for Higher Education
- University Education Strategy
- University Assessment Strategy [Login required]
- University of Leicester Periodic Developmental Review Report
- External Examiners' reports (annual)
- United Nations Education for Sustainable Development Goals

- Student Destinations Data

9. Programme Outcomes

a) Discipline specific knowledge and competencies

i) Mastery of an appropriate body of knowledge

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
The mastery of an appropriate body of sociological knowledge	Lectures, seminars, resource-based learning, problem-solving exercises, consultations with staff, and private study	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

ii) Understanding and application of key concepts and techniques

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Comprehension of key concepts used in sociological analysis and the nature of social evidence	Lectures, seminars, computer practical classes, team problem-solving exercises, consultations with staff, and private study	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework
A grasp of the main research methods used in sociological investigation	Seminars, computer practical classes, team problems solving-exercises, consultations with staff	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

iii) Critical analysis of key issues

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to analyze key theoretical issues in sociology	Lectures, seminars, directed reading, team problem-solving exercises, consultations with staff	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework
Ability to analyze key substantive issues in the study of societies, their development and processes of social change	Lectures, seminars, directed reading, team problem-solving exercises, consultations with staff	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to analyze key issues in the use of sociological methods	Lectures, seminars, directed reading, team problem-solving exercises, consultations with staff	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework
Ability to reflect critically on the nature of sociology as a discipline	Lectures, seminars, directed reading, team problem-solving exercises, consultations with staff	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

iv) Clear and concise presentation of material

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to present sociological knowledge and arguments in a clear and concise way in a variety of written and oral formats	Feedback on oral and written contributions to seminars, problem-solving exercises, consultations with staff	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

v) Critical appraisal of evidence with appropriate insight

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to assess the appropriateness of the evidence and the methods used in sociological studies, their value and their limitations	Seminars, directed reading, team problem-solving exercises,	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework
Ability to read, analyze and reflect critically and contextually upon sociological texts	Seminars, directed reading, team problem-solving exercises,	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

vi) Other discipline specific competencies

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to design, research and present a sustained and independently conceived piece of sociological work	Supervised independent research	Research Project

b) Transferable skills

) Oral communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Demonstration of clarity, fluency and coherence in oral expression	Seminars, team problem- solving exercises	Single and group seminar presentations, contributions to discussions
Effective participation as sociologists in group discussions	Seminars, team problem- solving exercises	Single and group seminar presentations, contributions to discussions

i) Written communication

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to develop and sustain sociological arguments in a variety of written forms	Seminars and Workshops	Essays, examinations, portfolios, and research projects
Ability to demonstrate clarity, fluency and coherence in written expression of sociological ideas	Seminars and Workshops	Essays, examinations, portfolios, and research projects

ii) Information technology

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Capacity to: use IT to support effectively their sociological studies;useITin word processing; use the internet; use data bases, spreadsheets, specialist packages for data analysis, and presentation	Class task programme, computer practical classes, lectures, seminars	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

iii) Numeracy

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to analyze interpret, and present relevant data using statistical and graphical techniques	Class task programme, computer practical classes, lectures, seminars	Computer practical classes, computer- based exercises, problem - based exercises, examinations, essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

iv) Team working

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to form teams and work collaboratively in groups to explore sociological problems and to recognize the value of working closely with others	Seminars, team problem solving exercises	Problem - based exercises, group presentations in seminars

v) Problem solving

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to address and analyze theoretical, methodological, and empirical problems posed by sociological literature and practice	Seminars, team problem solving exercises	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

vi) Information handling

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Ability to identify, comprehend, analyze and handle sociological information	Lectures, seminars, team problem-solving exercises, directed reading, computer practical classes, team problems solving exercises	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

vii) Skills for lifelong learning

Intended Learning Outcomes	Teaching and Learning Methods	How Demonstrated?
Intellectual independence in the setting of research tasks and the analyzing of sociological questions	Fostering independent learning and self-evaluation through consultations and feedback sessions	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework
Capacity for time management and self-organization	Fostering independent learning and self-evaluation through consultations and feedback sessions	Essays, examinations, portfolios, seminar presentations, contribution to discussions, problem-solving exercises, research projects and assessed coursework

Global Citizen Study Abroad (GCSA)

For the aims, learning outcomes and application criteria for the GCSA Year Abroad please see https://le.ac.uk/study/undergraduates/courses/abroad

10. Progression points

This programme follows the standard Scheme of Progression set out in Senate Regulations – see the version of Senate Regulation 5 governing undergraduate programmes relevant to the year of entry.

In cases where a student has failed to meet a requirement to progress he or she will be required to withdraw from the course.

a) Course transfers

There are no specific pre-requisites here; however, the following guidelines set out by the University Policy and Procedure for the Accreditation of Prior Learning (APL) (August 2015) apply in the case of requested transfers:

3.9 Decisions regarding the accreditation of prior learning are an academic judgement and departments will determine whether the prior learning is at the required level and broadly equivalent to the learning outcomes which would have been assessed during a module.
3.10 Departments will determine the currency of prior learning on a case by case basis within an overall requirement that, at the time of application, any prior learning which is more than five years old will not normally be considered current for this purpose.

11. Criteria for award and classification

This programme follows the standard scheme of undergraduate award and classification set out in Senate Regulations – see the version of *Senate Regulation 5 governing undergraduate programmes* relevant to the year of entry.

12. Special features

12a. Research-inspired Education

Students on this programme will advance through the four quadrants of the University of Leicester Research-inspired Education Framework as follows:

RiE Quadrant	Narrative
	Our programme provides students with a thorough understanding of society through a variety of different lenses. It draws upon a range of theoretical concepts which can then be applied to numerous situations in order to better understand the world in which we live.
Research-briefed Bringing staff research content into the curriculum.	• Research briefed o Our students will be exposed to challenging learning, which is inspired and informed by our cutting-edge research. All of our teaching staff on the programme are engaged in research, allowing them to use their experiences and findings in their teaching.
Research-based Framed enquiry for exploring existing knowledge.	• Research based o Our students take part in a variety of activities which are based on real world issues. They will learn to apply their knowledge of theoretical concepts and ideas to a range of different social contexts.
Research-oriented Students critique published research content and process.	• Research oriented o Our students will be challenged to critically appraise a range of research articles that have been published in a range of formats. They will learn to recognise the limitations of various methodological approaches the requirements for ethical practice.
Research-apprenticed Experiencing the research process and methods; building new knowledge.	• Research apprenticed o Our students will be guided through the research process by an experienced researcher. Training will be provided on both qualitative and quantitative research methodologies, providing an excellent foundation on which to undertake their own ethical research

As part of studying at a research-intensive university, students on this programme have the following extra or co-curricular opportunities available to them to gain exposure to research culture:

Our well-renowned Scarman and Neustadt lectures take place each year and students at every level across our School are invited to attend. The topics of these important lectures change each time in order to ensure that our students are exposed to a range of cutting-edge contemporary issues, presented by leading figures in their fields.

Our School also holds a monthly research seminar series, whereby staff showcase their latest collaborative research projects to staff and students alike. This provides another opportunity for our students to hear about our interdisciplinary research outside of the traditional classroom.

Teaching on this programme will be research-informed (it draws consciously on systematic inquiry into the teaching and learning process itself) in the following way:

The School supports all staff involved in teaching to gain an accredited Higher Education teaching qualification, in which they demonstrate their use of teaching theory to support their own practice and reflect on their current teaching and continuing professional development.

All programme module convenors attend an annual education away day, which supports teaching activities across the School. Our monthly 'Learning over Lunch' programme provides more frequent opportunities for staff to share ideas regarding engaging teaching approaches. This programme of events supports staff to deliver educational best practice through the sharing of ideas from teaching conferences, talks from external educational speakers, and a platform for staff to share evaluations of their own teaching practice

13. Indications of programme quality

University Academic Review reports
External Examiners' reports
Degree Results and Career Destination statistics.

14. External Examiner(s) reports

The details of the External Examiner(s) for this programme and the most recent External Examiners' reports for this programme can be found at exampapers@Leicester [log-in required]

Appendix 1: Programme structure (programme regulations)

The University regularly reviews its programmes and modules to ensure that they reflect the current status of the discipline and offer the best learning experience to students. On occasion, it may be necessary to alter particular aspects of a course or module.

Updates to the programme

Academic year affected	Module	Update
2027/28	SY3101 Real World Research	Either/Or 45 credit core module removed
2027/28	SY3102 Research Project	Either/Or 45 credit core module removed
2027/28	SY3103 Research, Reflection and Future Direction	New 30 credit core module
2027/28	SY3104 Doing Social Research	New 30 credit core module

BA Sociology

Level 4/Year 1   2025/26

Credit breakdown

Status	Year long	Semester 1	Semester 2
Core	n/a	60 credits	60 credits
Optional	n/a	n/a	n/a

120 credits in total

Core modules

Delivery period	Code	Title	Credits
Sem 1	SY1004	Sociology in Practice	30 credits
Sem 1	SY1021	Power, Privilege & Diversity	15 credits
Sem 1	SY1025	Race, Ethnicity and Racisms in Britain	15 credits
Sem 2	SY1002	Society in Transformation	30 credits
Sem 2	SY1008	Interpreting Key Texts	15 credits
